• INTRODUCTION

The Range Master is a key element to a well-run mounted shooting event. The Range Master's responsibilities include maintaining a safe environment for both shooters and spectators, assessing any penalties incurred when a shooter engages the course of fire, and keeping the match moving in a timely fashion. It should be every Range Master's goal to finish the match with as few procedural as possible, accomplished by prevention, rather than overlooking penalties.

In order to accomplish these tasks, the Range Master must fully understand current rules of the Cowboy Mounted Shooting® Association (CMSA). The Range Master shall have a pocket copy of these rules as they perform these functions. CMSA offers Range Master Certification, which is strongly recommended to those who will be filling the Ranger Master role.

A. BEFORE THE FIRST SHOT

- i. Before the first competitor starts, the Range Master should look over the selected courses with the Match Director, insuring there are no safety hazards for shooters or spectators. The barrels are to be a minimum of 25 ft from the side of the arena and 25 ft from the end. Targets shall be 30 feet from the arena rail.
- ii. The Range Master should work with the Match Director to insure that the courses drawn are safe to be run in the arena. If the arena is small or oddly shaped the Range Master and the Match Director shall select 20 courses from the current CMSA courses to be drawn from that may be safely run.
- iii. The Range Master should ensure that the Match Director has formed an Appeals Board, consisting of 3 experienced CMSA competitors and one alternate. Alternates will be used only to avoid potential conflicts or when one of the committee is involved in the protest. The Range Master should never be involved in a debate with a competitor or observer. The Appeals Board is appointed for the purpose of dispelling controversy regarding any Range Master calls. See Sec. 15.B for further details.
- iv. Ensure that you, as a Range Master, are fully versed in all current CMSA rules.
- v. The Range Master should be prepared to enforce ALL CMSA rules, including clothing rules. The Range Master and/or Match Director DO NOT have the authority to waive any CMSA rule.
- vi. The Range Master should watch for any unsafe situations.
- vii. Be prepared to "call it like you see it". The appeals process is available to all competitors. Range Masters should not take an appeal personally, it is every competitor's right to protest any appealable call.
- viii. The Range Master should insure that the Match Director has announced in the competitor's meeting that any and all new members be pre-qualified to illustrate their ability to safely negotiate the course and properly handle firearms.

B. AS COMPETITORS ENTER THE ARENA

The Range Master should be going through a mental checklist, including:

- i. Check gates to make sure all are closed.
- ii. Target setters, spectators or gatekeepers are on the outside of the arena or in a safe location.
- iii. The course is set with 10 inflated targets in the correct location.
- iv. Timer is working.

C. RANGE MASTER'S LOCATION

The Range Master may be mounted or not and staged to one side of the start/finish end of the arena. It is highly recommended that his/her location remain in the same area during the entire stage. The Range Master may use his/her arm, a flag or GO-Light available from the CMSA to indicate the "competitor ride at will" signal. The Range Master's "go" signal should remain up until the competitor has engaged the course by crossing the timeline.

D. TIMER/RANGE MASTER COORDINATION

The best/fastest system to keep things moving is by using an "understood assumption" that the timing crew will reset (if necessary) the timer after each run without notice to the Range Master. If the timer can function this way or if

- B. There is no limit on the number of horses that a competitor may use in a CMSA match, unless they are being tracked for specific prizes, breed association recognition or for CMSA Horse tracking that are based upon the horses' performance. It is the rider's responsibility to notify the Match Director or scorekeepers of the event if changes are required. Otherwise, a competitor may change horses for each stage.
- C. New competitors and/or mounts shall demonstrate that they can safely control or be controlled during the completion of a course of fire prior to entering a competition.
- D. No abuse of animals shall be allowed. This is a Match Director call, done with a warning first. If disregarded, expulsion from the match shall follow.
- E. The CMSA has established a horse tracking system to allow members to track their horses, both grade and breed registered, via CMSA event results at CMSA sanctioned events. Ownership, points earned, placement at events and other

data will be collected to create a history for each horse that has properly been registered with the CMSA.

- i. It is the responsibility of the member to maintain their current status with the various breed registry organizations.
- ii. It is the responsibility of the member to ensure that when competing on a horse the member intends to track that he/she has properly submitted that horse's CMSA registration number to the Match Director.
- iii. Horses being tracked shall compete in all stages of the event entered. Failure to do so will result in forfeiture of all points and tracking for the entire season.

12. EQUIPMENT

- A. Competitors shall use saddles of western design or other approved design (saddles acceptable in any CMSA event such as Cavalry) that are constructed of leather and in safe condition.
- B. A bit in CMSA mounted shooting classes means the use of a curb bit that has a solid or broken mouthpiece, has shanks and acts with leverage. All curb bits must be free of mechanical device and should be considered a standard western bit. 9 inch maximum length shank to be measured from top of bridle ring to bottom of rein ring. Shanks may be fixed or loose. Concerning mouthpieces, all mouthpieces whether broken, solid or chain are legal. The port must be no higher than 3 1/2" (90 mm) maximum, with rollers and covers acceptable. Broken mouthpieces, halfbreeds and spades are standard. A curb bit must be used with a curb strap or curb chain properly attached so as to make contact with horse's chin. Slip or gag bits are permitted in all CMSA events. In all CMSA classes with the exception of the Cavalry class, horses will be shown in a western saddle and appropriate bridle, snaffle bit or hackamore for the duration of the class. Use of a bridle is optional. Use of rawhide or mechanical hackamores or other type of bridles is the optional choice of the contestant. However, mechanical hackamore nosepieces must be covered in leather and cannot have visible or bare metal in contact with the horse's head. However, the diameter of mouthpieces, length of shanks and use of curb straps or chains must comply with CMSA rules. Tie-downs, used cowboy mounted shooting must be leather, flat nylon or rope a minimum of 3/8 inch in diameter. Bonnets (tie-down that goes over the poll and/or across the forehead) made of rope, flat nylon webbing or leather only (minimum 3/8 inch diameter) are permitted. The range master and or match director may prohibit any equipment he/she deems to be inhumane.
- C. Prohibited Equipment:
 1. Wire curb straps, regardless of how padded or covered.
 2. Any curb strap narrower than half of an inch.
 3. Martingales and draw reins, are allowed for CMSA events. Martingales used with curb bits must have rein stops. Draw reins may not be attached between or around the front legs.
 4. Nosebands, bonnets and tie-downs are legal. However, these cannot have any bare metal in contact with the horse's head. Chain, wire, or metal tie-down or bonnets are prohibited, regardless of how padded or wrapped.

13. STAGE DESIGN

- A. Only courses drawn from the current course book shall be used in WPQ events unless specific exception is granted by the CMSA Board of Directors.
- B. A standard CMSA stage is to have ten targets. A competitor is to engage the course of fire with two single action revolvers which shall be loaded with not more than 5 approved

cartridges. Revolvers are to be used one at a time. With the first revolver, a competitor engages a random course of fire (the first half of the stage). This random course shall be set in a safe manner in compliance with current rules and stage design. Upon completing the random course, the competitor shall holster the now empty revolver and draw the second revolver and engage the second half of the stage commonly called the "rundown". Revolvers shall be returned to holsters, which shall be limited to belted holsters, pommel, cantle, and/or shoulder holsters. Competitors may holster and re-holster during a stage as long as no more than one revolver is held at any one time.

- C. The Range Master shall have the responsibility of making final inspection of the course before the first competitor begins their stage.
- D. No running starts into the arena.
- E. All competitors shall start with the gate closed or use of a baffled alley/gate.
- F. Barrel shall not be closer than 25 feet to the side rails of the arena and 25 feet to the end rail and targets shall be a minimum of 30 feet from side rails of the arena.
- G. Courses of fire may be drawn on the first day or not more than 18 hours prior to the beginning of the event and must be posted prior to the beginning of a multi-day event such as a state, regional or championship event. Courses shall not be pre-drawn, posted or published more than 18 hours before the event begins unless special exemption has been granted by the CMSA.
- H. Courses shall be drawn from not less than twenty courses unless special dispensation has been granted by the CMSA, except for Rifle, Cavalry, (which require specified courses) Pro and Eliminator events when using certified patterns.

14. TIMING

- A. Electronic beam "barrel racing" timers, such as FarmTek timers, shall be used for all WPQ and championship events. The competitor and horse shall start the course of fire from behind the timing beam.

15. SCORING

- A. CMSA matches are scored according to elapsed time plus the total of any applicable penalties. The total sum of all of the stages determines all placing.
- B. The decision of the Range Master is final, based on the current rule book. If a competitor wishes to protest the Range Master's decision he/she shall do so by filing a \$50 cash protest fee with the Match Director. The member protesting the call must be entered in the event (event consisting of either a day's event or as an entry in a Championship event) to be protested or be the legal guardian of a minor. The Appeals Board for any CMSA sanctioned match shall be made up of three CMSA Certified Range Masters or experienced CMSA Cardholders and one alternate. Alternates will be used only to avoid potential conflicts or when one of the committee is involved in the protest. This Appeals Board shall be set up confidentially by the Match Director prior to the shooters meeting. No appeal shall be heard, discussed or pre-vote opinion taken of the Appeals Board until the \$50 is paid in CASH to the Match Director. The Appeals Board shall then convene and review the situation by reviewing video, listening to the competitors' case and/or seeking the Range Master's input. They shall then discuss and

vote in private on whether to accept or deny the protest. If the appeal is granted the \$50 is returned; if the appeal is rejected the \$50 goes to the club or event producer. A brief report shall be sent to the CMSA with the match results on detailing any and all appeals filed at a WPQ event. Appeals Board decisions are not appealable.

ALL PROTESTS are to be filed on the same day as the protested call took place, or within a reasonable amount of time. This is a Match Director call.

- C. **Points shall not be retroactive.** Match Directors and/or host club or event producers are to enforce that competitors either have their current membership card or have joined CMSA at the World Point Qualifying match in which they wish to compete.

16. PENALTIES

A. Penalties shall be restricted to the following:

A competitor who drops a firearm before engaging the course may be removed from his place in line until the firearm has been cleaned. No consequences shall be received for a firearm dropped beyond the time line after crossing the finish line at the completion of his/her run.
- C. A competitor who becomes dismounted during the course of fire receives a non-qualified run.
- D. In the event that a firearm comes into contact with the arena floor, that firearm becomes a dead gun. For safety reasons the Range Master, match official or experienced adult member shall be the only person to pick it up.
- E. Total final time for any ride shall equal no more than 60 seconds. Total time for a competitor that does not complete any stage shall be 60 seconds for that stage.
- F. All targets shall be broken by direct gunfire, except as follows. Targets broken by nature prior to the competitor engaging that target shall be shot to be considered a hit. Any target that has been engaged and is broken by nature, a horse's tail, or unknown source shall be considered a hit if broken prior to crossing the timeline. If it is unknown what broke a target and the competitor has shot it, it shall be considered a hit.
- G. No penalty will be given to any competitor for knocking over a target pole unless it is designated as a "gate" in the stage description. The two "Targets" that make up a designated gate on a course of fire shall be called "gates". If a competitor knocks over either target cone or automated target inflator making up a "gate" at any time during the completion of a stage it shall be considered a 5 second penalty.
- H. A competitor shall have been determined to have engaged the course once he has crossed the start/ finish line and is

on the clock. At that point, he/she accepts the stage as it is. Thereafter, any mechanical malfunctions of your firearm or gear, including your horse, shall not constitute a re-ride. If balloons are placed in an incorrect position, engage the course by position rather than balloon color.

- I. Passing behind the timer. If a contestant passes behind the timer he/she is deemed to be dangerous and out of control and will receive a non-qualified run (60 seconds).
- J. If a contestant re-crosses the time line after completing his/her run and restarts the timer, he/she will NOT be granted a re-ride. If the timing equipment has the ability to access the previous time there will be no penalty. But if the time is unavailable the rider shall receive a non-qualified run (60 seconds).
- K. If a competitor is notified during or after the completion of a stage that a timekeeping error or a timing malfunction occurred the competitor shall be granted a re-ride by the Match Director.
- L. If a competitor crosses the timing line prior to completing the course of fire, he/she shall receive a non-qualified run.
- M. The Match Director shall grant re-rides as soon as possible after the completion of that run. Re-rides are given as a new stage. The competitor does not carry forward any misses or a clean stage.
- N. If a run is interrupted, the call for a re-ride is made by the Range Master.
- O. The "no alibi" blank rule shall be in place for all CMSA sanctioned matches. There are no squibs, high primers, or misfires accepted. There shall be no re-rides or scoring adjustments for problems with mounted shooting blanks.
- P. If a competitor hits two targets with one shot they may use the remaining round to pick up any target they may have missed. This is referred to as the Two Target Rule or TTR.
- Q. Gun twirling, fanning, shooting behind the back or other unsafe gun handling techniques in an arena shall be a 5 second penalty assessed per occurrence.
- R. While competitors are required to wear a cowboy hat, protective headwear, or appropriate headwear at all times in the arena, your hat must remain on top of your head until you have engaged the course. The penalty for a hat falling off prior to engaging the course (crossing the timeline) shall be a 10 second penalty.
- S. Competitors may holster and re-holster, but may not have more than one revolver in hand at any given time. One gun shall be in a holster when the competitor crosses the timer. Failure to do so will be a 5 second penalty.
- T. If there is doubt on a call the outcome shall favor the competitor.
- U. Failure to have sleeves buttoned/snapped/fastened at the wrist shall be a 10 second penalty.
- V. During CMSA events there may be times where camera flashes, loud crowd cheering or other distractions may come from the stands. As these are typical by-products of competition, no rules shall be made to govern actions such as these outside the arena, and are understood to be incidental to competition. Therefore, no re-rides shall be given for such occurrences.

17. RULES THAT RESULT IN A PROCEDURAL, NON-QUALIFIED RUN, OR DISQUALIFICATION

17(a) Violation of the following shall result in a non-qual-

ified run.

- a) Discharge of a round outside the course of fire (any time or place prior to or after engaging the course) shall incur a 60 second penalty for either the previous or next stage at the discretion of the Match Director. If the competitor reloads and shoots the pattern he or she shall be disqualified from the match. If the competitor, knowingly, or unknowingly, allows a person to possess their firearm(s), with or without permission, and a round is discharged from that gun (without permission from the match director) then the person responsible for the safe keeping of the discharged firearm(s), as well as the person who discharged the firearm, shall be assessed a 60 second penalty. With the match director's permission and prior approval, a competitor may test fire round(s) outside of the course of fire with no penalty.
- b) Engaging the course without the consent of the Range Master shall be a penalty of 60 seconds.
- c) Breaking the timer, without engaging the course, before or after the Range Master has given the "ready to ride" to the competitor shall be a 60 second penalty. NO WARNING SHALL BE ISSUED.

- f) All competitors shall use certified "match supplied" .45 Colt mounted shooting blanks. No personal mounted shooting blanks of any type are to be used in CMSA competitions.
- g) No abuse of animals shall be allowed. This is a Match Director call which shall result in expulsion from the match.
- h) Refusing a Match Officials request to inspect a firearm. Match Officials (Range Masters for the event and/or Match Director or their designate) have the right to inspect any and all firearms before or following a competitor's run. The CMSA expects match

officials to exercise good judgment in when and how inspections are performed to create a fair environment for all contestants.

- D. Given that Range Masters have greater discretion when assessing Wrangler penalties, it is suggested that one Range Master call all Wrangler stages at a given match. There can be a second person in the arena serving as a "spotter" or a "safety rider". The second person can assist the range master watching the gates, routes prescribed by the Wrangler director as well as assist the Limited Wranglers that may need assistance completing the course. The Range Master is the ONLY one who can assess a penalty.

The course design will be for both the Open and Limited class Wranglers.
- F. Limited Wranglers shall engage the course as prescribed in the rule book. - viii. In the event the parent and/or guardian has an accidental discharge while loading the Wrangler's firearm or while handling the firearm prior to shooting, that Wrangler will be assessed a 60 second run.
- ix. No Wrangler (Open or Limited) can ever carry a loaded firearm. If a Wrangler carries a loaded firearm, they will be assessed a 60 second run. A parent or guardian will carry the loaded firearm. B. The Official CMSA Automation System is now available to all CMSA Affiliated clubs; those clubs that elect not to utilize the new system shall verify all match data to ensure its accuracy. Host club or event producer will be charged a fee equal to the points fee for each contestant that is submitted incorrectly. 33. CAVALRY CLASS

- A. The Cavalry class shall be divided into two cavalry classes, Limited (Classes 1, 2 & 3) and Open (Classes 4, 5 & 6) regardless of gender.
- B. Definitions:
- i. The Cavalry class is a mounted revolver competition that combines historical re-enactments and horsemanship, while paying tribute to the mounted soldiers of the Cavalry. Inspired by the great diversity of colorful military uniforms from, the Civil War (1861-1865) Union and Confederate, Plains Indian Campaigns (1870-1879), Southwest Campaigns (1880-1889), Canadian Mounties (pre-1898 Northwest Mounted Police) and Spanish American Wars (1898). This Class shall be conducted as a side match, and presented in exhibition form. Emphasis should be strongly placed on authenticity in uniforming, firearms, saddlery, and other equipment of the mounted branches of the cavalry, bringing more pageantry and Americana to the Cowboy Mounted Shooting Association's matches in a lively and historically accurate manner.
Like any other CMSA competition, the Cavalry class is open to all current CMSA members, except Wranglers.
- C. Clothing/Uniforming:
- i. All competitors shall wear a uniform, consisting of some

form of appropriate headwear, a uniform jacket, appropriate belt gear, footwear and trousers of the period. While certain items of uniforming may vary, depending on the unit depicted, jackets (uniform coats) for the period the competitor has chosen will be required. For example, while it is well known that many Confederate units had difficulty in obtaining uniforms, and often campaigned in homemade uniforms, shirtsleeves, or civilian clothing, for the sake of sameness for both sides, competitors depicting rebel soldiers will be required to wear a uniform jacket. Nevertheless, Confederates may wear trousers other than strictly the regulation light blue (Confederate regulations stated that uniform trousers were made of light blue wool, virtually identical to those of the Union army). Since southern soldiers wore blue (often captured from northern soldiers), gray, butternut (brownish gray) and even civilian attire such garments will be permitted, so long as they are of the 1860's styling. This has been decided for the sake of the colorful variety of uniforms that will be worn in the arena, yet will not place an unfair competitive advantage on one side or another. Both Union and Confederate competitors may wear any period shirt underneath the jacket, and vests are optional.

- ii. Scouts or officer fringe leather jackets may be worn as long as military pants, proper hat, boots, etc. are worn.
 - iii. Women - Although there weren't any official female fighting units during the Cavalry period, there were a number of women who disguised themselves as soldiers and otherwise followed the army throughout the war. Some women who served as camp followers, officer's wives, etc... adopted colorful uniforms of their own that included skirts. Outfits such as these will be allowed in the Class, so long as all of the other rules of the division are followed (firearms, jacket, hat, saddlery, tack, holsters, and so on).
- D. Firearms:
- i. Any revolver that is legal in standard CMSA competition may be used in the Cavalry class.
- E. Gun Leather/Holsters:
- i. All competitors shall be required to use Cavalry-era, flap holsters as were most commonly used during the period they have chosen to portray. Military type flap covered pommel holsters and civilian full flap holsters of the period may be used, all holsters shall have flaps that fall naturally over the revolver's grip. Pommel holsters may also be used as a secondary holster, but a minimum of one revolver shall be worn on the competitor's person and be used in competition.
*Any revolvers worn on the body must be carried butt forward. The empty revolver must be returned to one of the holsters.
- F. Mounted Shooting Blanks:
- i. The only mounted shooting blanks allowed for use in the CMSA's Cavalry class are CMSA certified .45 Colt mounted shooting blanks.
- G. Horses:
- i. Any CMSA qualified equine may be used in CMSA Cavalry class.
- H. Saddles:
- i. Horses used in this competition shall be tacked with proper period saddlery equipment. For example, saddles can be any of the following types: Model 1859 and up McClellan saddles, single rigged Texas Hope-type saddle, U.S. Grimsley, or the Jennifer pattern, along with English and Plantation saddles of the period are among those saddles of the Cavalry time period that can be used. Ladies, if they choose, may ride sidesaddle. All parts of the saddle shall be period correct including stirrups, hardware, skirting, etc.

Externally blankets shall be of the type from the period. Pads underneath shall be out of sight. Saddlebags, canteens and other equipment of the period are encouraged. So pick the saddle and tack for the time period you have chosen to portray.

- I. Headstall: All headstall equipment should be of the patterns used in the era the competitor has chosen to portray. This includes halter, bridle, bit and reins and all hardware should be period correct. Bits should have at least exterior appearance of the period.
- J. Stage Design: The courses of competition for Cavalry shall be drawn from the current CMSA Course Book and shall be those courses allowing enough time to return guns in flap-covered holsters and draw the second revolver from another closed flap holster.
- K. Timing: All CMSA timing rules apply.
- L. Scoring: Competitors shall meet the uniform, saddle, holster, equipment, etc. requirements in order to complete a qualified run. However, the CMSA or event producer may choose to have a separate contest independent of the match for best dressed competitor.
- M. Penalties:
 - i. All CMSA rules apply.
 - ii. Failure to wear the minimum Cavalry dress and saddle requirements shall result in a non-qualified run.
 - iii. Improper holsters and improper placement of holsters shall result in a procedural and the competitor will receive a 10 second penalty.
- N. Targets: Blue and gray targets are recommended.
- O. Cavalry World Point Qualifier (CWPQ) Match requirements:
 - i. Minimum of two stages.
 - ii. Minimum of 2 contestants.
 - iii. If there is payback it will be a minimum of 40% on the CMSA payback method.
Clubs will have the option of paying back or not, but if payback is offered it shall be as follows. 40% (or more) is paid back from the cavalry entry fee split by the number of entries in each division (Limited Division money stays in the Limited Division) and that amount is paid back on a 1 – 5 basis.
 - iv. The CMSA will track and recognize the point's winners at the Club, State, Regional and National levels in the Limited (1 – 3) and Open (4 – 6) divisions. There will be no gender split in the National Cavalry points program.
 - v. Same Cavalry rules apply. Limited/Open split.
 - vi. If a local CMSA club wishes to host a Cavalry WPQ they may run a three stage revolver event WITHOUT seeking special permission and a two stage cavalry match. This provision is ONLY offered to clubs hosting CWPQ events.
 - vii. Points are dependent upon the type of point multiplier used for the revolver competition. Those who entered with both types of rifle will return ONLY one time in the finals.
 - iii. Rifle competitors may enter either or both classes, although when a final/showcase is performed the top five or ten overall regardless of class of rifle will return. If a competitor qualified with both types he/she will select one and return to the finals only one time.
