## **2021 LMCP Coastal Grant Priorities**

*based on 312 Metrics*

1. Projects that prepare for and minimize the risks from coastal hazards, changing conditions, and emerging issues
2. Projects that result in or contribute to the completion of a state-level policy or plan
3. Local-level projects that reduce further damage from coastal hazards
4. Projects that protect, restore, and help to better understand the services provided by coastal ecosystems
5. Projects that protect coastal habitat through acquisition or restoration
6. Projects that improve public access to Lake Michigan to enhance recreation and enjoyment for all
7. Creation or enhancement of public access sites through acquisition or other means
8. Determined through public input
