

Extending the Project's Deadline to August 31!

Celebrate the Year of the Woman!

KIFA believes this period to be a spectacular opportunity to create an art piece proclaiming connections to Women Artists. The size of the banner is 1-1/2" x 10" to feature 20 artists' works in many media of 1' square recognizing female artists both past and present who have influenced an encouraged so many.

Let this not only be a creative endeavor, but an educational one as well! There are many interesting women throughout history to become acquainted with and gain a deeper insight into their lives!

KIFA invites you to research artists throughout history and up to present day! You may be amazed at the information you can find as far back as the fifteenth century of women who have worked to create paintings, photography, sculpture, functional and wearable art in times when their work was not promoted as art, much less celebrated. Research a woman artist who encouraged and inspired you to create art of varying media ... painting, sculpture, drawing, collage, fabric, paper, photography, mixed media and more.

Here are some artist to get you started:
