

## ROBERT COTTERELL

I am a married self-employed carpenter with 2 beautiful kids.

I have always grown up in and around all sports but running/athletics and football were my main choices growing up.

Always wanting to do a triathlon, I entered 2013 Geelong 70.3. From there the seed had been planted and I am still keen to do races now as I was then.

As far as 2017/18, I am planning on taking part in Mt Martha, Safety Beach and Frog Challenge. Maybe a few more event people races if the body holds up and work/family life allows the time.

What I love most about Sufferfest/Event People is the fact they take the races to the people. In the areas that wouldn't normally have a race there.

As far as being an ambassador. It really fills me with pride, as I am naturally the type of person to help and give my time. I am involved with my Tri Club MPTC and I like to help out the beginner athletes that are a bit unsure of how to go about things. I like to direct them to the likes of Sufferfest/Event People events to get them involved and feel the love of the community type events.
