

THE HOLY OF HOLIES TOMB

This study suggests that the Garden Tomb has many of the variables that make it the prime candidate for the actual burial site of Jesus Christ and not the one as claimed of the Church of the Holy *Sepulchre*. As noted, the dimensions appear to replicate the dimensions of the Holy of Holies and that of the entire core of the Tabernacle and Temples of YHVH. The body of Jesus in such a case of a literal and prophetic typology that fits the dimension of the Ark of the Covenant that the true site of the crucifixion as proclaimed by the research of Ron Wyatt marked also the spot some 20 yards underground of the cave in which the Ark of the Covenant Moses made was hid from the Babylonians. Since the excavations in the mid-2000s obviously the Ark was moved to a secure location where it awaits the unveiling of it. Many believe this unveiling of the Ark will galvanize Israel and the world as one of the greatest archeological relics and finds of the modern ear. This in turn could spur the need to build the 3rd Temple for it.

With new modern technology, the topography of the Shroud of Turin has been mapped out. It has been found that amazingly the image on the Shroud conveys a 3-deminsional depiction. From a side view the artwork by Akiane Kramarik has a sticking correspondance to the 3-deminsional portrait. Is this the face of Jesus Christ after all?

5'11"

Martha replied, I know he will rise again in the Resurrection at the Last Day. Jesus said to her, I Am the Resurrection and the Life. He who believes in Me will live, even though he dies.
