Mr. Herner,

You will recall that I wrote to you recently, in a letter dated 16 February 2016, requesting a meeting. That letter was itself a repeat of my original request dated 24 December 2016. I am still seeking a meeting for the reasons stated in those two letters. Myself and at least one other member of the RANGO Executive can be available at almost any time.

In the meantime I have attached a short paper on the problems we see with the air navigation service provider in Canada. Also attached is the "Gatwick Arrivals Review" which you may find interesting reading, since it shows how the entity responsible for the operation of a major international airport undertook its responsibilities and addressed the concerns of the area residents. The attached e-mail exchange gives details of the means employed by Gatwick Airport Ltd. to undertake this review.

We are looking forward to a early reply and a proposed date and time for a meeting.

For the Resident's Air Noise Group of Oakville,

Richard T. Slatter
CEng, FRAeS, Captain (rtd)
