

Latin buying assistance

Help is at hand if you've ever thought of importing a rust-free classic from Italy, but were put off by the language barrier, bureaucracy and risk. Alan McNaughton Gisby's ASMG Italia consultancy provides independent inspections and documentation checks, plus can assist with advice on import and export procedures, as well as negotiating prices and evaluating sellers. A detailed inspection and photographic report costs £250 plus any travel expenses incurred.

The English-speaking, Veneto-based firm can also manage projects and restorations as well as logistics to offer a complete service.
