

## **Welcome to the 2024 Cypress Head Mens Golf Association**

MGA – President's Message 2024

Golf has such a rich history, with many great stories of perseverance. Hogan's recovery after a bad car accident, when he collided with a bus. The journeyman player who has played well throughout his career and finally wins a major tournament, like Brian Harman winning the 2023 Open, formerly called the British Open.

The golfers in our league have different golf backgrounds. Some started young and maybe they caddied. Others may have been lucky enough to belong to a country club and learn golf that way. Or maybe after playing other sports there was a natural transition to golf when we couldn't play football, baseball, or basketball any more.

Regardless of how we got here I think we all have a respect for golf 's history and have a love of the game. We respect the difficulty and appreciate the reward of playing well. We value the integrity of the game with its many rules and self regulation.

In golf we come to realize that even when we are playing well we haven't mastered it. So enjoy the good rounds when they happen and know that a bad round is only a temporary memory.

I think we are fortunate to have such a beautiful and challenging golf course like Cypress Head to play as members of the MGA. The staff at Cypress Head have supported our league and have worked hard to maintain the course for us to enjoy.

The officers and committee members of the MGA are committed to making your playing experience enjoyable. Their hard work and dedication ensures that things run smoothly even when we have disruptions like the weather or unforeseen schedule changes.

The membership makes the league what it is. Please participate by volunteering and giving feedback to help us maintain and improve our league.

Looking forward to the 2024 season and enjoying the Cypress Head Golf Course with you.

Thank you.  
Mike Bagnato, President
