

OUR MISSION

The John Thomas NKH Foundation is a 501 (c)(3) public foundation formed in honor of John Thomas. Our goal is to help fund research for NKH and lend assistance to families affected by this disease.

WHO IS JOHN THOMAS?

John Thomas is a little boy who was born with NKH (nonketotic hyperglycinemia) - a rare disease affecting children with about 500 known cases worldwide. NKH affects a child's ability to walk, sit, eat and talk because of disruption in brain function.

The John Thomas NKH Foundation's proceeds go toward the battle against NKH in the following ways.

6 families helped with funds raised by the foundation

\$35K donated in support of those 5 families' medical expenses

\$50K given to support research and special training around rare diseases
