

Inclusive Ideas

Predictable

Predictable is designed for people who are literate but don't have the ability to speak possibly due to cerebral palsy, motor neurone disease (ALS), autism, laryngectomy, stroke, apraxia. Predictable offers an enhanced head tracking feature using face recognition technology available on newer iPad Pro devices.

InstaReader

InstaReader creates audio books from photos of textbooks, PDF, TXT, DOCX and WebPages instantly and will read out the audiobooks.

InstaReader is also specifically designed for visually challenged and people with learning difficulties to read independently without the help from readers.

There are four options to create audio books.

- 1) By taking photo of the book from within the app
- 2) By uploading images
- 3) By uploading PDF
- 4) By uploading TXT files
- 5) By uploading DOCX
- 6) From WebPage Link
