What do we know?

- ▶ Malaria cases are increasing in Africa and Nigeria
- ▶ Vector Control Strategies have remained at same level (Give or take)
 - ▶ WHO promoting Insecticide impregnated Bed Nets
 - ▶ Indoor Residual spraying/fogging
- ▶ Funding for Malaria and Mosquito control has not had a priority in Nigeria
 - ▶ Funds are allocated to tangible projects
- ▶ Malaria has been reduced and/or eliminated around the world

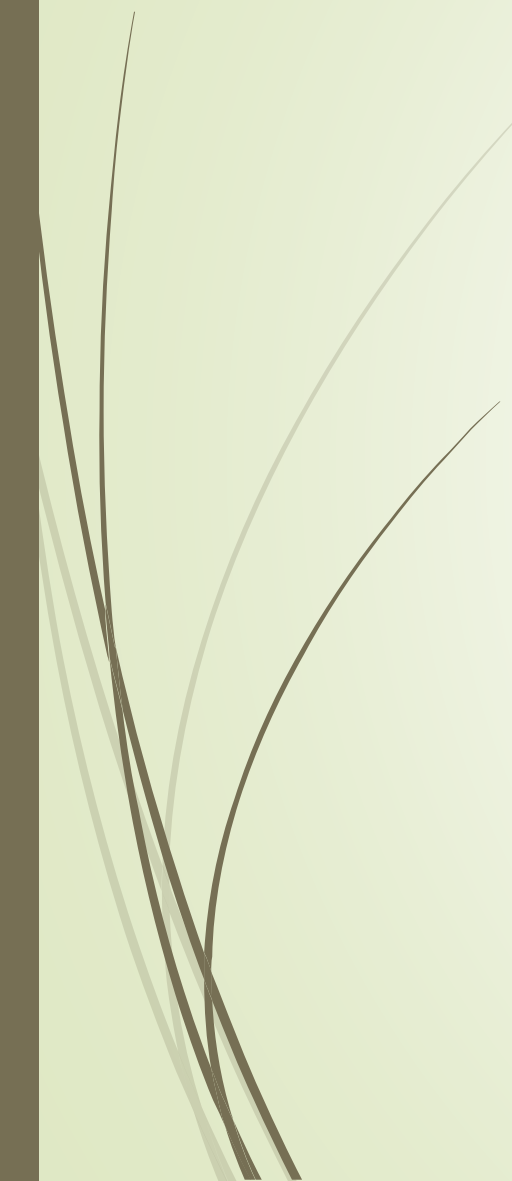

Malaria Control

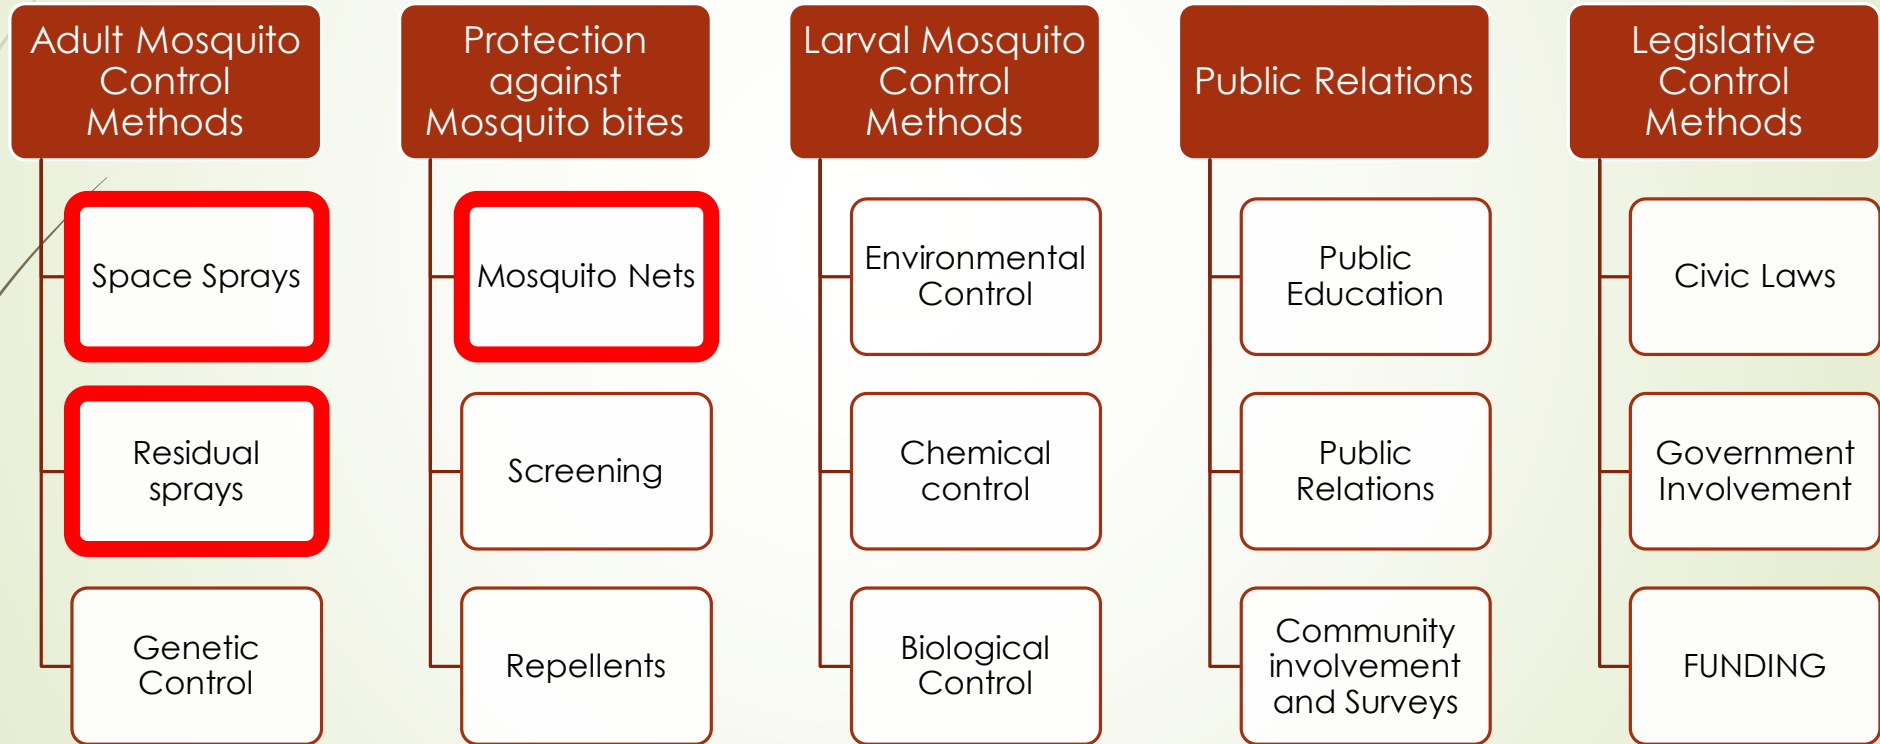

- What is Nigeria and Africa in general doing for Malaria/Vector control?
- Can malaria be reduced or eliminated in Nigeria and Africa?
- If not, why not?
- If so, how so?

Integrated Vector Management

- AKA
 - Integrated Pest Management (IPM)
 - Integrated Mosquito Management (IMM)
 - Integrated Malaria Management
- 

Malaria/Mosquito Control Measures

Questions and Discussion?

Goals of the Workshop and strategies to control Malaria

Edward S. Horvath, MPH

What do we expect to learn and take away?
