API Q2 Essentials - 3 Days

Program Overview

This course was designed to meet the needs of both Operators and Service Providers and covers all requirements of the API Q2 specification including the intent and application. In addition, it covers the critical clauses and controls, teaching service providers how to properly develop, deploy, implement and sustain the specification and operators how to review and audit for maximum effectiveness. In this course, we discuss the fundamentals and thoroughly examine the key controls within the standard and how to apply them to eliminate risk while improving operations.

This program have more than twenty advanced practical applications based around the following industry models: Service Execution Model™; Service Quality Risk Assessments; The Service Execution Planning Model; Service Design Model and we teach four different types of Service Quality Plans (SQPs). No other program offers any of these models or tie the specification to actual application that results in reduction of NPT and improvement in safety performance. This course include a detailed explanation of the internal linkages and dependencies that are built into the specification and include actual case studies, real world implementation examples.

Upon successful completion, participants will receive a certification with a unique registration number issued by WPAG and be listed in the Industry Registered Professional Network™.

About the Founder and CEO

Bryan Wollam

Bryan Wollam is one of the world's most respected professional in the Petroleum & Natural Gas Industry, known for his unmatched track record of success, desire for winning, partnerships, value propositions for clients, passion to improve the industry and drive to make the world a better place. He is a member of the API Committees that develop the API Specifications and an accomplished professional with broad experience and recognition in operational excellence, quality, reliability, and HSE in multiple industries. He has expertise in leading organizational transformation resulting in profitability and shareholder value. He is also known as a distinguished speaker, effective communicator and trusted advisor to all segments of the Petroleum & Natural Gas Industry.

In his 22+ years in the industry, Bryan served in leadership positions for Fortune 500 companies and as CEO for Wollam Petroleum Advisory Group (WPAG), Wollam Groups and Wollam Auditing Services working with more than a hundred of the world's most successful oil and gas companies. His management techniques, professional training programs and his ability to help clients transform their quality, reliability and safety performance is unmatched. The achievements are considered epic, and as a result, state-owned, international, national oil companies and service supply organizations utilize him for training and advisory services. He sits on boards and committees for multiple trade organization to include API, IACET, and IADC and collaborates with multiple government entities for the applications of different specifications.

Bryan has been defined by his zealous love of teaching and commitment to building leaders that transform organizations. WPAG has created the industry’s most coveted training programs, and he regularly teaches these programs. Wollam Groups offers executive education and management training resulting in professional certifications and CEUs through IACET. Bryan is intimately involved in every aspect of the business. As CEO, he interfaces directly with industry leaders and gets to know each client.
