Fred Hill, Jr., Individual Star

Strathmore Wins Dorval Swim Meet

Mr. Roland Charland, President of the Strathmore Community Association was justifiably proud of his swimmers last Saturday. By amassing a grand total of 150 points, the Strathmore aggregation became the first titular holders of the City of Dorval Trophy, symbolic of the City's district championship. Mayor John Pratt, M.P., made the presentation to Mr. Charland on behalf of the City.

Windsor Gardens swimmers finished strongly to garner 117 points and second place, nosing out Dorval East by a margin of only one point. Pine Beach was a close fourth with 112 points. Courtland Park with 28 points made up in effort and enthusiasm what they lacked in winners and were in contention all the way.

Fred Hill, Strathmore's 16 year old flash, won five races to gain the day's high individual honors with 25 points, and the right to hold the Percy Walters Memorial Trophy for the ensuing year. Mr. and Mrs. J.R. Ballantyne, the trophy's donors, made the presentation. This outstanding young swimmer was also presented with a silver cup as a permanent memento of the signal honor won by him on the occasion donated by Mr. G. Webster,

of the Pine Beach Community Association.

Runners-up in the individual aggregate scoring and deserving of special mention for their efforts were Carolyn Kerr, 11 of Dorval East, who won four firsts and one second to score 23 points; Bobby Crichton, 11, of Windsor Gardens, with 19 points; Gall Munro, 15, of Dorval East, with 18 points; Andree Paquin, 14, of Pine Beach, 16 points; Tom Dyce, 14 of Strathmore, and Mrs. M. Townsend, of Dorval East, both with 15 points; and Mr. Van Beekun, of Pine Beach, with 14 points.

Records established only two weeks ago in the Lakeshore Swimming Meet at Pointe Claire were broken in 11 events.

A complete list of results is tabulated on page 8.

T.C.A. Orders Computer For Electronic Reservations System

A \$1,500,000 binary computer centre has been ordered for Trans-Canada Air Lines' new electronic reservations system.

The center will be built by Ferranti-Packard Electric Ltd. of Toronto. This same company was awarded a \$2,000,000 contract last March to build field equipment for the reservations system. Ferranti-Packard had been working with the Company on the research and development for more than five years.

Expected to begin operation in 1961, the new system will speed up the reservations process, increase the effective output of Agents and reduce the risk of human errors to a minimum.

The computer will be of a dual general serial binary type capable of processing about 36,000 reservations an hour, or an average of 10 every second. Company engineers expect about 6,000 reservations per hour during peak periods in the initial stages of operation.

The central registry computer will actually consist of two computers sharing a single storage centre. While the two will normally share the work load equally, each is capable of automatically taking over all functions should the other fail.

In the early stages, only a small portion of the computer's total potential will be utilized. According to Company engineers, the computer is designed to operate at high speeds due to the randomness of reservations functions and T.C.A.'s determination to accommodate all peaks without delays.

The system is flexible enough to adapt to changing conditions and requirements without equipment modifications. Tentative plans call for excess computer capacity to be eventually used for other Company functions such as statistical recording, etc.

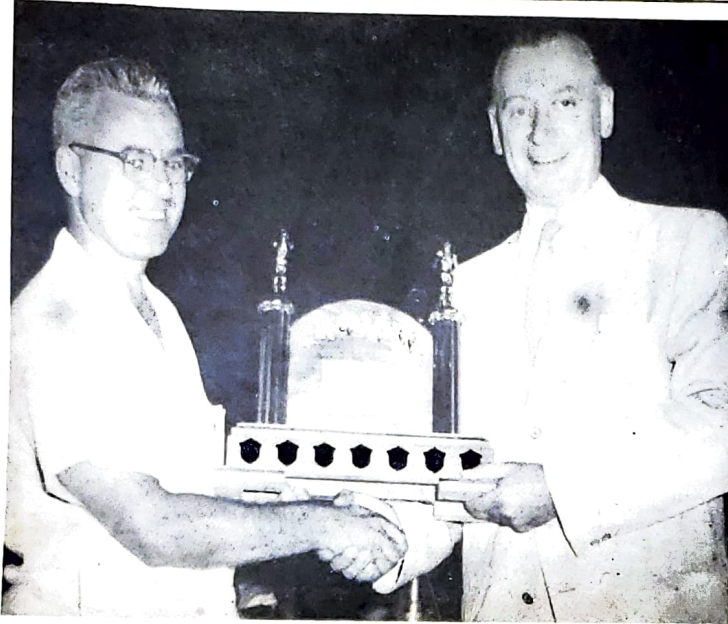

The central registry will be located in Toronto. It will be linked to some 350 reservations transactors throughout Canada and in the United States by already existing telephone-type communication lines. Line and transactor maintenance will be carried out by the Canadian National Telegraphs, computer maintenance by Ferranti-Packard.

Conceived and developed by T.C.A., the transactor is the most effective means for the Agent to transact reservations business with the central registry. The size of a small filing machine, it automatically scans and "reads" pencil notations drawn on a special reservation card by the Agent and

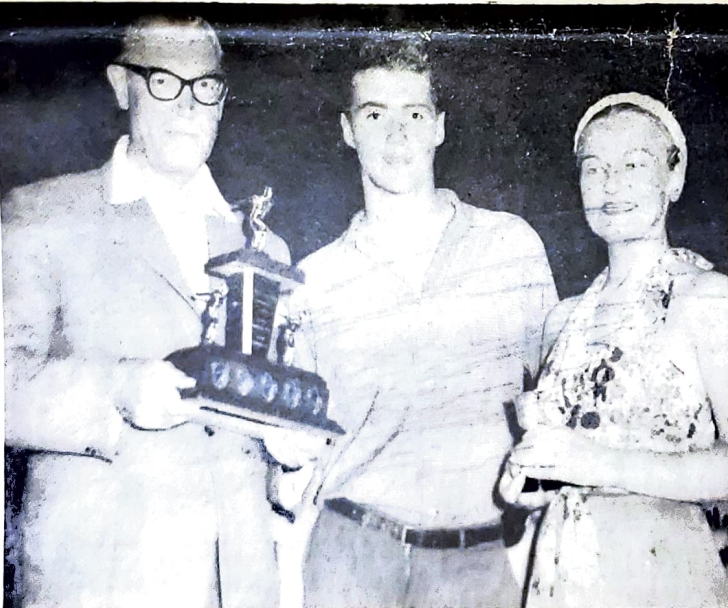

transmits the message over telephone lines to the central registry.

The central registry scans the reservations inventory and returns

Continued on Page 12

Mr. Roland Charland is shown here accepting the City of Dorval trophy awarded to the team gaining the highest number of points in the city-wide swim competition last Saturday. The Strathmore group represented by Mr. Charland garnered 150 points to win the city's district championship over second-place Windsor Gardens who amassed 117 points.

Mrs. J.R. Ballantyne presented the Percy Walters Memorial Trophy to Fred Hill, Jr., who captured the high individual honors at the recent Dorval Swim Meet. Fred, who is 16 years old, won five races to gain the top award. He was also given the silver cup held by Mrs. Ballantyne and donated by Mr. G. Webster of the T.C.A. as a permanent memento of the occasion.

L'shore Redskins In QRFU Opener

The Lakeshore Redskins will tangle with St. Denis, last year's Provincial champions, in their first home opening game at Tremblay Park Friday night, September 11, at 8:00 p.m. Other teams in the league this year are McGill, Rosemount, and a new entry, the Town of Mt. Royal Lions.

Several players who made a name for themselves in the Lakeshore Minor Football League last year are featured in the Redskins lineup. Ian Mathieson from the

Dorval Braves and Ian Mathieson of the Ville LaSalle Braves, who faced each other last year in the Montreal Island championship game by the Braves, are also team-mates. Both will be playing in the Montreal League.

Cliff Wood, Len Wright and "Jack" Corbin, all up from last year, will be in action on offense and on the halfback and starting centre respectively. Wood has been named defensive captain.

Another Lakeshore team who will be playing for second season is an end with the Redskins is Steve McComb. McComb was asked to try out for the Montreal Braves who have been keeping their eye on him.

Children's Safety Projects

Due to the opening of the Roman Catholic schools in the City of Dorval being postponed until September 9th, the programme planned by the Women's Committee of the Dorval Safety Council for the school year will only go into effect around the middle of September. This programme includes such projects as: "Flashes, the Safety Evangelist" campaign, extension of classroom instruction on traffic safety through Monthly Posters and Teacher's Guides for the ten month September

Continued on page 12

Upon receiving the six roses in the Royal Netherland's Air Force, Mr. John Hioschewski came to Canada and chose Dorval for his "Home Away From Home."

Last November when Mrs. Ruth Zuck and Mr. Ralph England organized the E.Z. Players of Greater Montreal, Mr. Hioschewski was chosen as stage manager for their first production "The Heiress" by Ruth and Augustus Costa (based on the Henry James novel Washington Square). The staging was no expert's dream, with such great care, that Mr. Hioschewski was again asked to stage another "E.Z. Players" seasonal production "The Man Who Came To Dinner" which will be presented at the Leclaire High School Auditorium on the evenings of October 15th and 16th.

A WELL - DESERVED BOUQUET

The summer playground program has come and gone and the children have become all the better for it.

According to George Senyk, director of recreation for Lakeshore Welfare Services, and his playleaders, whose pre-season training he supervised, the diversified activities were a bigger-than-ever success.

We wonder how much parents owe, in terms of gratitude, those who selflessly gave of their time over and above the normal line of duty. We wonder how many sought to thank director, playleaders and local service clubs for the effort, the thought that went into a program which helped so many children shake off the boredom that creeps into a prolonged holiday.

Their job is no sinecure. It includes many hours in the lecture room after normal school work is done. It requires tact, patience and a small amount of ability, for this knack of keeping children amused and happy is not given to everyone.

It speaks volumes for the organizers under Mr. Senyk that this year's leaders included many from the previous year who returned for more. They are an asset to any community.

TWO NEW POOLS FOR DORVAL?

While distributing pats on the back, let us not forget the directors and members of the Dorval Recreation Association whose efforts to date to promote the enjoyment of swimming were climaxed last Saturday in the highly-successful inter-area swim meet sponsored by them at the Walters Park pool.

From a somewhat contentious initiation only a scant year ago, the clean, inviting waters of the pool have drawn members to its cool, refreshing depths in steadily increasing numbers to rack up an average of well over 1,000 swimmers per day - not to mention the 800-odd children who learned to swim there this summer. Seeing children and adults alike enjoying themselves at the swimming pool, one wonders how the city ever got along without a swimming pool - the gap it fills is so self-evident.

Not content to rest on their well-earned laurels, the D.R.A. is now exploring the possibilities of two more outdoor swimming pools in the city. Area locations which suggest themselves to us are Pine Beach North and Dorval East.

Here is a wonderful opportunity for community and recreation-conscious citizens to put pool facilities within easy walking distance of most Dorval homes and extend still further the present opportunities for swimming and life-saving instruction for their children.

The Dorval Recreation Association has shown it can do the job and do it well if given the necessary support. To say it is deserving of such support is, we feel, to put it mildly.

STILL HOPING

We commend to Provincial Transport Company a service common to many North American cities and to Europe, but non-existent here - to wit, commuter shelters for protection against the elements.

Poofs with four pillars will soon be rising on Toronto streets, although local critics claim they will afford no protection against gusting snow or rain. They want something more elaborate, like a miniature waiting room. The Transport Commissioners answer that this is not possible for morality reasons.

If cost is the objection here they could be limited to three places in Dorval - one on the Lakeshore, two on the Boulevard.

Half a loaf is better than no bread at all. We would settle for a tin roof supported by broomsticks. Ask any snowman on a blustery day and we feel he'd be inclined to agree.

John Pratt

Reports From Ottawa

In this series of eight weekly articles, we have attempted, in the brief space at our disposal, to cover the most important points of the extremely large subject of water pollution. The principal purpose of this series has been, first, to acquaint the public with some of the facts, and, secondly, to suggest that governmental action will be much more quickly forthcoming if the public, both individuals and associations, will act to bring pressure to bear upon the governments concerned. Unfortunately, there is little general interest on the part of the public at large except during the heat of election campaigns or during frightening emergencies, such as the current polio epidemic. Now is the time for all interested groups to communicate with the Federal Government, as the period between parliamentary sessions is the time when legislation for the next session is considered and drafted. If we fail to take advantage of this opportunity we may well fail to obtain action during the next session of parliament and another year will be wasted.

Incidentally, on the question of public apathy, we have so far received only two or three letters or calls from citizens sufficiently interested in fighting the curse of pollution, and a couple of other calls from newspaper men and engineers who are professionally interested in this subject and who have offered me their most welcome support. One engineer has sent in an excellent brief to the Federal Government and one of the journals, CIVIL ADMINISTRATION, has sent me the following letter which I am taking the liberty to quote for the very interesting statistics it sets forth:

"Dear Mayor Pratt:

"Many thanks indeed for the very informative telephone conversation which we had yesterday afternoon.

"As I outlined to you, Civic Administration recently conducted a survey in Canadian municipalities on "sewage treatment". 1,225 questionnaires were sent out to municipalities from British Columbia to Quebec (the Maritime provinces were not included). These municipalities were one with a population of over 1,000.

"There were 710 replies received, approximately 58%, so that the following figures could pretty well be taken as a true picture. In Quebec, out of 256 responding municipalities, seven municipalities have sew-

age treatment plants, 13 are planning plants in the near future and 236 municipalities are not planning any sewage treatment plants.

"In Ontario, out of 212 municipalities, 88 have treatment plants, 52 have plans for building plants, while 72 municipalities are not planning any.

"In the Prairies and B.C., 68 municipalities have treatment plants, 29 are proposing plants, 45 are proposing building sewage lagoons, while 100 municipalities have no plants whatsoever.

"In total, 29% of the responding municipalities (207) have existing sewage treatment plants or sewage lagoons, 13.2% (94 municipalities) are proposing plants, while 57.6% (409 municipalities) have no plants for the treatment of sewage.

"As I mentioned, I am forwarding copies of your series of articles to my editor, Well Ritchie, for his perusal. If I can be of help to you in any way, please do not hesitate in getting in touch with me.

"Yours very sincerely,
CIVIL ADMINISTRATION
D.R. McCaense
Eastern Representative"

This subject is a huge one and we could continue this series forever but I do not see any purpose in carrying it any further until we obtain a much greater active support from public bodies or until we are successful, by our personal efforts, in obtaining some definite action at

Ottawa which we will gladly report in these columns.

In the meantime we are not alone in this problem. Reports from across the world indicate that all nations are awakening to the dangers inherent in the pollution of water. Here at home, the City of Toronto, which has done so much, is falling behind because of the tremendous increase in population and housing. All Toronto beaches have been closed this season where the sewage disposal plants have been unable to cope with the increased volume of sewage-bearing effluent. Metropolitan Toronto has announced that it intends to spend \$84,000,000 by 1980 to rid itself of this serious and dangerous problem. Will the Montreal district fall to accept this challenge and continue to despoil its beautiful surrounding waters by human excreta and the deadly outpouring of industrial plants which put profound before humanity? We will continue to do our part to the best of our ability but the solution, and the overwhelming strength required to achieve it, rests with us, the general public.

If this message has got across to you then please sit down immediately and write the government leaders concerned and if you will let us have a copy of your letter, we promise we will not let them forget this matter until something is done about it.

Letters To The Editor

The Editor,
The Dorval Reporter:

On behalf of the P.B.C.A. Executive and myself, I wish to thank all the contestants who turned out for our qualifying round on August 22nd, and also those successful candidates who helped our district acquire our total point score of 112 on the 29th.

It would be a lengthy process to attempt to name everyone who contributed to this very successful day, so let's just say a sincere

thanks and our hats off to the D.R.A. for sponsoring this City-wide swimming event, which certainly was the highlight of our swimming season.
G.H. WEBSTER

D.R.A. VICE-PRES. STRESSES NEED FOR MORE POOLS

"Last Saturday's meet was a smashing success," reports Bob Smith, D.R.A. Vice-President. "Give us another year or so and another pool or two, and Dorval's swimmers will be up there with the best. The improvement evidenced this year, when the kids have had the benefit of a decent pool and training facilities is absolutely remarkable," he said.

"Credit for the success is due to the excellent coaching of Mr. and Mrs. B. Cardinal, 40 Dorval Avenue. Apparently the squirrels' real mother met with an accident and the three youngsters were found by the Cardinals in their driveway. They turned them over to their cat, Frisette, who was expecting a family, and she immediately took charge. When the kittens arrived the squirrels were well-established as regular foster cousins. Their names - Fuseau, Bo Bo, and Gentil.

Yes, it's a cat with three kittens and three baby squirrels and they reside quite comfortably in Dorval at the residence of Mr. & Mrs. B. Cardinal, 40 Dorval Avenue. Apparently the squirrels' real mother met with an accident and the three youngsters were found by the Cardinals in their driveway. They turned them over to their cat, Frisette, who was expecting a family, and she immediately took charge. When the kittens arrived the squirrels were well-established as regular foster cousins. Their names - Fuseau, Bo Bo, and Gentil.

St. Stephen's School Opening

When St. Stephen's High school classes begin this year it is expected that the enrollment will be nearly two hundred pupils, with eight classes, and a staff of ten. The school plans on the introduction of two new courses this year. Geography and Biology. College Preparatory Courses for both Arts and Science are being taught. Laboratory Facilities in the Saint Louis Marie School have been made available for use by the students of St. Stephen's.

Mr. R. Whalen, principal, and his staff, have reason to be proud of last year's record. The first English Catholic grade eleven class to write examinations in a Dorval school came through with flying

THE DORVAL REPORTER 3
September 3, 1955

colors, all of them passing, seventeen obtaining college preparatory exams written in August may bring up the number of preparatory certificates to eighteen. Mr. Whalen pointed out that most of those students who obtained preparatory certificates are continuing their education, three in nursing, one in teaching, two at Saint Xavier, one at St. Mary's College at Notre Dame, South Bend Indiana, five at Loyola, one at Marianopolis, two at the Mother House, and one at R.M.C.

Before going off in September to their various destinations, these students will have an opportunity for a reunion at Graduation Exercises to be held in the auditorium of St. Veronica's School on the evening of September the eleventh.

Lachine - Dorval Y.M.C.A. Offers Effective Reading Course

"Many intelligent people are restricted in their personal growth and development because of poor reading habits and inadequate time to do appropriate developmental reading and study." This is a statement made by leading authorities in the educational field of developmental reading and reading comprehension.

An effective reading course for adults will be offered by the Lachine-Dorval YMCA this fall it was announced by "Y" program officials. The course will be conducted by Mr. Lea Read who has read up similar courses for educational and business institutions. Mr. Read is a lecturer in Personnel Management, Human Relations and Executive Training at Sir George Williams College and was formerly a Vocational Guidance Assistant with the same educational institution.

The effective reading course teaches a person to read much faster and also to increase his capacity to get clear, accurate meaning from the printed word. It is aimed at developing the "thinking" skills as well as the "visual" skills of reading and applying them

in the effective reading of newspapers, magazines, trade journals and books.

The early phase of the training results in most people doubling their reading speed with a slight improvement in their comprehension. As the training progresses it develops the techniques of analysis and interpretation and teaches the person to look for the organization, structure and main ideas of his reading material. It also helps him put effective organization and structure into his own communications media.

The ten weeks course is offered to adult men and women 18 years of age and over and will have a restricted enrollment in order that some individual coaching may be provided.

Information about other activities and programs for adults is available by calling the YMCA at ME1905-7-2511 and requesting a printed brochure.

Dorval Safety Council

The regular monthly meetings of the Dorval Safety Council will resume on September 14th. These meetings are held on the second Monday of each month in the City Hall, Martin Street at 7:30 p.m. and are open to all residents of the City of Dorval.

With the ever-growing traffic problems in a City such as ours, there is a great need for all the assistance possible from every public-spirited citizen of the City of Dorval. It is hoped that every organization in the City will ap-

point a representative from their Civic Committee to attend these meetings.

At the present time the Dorval Safety Council lacks the services of a Secretary and Mrs. V. Godbeer, the Chairman, would be pleased to hear from anyone who would offer their services in this capacity. Interested parties are invited to call Mrs. Godbeer at ME 1-1138.

Be Wary of Belts

A belt can often limit the life of a dress, so be a careful belt buyer advises the National Institute of Drycleaning. The Institute suggests you look for the wording "drycleanable" stamped on the back of the belt because many belts aren't.

Sometimes it's because the backing is made out of such stuff as cardboard, imitation leather—even paper. These come apart in the cleaning solvent. Sometimes there is an adhesive in rubberized interlinings which dissolves and stains the outer belt covering.

Drycleaners are careful to remove belts and handle them separately so as to avoid each other's dusters.

Other belt problems your drycleaner can tell you about are fraying and broken fastenings that fade or bleed because of inferior dyes; belt and buckle backings which are fastened with an adhesive or glue which dissolves in the drycleaning solvent.

Beware, too, of plastic or metal decorations which won't withstand even the mild mechanical action necessary for the drycleaning process.

IN FOCUS

By K. M.

Last week I decided that a trip to the City Hall was a "must." An appeal here, I thought, would assure me of one source of stories representative of Dorval. From the friendly people who work for the city, and who were ready to take time from a busy day to help me, I pass on the highlights of this little tour.

The library door was open when I entered the building and Mrs. Lachance and Mrs. Fortin were putting in extra long hours there. On the counter was a stack of bright new books, two dozen French language children's books, to be catalogued. Mrs. Lachance was really excited over this purchase, the first step toward a larger section in the library. When I explained my mission Mrs. Lachance said that many people who come to the library "discover" City Hall, and many with errands at the city offices (water, gas money, fines, traffic tickets, and all that sort of thing) "find" the open door to the library for the first time.

Mrs. Savard, secretary of Mayor Pratt, was rushing around before a three o'clock meeting - a city consultation with Steinberg's transportation department concerning traffic - but she was kind enough to introduce me to Mr. Delorchio's secretary, and also managed the feat of getting me into Mr. Rene LeBlanc's office for a few minutes.

Mr. LeBlanc gave me two photos which showed what some vandalism had been able to accomplish in Walters Park shortly after the new sod was laid there. Two tire tracks about fifteen feet long showed where a careless driver had torn the sod and turned it over in neat lines like a furrow from a plough. "And that," Mr. LeBlanc said, "is what some people think of what we are trying to do in Dorval!"

At the switchboard the most exciting news circulating concerned wedding of two staff members, one in July, and one about to take place on September 5, and I have passed these on to the social column. However, the young lady at the switchboard, Miss Lyse St. Onge, told me shyly that she was taking her mother, Mrs. L. St. Onge, whose natal is on Friday, September 4th, to New York and Atlantic City for her birthday celebration. I thought, "We should all be as fortunate as Mrs. St. Onge - to have a daughter so pretty, and able to take her on such a trip, for such an occasion."

At the police station Sergeant Brochet took me in to see Chief Noel. Everyone assured me that he would have human interest stories and he did not disappoint me. "Well now," he said, pointing to a letter he had been reading, "I have this letter of thanks from a mother, which has just come in." Then he told me this very surprising story. The chief tells a story very well, and all the flavour of police background is in it when he tells it.

On Saturday, August 22, about one o'clock in the afternoon the police had a call from a gas station on Dorval Avenue to say that a little boy was there who seemed to be lost. Little boy he turned out to be - not more than two and a half. The police cruiser took him up and down the nearby streets, and the child did not seem to recognize anything familiar. The police drove the boy as far as Strathmore, and still there was no response. They took him to the police station and he had the usual royal treatment accorded lost children. Finally Sergeant Rousseau took him to his home for supper. Later, when on night duty, Sergeant Rousseau received a call from his wife saying that she had heard a radio broadcast reporting a small boy missing in Beauharnois. Contact was quickly made with the provincial police, and the parents of the child came from Beauharnois about nine p.m. to claim the boy, who was soundly asleep at the Rousseau residence. So it was that a small boy, unaware of his adventure, was found in Dorval, and taken safely home to wake in his own bed. However the mystery remains. Chief Noel said that no one knows how this tiny boy managed to turn up in Dorval when he was supposed to be playing quietly at home in Beauharnois. The theory was advanced that the little guy must have travelled quite some way by himself. So far, Andre Simet, two and a half, has not told his secret to anyone. Maybe he wants to try it again sometime!

Chief Noel has another story that will justify the combination of women and telephone calls for some time to come, but it will have to be told next week.

I hope you did not miss the big city swimming meet last Saturday at the D.R.A. pool, a gala event from the first bounce of the water polo ball until long after the fathers climbed out of the pool in their wet pyjamas. Two year old Pierre Bissonette made the first hit of the day when he jumped in the pool to show us how it is done. That red ribbon gal I mentioned last week, did it again, three red ribbons this time. Margaret Townsend, the rose of Dorval East they were calling her over the speaker system. Another "rose," eleven year old Caroline Kerr, chalked up four red ribbon firsts, and one second, giving the champion Fred Hill real competition for the coveted aggregate award. Again this year there was fun for everyone in that hilarity of the D.R.A. staff are able to put into water high-jinks. Keen competition, laughter, dancing in the park, and free Pepsi's made it quite a day. Congratulations to the Strathmore champions!

One last addition - Mrs. Cunningham who writes the Dorval East News, had a tale too tall for her social column. It seems she is beginning to believe in fairy stories again. Cause of it all is a "jack and the bean stalk" sunflower in Mr. Ritchie's yard, next to hers, that is growing right out of this world, nine and a half feet at last measuring and still growing!

Bishop Of Brandon To Speak At St. Mark's

The Right Reverend J.A. Norris, Bishop of Brandon, will be the guest speaker at St. Mark's Anglican Church at the morning service, September 6th. Bishop Norris is attending the 20th Session of the General Synod of the Anglican Church at Ste. Anne de Bellevue.

The Synod convened on September 1st and will continue until September 9th. During the nine-day session, delegates will elect a

Primate and discuss proposed revisions in the Book of Common Prayer. Also on the agenda is a report from the committee on reunion which has been holding conversations with the United Church of Canada on a possible union of some form between the two groups. Reverend R.M. Turpin, the incumbent at St. Mark's Church, will be the officiating clergyman on the occasion of Rev. Norris' visit to Dorval.

Captain Arthur Tonkin of TCA share the spotlight with lovely "co-pilot" Rosemary Keenan from Rothsay, N.B. who won the Miss Canada title at Burlington, Ontario, last month. Miss Canada will take to the skies quite frequently in the coming year as she tours Canada, the United States and Europe.

Local Resident Stars In Marine Softball League

Bryan McNaughton, son of Mrs. M. McNaughton of 115 Allard Avenue, Dorval is another Lakeshore resident whose skill in sports has been duly noted south of the border in recent weeks.

McNaughton, who is stationed with the U.S. Marines at Camp Lejeune, pitched and batted the Headquarters Battalion team to its second consecutive 2nd Division intramural softball title as they defeated 2nd Bn. (Second Marines in a two-of-three series, 6-1 and 4-0 McNaughton gave up only one unearned run in pitching his team to a double victory and the title.

Well-known in local fastball circles, Bryan pitched for Herb Emberg on the Valois team from 1952 to 1956 in the Lakeshore Fastball League and in 1958 when Valois joined the Montreal Intermediate Fastball League. During the latter three years McNaughton, who had joined the Marines, actually played for the team during his annual furloughs.

Football Train To Ottawa

Canadian National Railways will operate a "football" special train from Montreal to Ottawa on Saturday, September 5, for the second meeting of the season between the Alouettes and Roughriders. The train leaves Montreal at 9:10 a.m., daylight time, and arrives back at 8:40 p.m.

James Lalonde, sports representative, announces that tickets are available at ticket offices of the railway and at Lord's Sports Shop. The fare of \$7.60 for the return trip includes a \$3.00 ticket to the game.

Cribbage Club

The annual meeting of the Dorval Cribbage Club was held at the home of G. Harker, 316 Clement Ave. Aug. 21. Officers elected for the 29th season of play were:

- G. Harker, President
- J. Banks, Vice-President
- R. Blake, Secretary
- D. Russell, Treasurer

The Club unanimously elected H. Heath, a life member. Mr. Heath, who will be 96 years old on Oct. 15th., 1959, is still very active in the club and looks forward to each play night with keen anticipation. The 29th season of play will start Sept. 21st., 1959 at the home of G. Harker, 316 Clement Avenue at 8:00 P.M.

Before you purchase a purebred dog, it's wise to attend a dog show if possible, to compare the various breeds and consider the type of dog most suitable to your home, your family and your own personal wishes. For example, you might want a guard dog, a family pet, a dog to be trained as a hunting companion, or a combination. The Canadian Kennel Club will be pleased to inform you of shows taking place in or near your community in the next 12 months. Write the CKC Secretary at 667 Yonge St., Toronto, Ont.

Ottawa which we will gladly report in these columns.

In the meantime we are not alone in this problem. Reports from across the world indicate that all nations are awakening to the dangers inherent in the pollution of water. Here at home, the City of Toronto, which has done so much, is falling behind because of the tremendous increase in population and housing. All Toronto beaches have been closed this season where the sewage disposal plants have been unable to cope with the increased volume of disease-bearing filth. Metropolitan Toronto has announced that it intends to spend \$84,000,000 by 1980 to rid itself of this serious and dangerous problem. Will the Montreal area...

D.R.A. VICE-PRES. STRESSES NEED FOR MORE POOLS

"Last Saturday's meet was a smashing success," reports Bob Smith, D.R.A. Vice-President. "Give us another year or so and another pool or two, and Dorval's swimmers will be up there with the best. The improvement evidenced this year, when the kids have had the benefit of a decent pool and training facilities is absolutely remarkable," he said.

"Credit for the success of the meet is due not only to the fine competition and cheering spectators who turned out in force -- about 800, as near as could be estimated -- but also to a lot of hardworking individuals who provided the superb organization under Meet Chairman Gordon Kerr, assisted by Dorothy Dow, President, Frank Fougnet, Pool Operations Committee Chairman, and myself," he added. "The Area Directors, who worked right up to last minute rounding up competitors, were Roland Charland, Stratmore Dave Schiefeld, Courland Park, Gordon Webster, Pine Beach, Bill Elder, Dorval East, and Fred Hamer, of Windsor Gardens. The D.R.A. is deeply appreciative of the help

Key To Children's Dental Health

A new era has opened in the control of dental disease. For the first time, no child need face the usual prospect of losing nearly five teeth from decay by the time he is 21. Nor need he face the prospect of a mouth badly crippled with dental disease by the time he reaches middle age.

Teeth are designed to last a lifetime. Yet nearly half the population over 40 has or needs artificial dentures. In a country with the finest dental know-how in the world, our dental health is scarcely a candidate for honors. This is the record:

Almost all persons suffer from dental disease at some time during their lives.

Dental decay is the nation's most prevalent disease.

Among adults, the greatest single cause of loss of teeth is periodontal disease, so called pyorrhea.

The key lies in prevention. Prevention against dental disease, beginning at an early age, dentists agree, is the most practical approach to curtailing the vast disease toll.

They point out that, except for some unusual reason, the right dental health habits, begun early in life, should result in sound and healthy teeth that will last a lifetime.

Dentists set out this four-way program for children as the most effective means for maintaining good dental health:

1. - Proper use of the toothbrush immediately after eating.
2. - Emphasis on proper diet, especially the avoidance of snacks of sweet foods between meals.
3. - Periodic dental examinations to detect and prevent early dental disease.
4. - Water fluoridation to prevent about 60 per cent of dental decay that might otherwise occur.

The toothbrush used at the right time in the right way is probably the most important single home weapon against tooth decay and tooth loss.

The right time means immediately after eating, whether it's a meal or a between-meal snack.

It should be recalled that bacteria in the mouth begin acting on sugars within minutes of their consumption to form acids capable of dissolving tooth enamel. Removal of these food particles before the acids can begin destruction is essential.

If it is impossible at times to brush the teeth after eating, the mouth should be rinsed with water.

As for the proper way to brush the teeth, dentists are agreed that an up and down movement should be used. The strenuous side-to-side method is highly inefficient.

Generally, the bristles of the brush should be pointed toward the roots of the teeth. The brush should be moved so that the bristles sweep over the gums and teeth. The upper teeth should be brushed downward and the lower teeth upward. The inside surfaces of the teeth should also be included, and the wide chewing surfaces of the teeth should be scrubbed.

What about tooth pastes and tooth powders? The dental profession recognizes no "miracle" dentifrice. Despite claims to the contrary, there is still no conclusive scientific proof that any tooth paste or tooth powder in itself will prevent dental decay or gum disease.

A dentifrice acts simply to help the toothbrush clean the teeth and tooth brushing can be made more pleasant with the use of a tooth paste or powder.

If there is one point on which members of the dental profession are agreed, it is the damage done to the teeth of young children by well-meaning but heedless parents.

The mother or father who repeatedly gives a child candy and other sticky sweets between meals can set off a chain reaction that may permanently impair the child's dental health.

While the cause-and-effect relationship may seem far-fetched, the fact is that the preservation of a child's first teeth is essential to

the proper alignment of healthy permanent teeth.

And early loss or damage to a child's so-called baby teeth from excessive consumption of sweets, or for any other reason, can start the progression toward malformed jaws and unsound teeth.

As a final word, it should be remembered that in probably no other area of health care does proper attention at an early age pay such large dividends. Teeth, unlike most other parts of the body, do not regenerate themselves when injured or diseased.

Field trials for sporting dogs and hounds are becoming increasingly important in Canada, states The Canadian Kennel Club, official body governing canine affairs in this country. In 1946, 18 trials took place. Last year the number totalled 67 (not including numerous informal picnic trials), and this year's trials are expected to reach a record-breaking total.

By K. M.

...the City Hall was a "must." An
...me of one source of stories re-
...dly people who work for the city,
...a busy day to help me, I pass on

A visit to grandma in a far away place is joyously anticipated by the children, but is often a paralyzing thought to the mother of the brood. It shouldn't be so, for train nowadays is especially planned for entire families by the railways. Yet the journey is only as successful as the thought that goes into it before it begins.

First of all, pack the things that will make it easy to keep the children occupied. Choose a small kit bag that one of the children can easily tote and in it place "surprises." Wrap them in brown paper and mark them "First Morning" - "First Afternoon" - "First Evening" - and so on for each day of travel. Using some intuition and imagination, choose card games, coloring cards, puzzles, etc., which the children have not seen before, from the five and dime stores.

When the children become bored with this type of play, encourage them to take part in competitive games. Choose the ones that take some mental agility such as "numbers" or a spelling bee. There is another favorite game older children enjoy, that is counting the telephone poles to reckon how fast the train is travelling. The smaller tots could count red cows in the pastures beside the tracks. Put on a time limit for games of this kind, have a small prize for the winner.

Children should not be allowed to eat constantly between meals. This may keep them quiet for a while, but it builds up trouble for the future. Constant motion and sweets can spoil a journey for the whole family when not wisely combined.

If there is a baby in the family, take along his folding car seat. This can be hung on the back of the section seat and will lift the tot to window level. There are small, folding toilet seats which can be purchased for very little and pack flat, taking up a very

...fit in with the baby's slumber
...periods, then take the children into
...the diner, tell the steward what
...they would like and when they are
...finished he will see they are re-
...turned safely to your car. Later it
...will be possible to leave the in-
...fant in charge of an older child
...while mother has her meal in peace.

Children should be encouraged to nap in the afternoon and retire early. Excitement, which is a natural companion of children on any journey, is fatiguing and can affect tempers.

Little ones should not be allowed to run the aisles. This is harassing both for parents and other passengers. They should, however, if they are old enough, be shown where the dressing rooms are and how to use the equipment.

Travelling with children need not be a frightening chore. It can be more pleasurable for the whole family, if the children's thinking is conditioned ahead of time to the fact that train travel will be more confining, but more fun than playing in their own backyard.

Captain Arthur Tonkin of TCA share the spotlight with lovely "co-pilot" Rosemary Keenan from Rothesay, N.B. who won the Miss Canada title at Burlington, Ontario, last month. Miss Canada will take to the skies quite frequently in the coming year as she tours Canada, the United States and Europe.

Chief Noel Asks Motorists To Exercise CARE

A magic formula, simple and effective, was devised today for Dorval motorists, travelling long distances during the Labour Day weekend.

The suggestion comes from Chief of Police A.R. Noel and can be summed up in just one simple word - CARE.

Here is the real meaning of this word for motorists, Chief A.R. Noel explains:

1. Courtesy on the highway.
2. Alertness at the wheel.
3. Relaxation and coffee at regular intervals.
4. Eagerness for a safe arrival, by observing speed and traffic laws.

By keeping this magic word in mind, the Chief hopes, motorists and other road-users will help to make this Labor Day weekend a truly happy one, even for police officers on duty.

For policeman, he points out, a truly happy holiday period is one when no arrests and major accident reports are made. Both of these, he emphasizes, are all too often the result of lack of care.

D.R.A. VICE-PRES. STRESSES NEED FOR MORE POOLS

"Last Saturday's meet was a smashing success," reports Bob Smith, D.R.A. Vice-President. "Give us another year or so and another pool or two, and Dorval's swimmers will be up there with the best. The improvement evidenced this year, when the kids have had the benefit of a decent pool and training facilities is absolutely remarkable," he said.

"Credit for the success of the meet is due not only to the fine competition and cheering spectators who turned out in force - - about 800, as near as could be estimated - - but also to a lot of hardworking individuals who provided the superb organization under Meet Chairman Gordon Kerr, assisted by Dorothy Dow, President, Frank Fougnet, Pool Operations Committee Chairman, and myself," he added. "The Area Directors, who worked right up to last minute rounding up competitors, were Roland Charland, Strathmore; Dave Scheffeld, Courtland Park; Gordon Webster, Pine Beach, Bill Elder, Dorval East, and Fred Ilamer, of Windsor Gardens. The D.R.A. is deeply appreciative of the help rendered this Committee by friends and members who acted in the many official capacities necessary in the running of this event."

"We need more pools in Dorval," continued Bob. "Swimming is one of summer's grandest sports and recreational activities. Every family should be able to enjoy it, but our lake pollution problem is robbing our citizens of a rightful heritage. That is why the D.R.A. undertook to provide Dorval with its first pool. Look at the use which has been made of it this year. 835 children taking swimming lessons, including 150 non-member children from the parks "learn to swim" programme; and over 67,000 attendances recorded at the gate, from a membership of approximately 800 families."

"For these newcomers to the City, and others who may not have realized it," he went on, "the D.R.A.'s aim of promoting needed recreational facilities and activities on a City-wide basis scored another first on Saturday. The City of Dorval meet is to be an annual affair, as is the Lakeshore Meet which the D.R.A. initiated and sponsored last year, with the cooperation of the three Pointe Claire pools. Competitive swimming is being established on the City's map for keeps. It is hard, though, to provide sufficient instruction and training time in one pool that is as busy and popular as ours is."

"There must be many more families in Dorval who would enjoy another facility like this. Unfortunately, the present pool has about reached the limit of its capacity to give its members the kind of unrestricted swimming they like and want. The D.R.A., however, has a do-it-yourself formula which

Continued on page 12

Bob Smith (on the left) and Frank Fougnet do some precision-diving for the benefit of the large audience assembled at the Dorval Swim Meet held on August 29th at the Walters Park pool. A water polo exhibition and clown act also captured a round of applause from the spectators.

THE
DORVAL REPORTER

Lake St. Louis Anglers' News

by G. DOW

The General Meeting held on August 25th at the Lake St. Louis Anglers was presided over by the Vice-President Mr. C. Lance, due to the absence of our President Mr. Shelly. This meeting was not as well attended, as far as senior members were concerned. We hope this was due to holidays. The junior members, having received a notice, turned out in force, therefore it was suggested that they try to organize themselves and be a credit to their club. This they have done by arranging a meeting for August 31st at the club. Next week column will have data of this meeting.

Many ladies present hearing of the financial status of the organization, and wishing to show interest in their husbands fishing club, said they would be willing to organize a Ladies Auxiliary branch for the purpose of raising funds for badly needed repairs to the club property. This would also bring many more of the wives to the club. This subject will be discussed at the next Directors meeting of the Ladies Interests.

A very important item was brought before the Board of Directors from Mr. Carl Estey concerning the size of fish eligible for the point system. This cannot be clarified this week but details will be obtained after the Directors' meeting. At the fish Derby of July 4th the rules were: Muskie, minimum weight 8 lbs., 2 points per lb; Dore, 2 lbs., 3 points per lb. Bass, 1 lb., 4 points per lb. Pike, 2 lbs., 2 points per lb; Perch, 12 oz., 2 points per lb. Mr. Stehler, in charge of entries of big fish, has asked us to publish this information on points.

Mr. Clark asked about repairs of the waterfront of the main building, the dock where some members use to get their moorings. This will be looked after as soon as possible. Minor repairs have been made from time to time through the summer by replacing a board here and there.

Mr. C. Lance, Membership Chairman, reported that the membership this year was very good considering that no account was given of last years members. We have to date nearly 700 members and many more are expected with our winter activities planned to keep the club open all winter.

Mr. Paquin mentioned that the dances were profitable but mainly that the members attended, enjoyed themselves, and came back to other dances such as the following dance to be held September 19th with the wonderful Sky Liners playing their sweet music. Get your tickets early so as not to be disappointed, because we know this will be a big dance being a request dance. A Kodak Camera will be one of the prizes given to a lucky person. Remember this date, Sept. 19th.

The restaurant at the club is open at all times, so anyone wishing the pause that refreshes, step

*Denotes events where records set at earlier Lakeshore Swim Meet were broken

DORVAL

Sports on Parade

BY GABY FILIATRAULT

The Lakeshore Minor Football League has just released the schedule for the 1959 season. The first game scheduled for Saturday, September 12th, will see the Dorval Dukes visiting Westlake at the MacDo grounds at 10:00 a.m. The Dukes will play on the following dates from home during the season: On Friday September 18th, at Lachine against Lachine at 8:00 p.m.; On Sunday, September 27th, at Valois against Pointe Claire. In the second half the Dukes will play three games at their new football field at Courtland Park, all home games being played in the evenings starting at 8:00 p.m. under lights. On October 2nd, day, Westlake will be the visitors on Friday, October 9th, Lachine will visit Courtland Park and on Friday, October 16th, Pointe Claire will close the official season when they visit our Dukes.

It is interesting to note that Lachine and Dorval will play all home games in the evenings. Saturday mornings or afternoons don't seem to be popular with the local fans. Playing in the evenings should be an answer and we hope it will bring many new supporters for the Dukes. The Dukes, with only two seasons of play, have a very good record. In their first year finishing with a tie in second place, they were eliminated in the play-offs, but last year also finishing second behind the powerful Lachine Lakers, they upset all of the expert predictions by defeating the Lachine boys in a memorable series. This year with many players left from last year's squad Coach Morris hope to be able to repeat their performance.

News from Lachine that Gilles St. Onge has just signed a professional contract with the Philadelphia Phillies is no surprise to the Dorvalites. Five years ago Gilles played on our Pony team and although he was showing a lot of baseball knowledge, Gilles is a very conscientious fellow and always took his baseball seriously. He is also a hockey prospect but will have to give up that sport in order to re-sign his new contract with the Phillies. Gilles also stars in many sports and is a complete athlete. All this is well by Lachine and Henri sportsmen, but another point that every one should know is that Gilles is following the example of his father, Jacques St. Onge. Jacques St. Onge of Lachine is one of the members of the St. Onge family and is responsible for the formation of baseball leagues in Lachine for many, many years. For a long time he took an active part in various organizations for the children of Lachine and his son Gilles has followed his example in always helping wherever possible. He coached baseball, hockey teams and was always ready to teach the youngsters what he knew. It is not very often that a young boy is ready to give all of his spare time for the benefit of others and we are very happy to wish Gilles all the success possible in his new career.

Incidentally Gilles is the second Lachine boy that declined to sign for the Los Angeles Dodgers and signed instead for the Phillies organization. Paul Duval of the Phillies seems to be very popular in Lachine. Tommy Karkness was the first one and now Gilles St. Onge. Could it be that the Dodgers and their representative Romeo Pilon are not interested any more in youngsters from Quebec to play for the Royals? Or is it simply because they are not ready to meet the financial conditions offered by the other organizations? Many boys from the Montreal Junior League have been signed by major organizations and are doing very well. To mention only one, Basillargeon, who only in his first year has already graduated to class A Baseball and is doing very well. Our boys, given proper training and playing facilities, can compete with the best. It is one of the main reasons that we are pushing so hard to get a regular baseball playing field and an indoor arena for our youngsters, knowing that in the near future some of our Dorval citizens will be able to represent our City in major sports activities.

Members of the All-Stars team in the Junior B Baseball league from the Dorval Builders team were Ken Stefaniuk, David Ortwein, Mike Kirby, and Bobby Johnston.

The Dorval Little League series for the championship title was to start last Monday between the Tigers and the Red Sox in a two out of three games series. The second game was to be played Tuesday and if a third game is necessary it will be played to-morrow night, Friday, all at St. Charles Park. Both teams have good pitchers and strong hitters and it should be a very good series.

Also starting Monday, at the St. Charles Park, the Dorval Fastball League play-offs will take place, so there is still plenty of action for the fans at St. Charles Park this week. The Dorval Fastball League is the oldest league in Dorval. It first started to operate many years ago and although during that time the name of the league changed, it always was the only local softball or fastball league and at certain times enjoyed a lot of success with the fans. In the last few years the calibre of play has increased a lot and very good players can be seen in action on every team operated by good sportsmen, the teams are as much as possible, formed with equal strength and the interest is kept at a high pitch to the end of the season.

The swimming meet that took place last Saturday at the Dorval Recreation Association swimming pool was a great success. Swimmers from the five districts of our City competed for the City's title (won by Strathmore) and the water polo exhibition that took place before the contest started proved highly entertaining.

Lake St. Louis Anglers

inside and get your dance tickets, membership tickets, fishing licenses etc. at the same time. One never knows who one will meet at the club, old members, new members or just plain friends.

Mr. Groulx reports that Bass fishing is good and requests that members watch the size of the bass

they keep, 10" is the smallest size you may keep in Lake, St. Louis.

Duck hunting season is approaching and the date will be published possibly next week. I have counted, myself, over 30 ducks in one flock whilst out fishing so they are plentiful. Don't anyone get trigger happy before the time, it can be very costly for you besides the fact you spoil things for others.

A humorous note to add to our

A sponsored area swimming competition Pine Beach district qualifying events were held on Saturday, August 22nd.

made poor Mr. Geoffrion smell very sweetly. Mr. Geoffrion was in fine condition though on Saturday to meet his brother Francois from Quebec, a welcome visitor to the Club.

ADVERTISE IN THE DORVAL REPORTER

WEDDING

MORE AND MORE DELIVERIES BRING O'Keefe ALE

Delivery boys everywhere are noticing this new trend to O'Keefe. Every day more and more people are discovering mild O'Keefe Ale. Next time you order beer from your grocer, be sure to ask for O'Keefe — you'll enjoy its natural mild flavour.

THE O'KEEFE MILDNESS SECRET

Ever bitten into a grape seed? It's bitter, unpleasant. Grape growers found by experiment that they could develop seedless grapes with nothing to spoil the delicate flavour. It's the same with hops.

Ordinary hops contain seeds which give an unpleasant bitterness to ale. However, O'Keefe master brewers insist on costlier "Seedless Hops", result—there's no unpleasant bitterness, just the right, natural mild flavour.

Drink O'Keefe The Mild Ale!

Mr. and Mrs. H. Bennett and children, Violet Crescent, motored to Stanstead East on Sat. Aug. 21st. where they visited Mrs. Bennett's parents, Mr. and Mrs. MacIntyre. On Sunday they motored to New Hampshire where a family re-union picnic was held with the relatives of the distaff side of the family. Rev. and Mrs. W.C.B. Ream spent a few days as guests at the home of Rev. P.W. and Mrs. Jones, Lakeshore Drive, The Rev. Ream who has been doing missionary work in China and West Africa was the guest speaker at Dorval United Church.

John Wisnaitiner, St. Charles Ave., was the guest of honor at a progressive party celebrated his 19th birthday on Aug. 22; commencing with a dinner party for 12 at the home of Miss M. Wilkins, Allard Ave., the group then proceeded to the Dorval Gardens Country Club for an evening of dancing, where they were joined by other friends. The party ended with swimming and splashing at the Wisnaitiner's pool which was lighted with colored lights for the occasion.

Mr. and Mrs. M. Bartlemen, Green Circle, have returned from a 2-week vacation at Lake Hampshire, Magog, Mrs. Bartlemen's parents will shortly take up residence at the former Gribben home, Tulip Ave. Mr. and Mrs. T. Flemming, Mimosa Ave., have returned from Cape Cod where they spent 2 weeks.

Nadine and Danny Sheehan have returned to Vancouver after spending a month with their Aunt, Mrs. B. Gillette, Fernie Crescent.

Mrs. J. Mowry, Elaine and Tommy, O'Connell Ave., spent 10 days in New Brunswick visiting relatives, Elaine and her mother travelled on to Prince Edward Island for a few days, returning home with Tommy next week.

Mr. and Mrs. F. Gribben, Tulip Ave., were the guests of honor at a neighbourhood party on Sat. Aug. 22 held at the home of Mrs. M.B. Lachance, Martin Ave. Co-hostesses were Mrs. E. Ham and Mrs. G. Olive. The Gribbens left for their new home at North Barbary, B.C. on Aug. 27.

Get-well wishes to Wayne Declé, 5th Ave., who has a broken collar bone which occurred during a football game. After repairs in the Lachine General Hospital he is now recuperating at home.

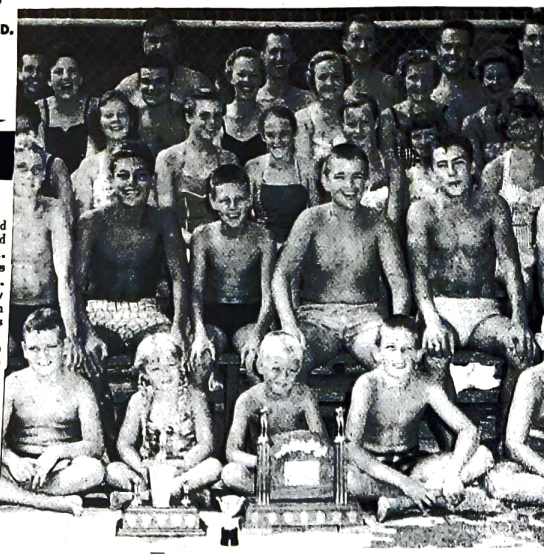

Congratulations to Mr. and Mrs. F. Jones, Ferndale Crescent, who celebrated their 9th wedding anniversary on Aug. 17; also to Mr. and Mrs. B. Gillette, Ferndale Crescent, who will be 13 years married on Aug. 31.

Mrs. G. Chesley, Mimosa Ave., attended the wedding of her niece, Miss Raymonde Aubry, to Mr. Henri Cardinal on Wed. Aug. 26 in the Presentation of Our Lady Church. The young couple will reside on Martin Ave.

Mr. G. Townsend, Green Circle, spent a week in the Maritimes on a combined business and pleasure trip. He was accompanied by his parents, Mr. and Mrs. Townsend of Montreal.

Mrs. Jean Roberts, O'Connell Ave., has returned after spending a month in England.

Mr. F. Street, Green Circle, has returned from St. Joseph's Hospi-

month.

Mr. and Mrs. A.M. Thomson and family, 4th Ave., have returned from a motor trip to Ottawa, Toronto, Hanover and Wasaga Beach. While in Ottawa they visited Mr. and Mrs. Milne and daughter Sherri, former residents of the Dorval Garden Apts.

Birthday greetings to Mrs. A. Noel, Dahlia Ave., wife of Dorval Police and Fire Chief, whose birthday is Aug. 30; also to Mrs. W.I. Cunningham, Violet Crescent, whose natal day is Aug. 31; to Mrs. W. Ritchie, Violet Crescent, Sept. 1st; to Mrs. F.T. Ball, Decary Place, Sept. 2; Mr. F.T. Ball, Aug. 30; Mr. Leathley, O'Connell Ave., Sept. 2; and Mr. P. Balenko, Lakeshore Drive, Sept. 5. Congratulations to all.

The Millar family, Michael Jamin Road, spent an enjoyable holiday at Lake George.

Kathleen Gillette, accompanied her father to Red Deer, Alberta, by plane to visit her grandparents, from Monday to Sunday.

The wedding of Mr. Edgar MacNeil of Tulip Ave., and paymaster of the public works dept. at Dorval City Hall, took place on July 25. His bride was Miss Mary Borak of Lachine. They recently returned from their honeymoon at Lake Placid and are residing in Ville St. Pierre.

A speedy recovery to Mark Townsend, Handfield Circle, who broke his wrist while playing on the jungle bars and is now in a cast for a while.

Birthday greetings to Rufus Turpin, Dahlia Ave., who will be 8 years old on Sept. 1; to Billy Hawker, Lepage Ave., 8 on Sept. 2; to John Kollias, Dawson Ave. Apts, 9 on Aug. 30; to Bill Thomson, 4th Ave., 7 on Sept. 4; Michael Guter, 1 year old Aug. 26; to Richard Mash, Dahlia Ave., 12 on Aug. 27; to Nancy Hawker, Lepage Ave., 6 on Aug. 28; and David Wilson, Dupont Ave., 13 on Sept. 2.

The Forman family of Cote de Liesse Rd. left last Friday for Quebec city where they have been transferred.

Mrs. E. White and son Garry who spent most of the summer at Lake MacDonald, Laurentian Mts., are home again.

Welcome to Mr. and Mrs. Kenney, Grace and Linda of Lachine who

ret, Sources Road, have returned after spending their vacation Douglastown, N.B. Best wishes for a speedy recovery Mrs. Ralph Wright, Neptune d., who is convalescing at home after having undergone surgery in Montreal General Hospital. The opening meeting of the ender Year Group of the Strathmore United Church W.A. will be on September 8th at 8:15 p.m. the Church Hall. The Guest speaker will be Mrs. R.J. Perry, a commentator and press correspondent accredited to the United Nations. For the past four years Perry has attended the sessions of the General Assembly of U.N. in New York and has toured across Canada and the United States to Church organizations, Home & School groups, etc. various aspects of the United Nations of interest to them. Mrs. Harvey will be guest soloist. A special invitation is extended to the women of the Church and friends to hear this outstanding speaker. Congratulations to Mr. and Mrs. Ald K. Creswick, Westwood, celebrated their wedding an-

Raymonde Aubry Weds Henri Cardinal

The marriage of Raymonde Aubry, daughter of Mr. and Mrs. J. Aubry of Dorval, to Mr. Henri Cardinal, son of Mr. and Mrs. H. Cardinal of Dorval was solemnized on August 26, at ten o'clock at L'Eglise de la Presentation de la Sainte Vierge, Dorval, Rev. R. Hogue officiating.

The bride wore an afternoon length dress with a fitted bodice of white Chantilly lace over satin decorated with seed pearls, and bouffant skirt of organza with lace applique. Her veil of tulle illusion was held by a coronet of seed pearls and sequins, and she carried an orchid-centered cascade bouquet of pink roses and stephanotis.

Following the reception held at the El Paso Cafe in Lachine, Mr. and Mrs. Cardinal left for Niagara Falls, Ontario, and the U.S.A. The bride travelling in an ensemble of red wool, trimmed with black fox and accented with black accessories.

The couple will reside on Martin Avenue in Dorval.

Dorval Swimming Meet

Jasmin Rd.

The Safety Council held an executive meeting, at the home of Mrs. V. Godcher, O'Connell Ave., on Monday, Aug. 24. The next regular meeting will be Sept. 14 in the City Hall.

Sampling Sessions Featured In Tour Through Port Wine Country

If tariff wars, currency restrictions and other unfriendly gestures had not disrupted the wine trade with France, England might never have invited the Portuguese to develop a vintage to their liking.

The wine, of course, was port. Its origin was the simple table wine of Portugal's northern Duro region, and while relished by local bibbers, was simply not acceptable to palates accustomed to French bouquets. Gradually, however, the Portuguese, with the active aide of the British, introduced refinements in fermentation, aging and bottling, and eventually developed the nectar which is generally regarded today as the king of dessert wines.

From a scenic or interest point of view, a tour through the port wine producing area measures up to the most exciting travel requirements. Guest Airways, which serves Lisbon via its Miami gateway, suggests you begin the tour in the capital at the Solar da Velho Porto, the official tasting center. For about eleven cents, you can sample some of its hundreds of famous port brands, preferably beginning with a light dry wine, working your way toward the tawny types.

The second step in the tour is Oporto, which you can reach by car, train or plane. The roundtrip air fare for the 80 minute flight from Lisbon is about \$20.

Oporto is Portugal's wine trading and shipping center. If you would like to visit one of the town's shippers, some of whom have been in business since the days of the Mayflower, the Instituto do Porto will tell you how to go about it. A trip through the shipper's wine vaults is recommended, as is a sampling session under the guidance of one of his expert tasters.

The Douro, less than 80 miles from Oporto by train or car, is the third step in the tour. Guest's travel experts suggest you visit the region in late September or October when the harvest festival season is in full swing. Then high-spirited pickers gather the grapes at top speed to the accompaniment of an accordion, a drum and sometimes a full orchestra. As soon as the new wine starts leaving the presses, the ferias or festivals begin. Lively music, swirling dances, the din of fireworks and the roll of drums are further animated by the flow of young port.

Whatever the season, the Casa do Douro, the guild of port grape growers in the town of Regua, will arrange the best itinerary for you to follow on a tour of the vineyards. You should also visit the lagares where the grapes are pressed and the private wine cellars of the growers where you may have a chance to taste their special vintages. If you are adventurous, perhaps you can persuade the mate of a "barco rabelo" to take you back to Oporto aboard his boat. The barco rabelos are the curiously designed sail boats which transport the wine down the Douro River to the shippers' lodges in Vila Nova de Gaia, just opposite Oporto.

In co-operation with the D.R.A. sponsored area swimming competition on Saturday, August 29th, the Pine Beach district qualifying events were held at the D.R.A. pool on Saturday, August 22nd.

While the programme was a little light on the number of contestants in some events, interest was very keen, and enthusiasm high. Featured in the first picture are the three youngest swimmers - Susan Goring, Brian Wade and Jo Ann Ransom.

In picture No. 2, a group of all the first-place winners who qualified for the city-wide meet on the 29th.

Picture No. 3, a group of all the second-place Pine Beach winners who rated an "E" for effort.

Pinning Coat Lapels Keeps 'Em In Shape

The "rounded look" in men's suit coats is a mark of high fashion. The expert skill of the finisher in your drycleaning plant should insure that the coat's original rounded shape is restored and the lapels are not flattened.

To help keep it looking best through several wearings, the National Institute of Drycleaning suggests you pin the lapels together with a common straight pin when your suitcoat is hanging in the closet.

When un-pinned the lapels will retain the fashionable rounded, shaped look for a longer period of time.

Dorval West

Continued from page 10

anniversary on August 24th.

Mr. and Mrs. J. Hall, accompanied by their children, Strathmore, Thrush Avenue, returned home recently after spending a month's vacation touring Western Canada by plane.

Miss Alva Ekstrand, Lagace Avenue, left recently with friends to motor to California and Stuart.

Friends and neighbours join in extending their most sincere sympathy to Mrs. William M. McLean, Neptune Blvd., on the death of her mother, Mrs. Flewelling in Aroostock, N.B. last week. Mrs. Flewelling had many friends in Strathmore where she had visited many times.

Congratulations to Mr. and Mrs. S.L. Baines of Wright Crescent who celebrated their thirty-second wedding anniversary on August 27th.

Miss A. Freberg of Pierson, Manitoba, was a recent guest of Mr. and Mrs. D.B. Clarke, Lagace Avenue.

Congratulations to Mr. and Mrs. Don McCure who were married last Saturday in Sackville, N.B. Mrs. McCure was formerly Miss Norma Raworth of Sackville and a nurse at the Montreal General Hospital, while Mr. McCure has resided on Swallow Avenue for the past year and has made many friends in the community.

Birthday greetings to little Susan Rowe of Westwood, who was three years old; to Alice Neeson, St. Louis Ave. who was ten years old and Margaret Ellacott, St. Leon, who was fifteen years old, all on August 30th. Greetings also to Stephen Charters, Tonzin, who was eight years old on Sept. 2nd. Mrs. Leslie Sutcliffe, Starling Ave., returned home recently after spending several weeks visiting relatives in Switzerland.

Mr. and Mrs. Andrew B. Cowe who were married here last June and have spent their honeymoon in Scotland, are arriving home by plane today. Mrs. Cowe, formerly Barbara Boland, is the daughter of Mrs. Roy G. Boland of Thrush Avenue, and is a teacher in Courtland Park School.

Mr. and Mrs. E.J. Chapman, Clement Avenue, spent several days in New York City last week.

Sincere sympathy is extended to Mrs. Lloyd Brown of Thorncrest on the death of her father, Mr. Wilmer

has proven itself for simplicity and practicality. A sufficient number of citizens must be willing to make a capital contribution to cover the cost of construction, and be prepared to pay an annual family membership to cover the cost of operation, upkeep and possible debt reduction. Those who don't share the financial obligations don't swim, and that is the only limitation so far," continued Mr. Smith.

"The D.R.A. is presently considering ways and means of enlisting public support for a second and possibly a third pool, to be built next year, if the response is satisfactory. Obviously, the greater the number of contributors, the cheaper it is for everyone. Ideally, if all, or a large majority of families in the community are prepared to share the cost, complete municipalization, with freedom for all citizens to partake of its benefits, would be practical," he stated.

"We would like to hear from readers who are in favor of such a project which is based on a fa-

A. Graham, who died last Thursday. Mr. G. McGowan, Strathmore Blvd., who is leader of the Red Eagle Rover Crew of the Boy Scouts, attended the Third Canadian Rover Moot held in Banff, Alta. recently. Among the local boys who accompanied him were Wayne and Trevor Heavens, Prince Charles Ave., and Bruce Varty, Graham Blvd.

Mr. and Mrs. D.R. Bonnell and their family, Tonzin Avenue, returned home recently from Ramsey, N.J. where they spent a two-week vacation.

Mr. and Mrs. H.G. King returned to their home in Winnipeg, Man. yesterday after having been the guests of Mr. and Mrs. T.C. Pawlett, Starling Avenue, for the past ten days.

Mr. and Mrs. Grant Morrison, St. Louis Avenue, have returned home after vacationing in Lachute, Que. Mr. and Mrs. Royd Dorcas, Westwood, accompanied them to Hampton Beach, N.B. to spend a few days. Miss Sharon Dorcas remained in Lachute with her grandparents, Mr. and Mrs. Irvin Clark.

Birthday greetings to Mrs. Leslie Priorior, Clement Avenue, who will celebrate her birthday on September 7th.

L'shore Redskins

Continued from page 1

The home opener for the Redskins will be held on Sunday, September 13th, at Valois Park commencing at 3:00 p.m. They will take on the Town of Mt. Royal Lions, newcomers to the league, coached by Jimmy Miller, formerly associated with the Alouettes.
