

# Roman Shades

## Features

- > Woven front fabric attached to knit rear fabric forming soft 4" folds
- > Available in casual and formal fabric styles and colors
- > Room-darkening fabric option is ideal for bedrooms, nurseries, and media rooms
- > Neutral white backing provides a uniform look to the exterior – no grommets or visible cords
- > Continuous cord loop control easily lifts and lowers the shade
- > Fabric-covered headrail blends beautifully with the shade and conceals and protects it when fully raised
- > Matching fabric available for designing decorative accents
- > Limited Lifetime Warranty ensures your customers' satisfaction

## Fabric Style and Opacities

- > **Parlour** – Subtle textured fabric with a casual style
- > **Flora** – Intricately woven floral pattern with a rich, embossed look
- > Both fabric styles feature soft 4" folds and are available with either Light-Filtering or Room-Darkening backing.

## Control System/Options

- > Our Contemporary Roman Shades come standard with a continuous cord loop control system that features color-coordinated cords and tensioner. When completely raised the shade disappears into the headrail.

### > **Two-on-one Headrail**

Two shades placed side-by-side that can be operated independently. Covers large expanses and provides control flexibility.

### > **Multi-Panel**

Two shades placed side-by-side that share the same bottomrail and operate as one shade. Ideal for covering large expanses.

### > **Cut Fabric**

Matching fabric is available by the yard for designing decorative accents such as pillows and chair cushions.

## Hardware and Installation

- > The headrail is wrapped in matching fabric so it completely blends in with the shade. Color-coordinated components enhance the shade's appearance. Snap-in brackets are easy to install and hold shades securely in place. Spacer blocks, hold down brackets, and extension brackets are also available for installation flexibility.

## Easy Care and Maintenance

- > Both the front and rear fabrics on our Contemporary Roman Shades are made of durable 100% polyester. Fabrics are naturally anti-static and stain resistant. However, periodic cleaning will be required to maintain a like-new appearance. Should wrinkles occur, they will usually disappear in a short period of time when the shade is left in the completely lowered position. If they do not, light steaming using a hand-held steamer can help remove most wrinkles. As with all textiles, the shade fabric is subject to some inherent variations. Slight wrinkling, puckering or die lot variations are inherent to this product and should be considered normal and acceptable.

### > **Dusting & Vacuuming**

Shades should be dusted regularly with a feather-like duster. For more thorough dust removal, fabric may be vacuumed with a hand-held vacuum set at low suction. Dust and debris can also be blown away using compressed air.

### > **Ultrasonic Cleaning**

Our Contemporary Roman Shades can be ultrasonically cleaned by a professional. Please specify a mild detergent solution. The headrail cannot be immersed in the solution and the shade must be allowed to dry in the completely lowered position.

### > **Injection/Extraction Cleaning**

This type of cleaning injects a cleaning solution into the fabric and extracts the dirty solution in the same motion. It is a very effective way to deep clean your shades. The service is typically performed in the home so there is no need to remove shades from the window. The fabric covered headrail should NOT be cleaned in this way.
