NCC Reflection POS™

Embedded POS for Ice Cream and Yogurt Stores

Reflection POS Embedded is proven POS software with more than 20,000 systems installed in 35 countries around the world.

Reflection POS is equipped with the most sophisticated network on the market. System information is replicated on every terminal across the high-speed TCP/IP network.

Built on solid-state technology and an embedded operating system, Reflection POS is not susceptible to viruses or spyware so you can rest assured that Reflection POS will be ready to perform when you need it.

Why take a chance on anything else!
