

Ms S.K first came into contact with ATN in June 2018. Ms S.K was looking to get into employment, an updated CV and opportunities to upskill herself. Ms S.K was aspiring to become a Teaching Assistant but was unsure on how and where to enrol on a course that would help her achieve her goal. After having an in-depth face-to-face meeting with an Employability Advisor, Ms S.K was given an updated CV and the skills she needs to tailor her CV in the future independently. Her Employability Advisor also suggested that Ms S.K enrol on a Functional Skills Mathematics course. Since visiting ATN, Ms S.K has now enrolled on a professional course that will result in her gaining the qualifications needed to become a Teaching Assistant. She was also given the opportunity to volunteer as a Teaching Assistant at ATN in order to develop additional skills to benefit her. Ms S.K now believes she has a “sense of direction” following the guidance and advice she received at ATN which has left her feeling immensely positive about her future.
