

Prepared by: John Kulungian, January 23, 2014

ASQMV Program Workshop: February 06, 2014

Topic: Quality Management: Deploy, execute and manage performance to plan

Speakers: John Hamilton, John Kulungian

Location: Courtyard Marriot

Address: 270 Concord Rd, Billerica, MA 01821

Phone: (978) 670-7500

Workshop objective: Deploy 2014 Section Quality Plan – Performance Awards & Recognition (PAR)

Workshop leaders will use the section 2014 plan and expected results to model Quality management; including PlanBase Software and engage team in problem solving, brainstorming and development of tactics, actions to address specific results.

Workshop leaders: John Hamilton & John Kulungian

John Hamilton served as Quality Manager for Hewlett Packard in the UK through 1995. He moved to the USA to become the Quality Manager for Hewlett Packard Medical Products Group, and then following the acquisition of the group by Philips in 2001, he became the Quality Manager for Philips Healthcare. In 2013 John became the Head of the Productivity Engine for Philips Healthcare overseeing a collection of improvement initiatives across Healthcare to save over \$150M each year.

John has a Bachelor's degree in Statistics and a Master's degree in Operational Research. He is a certified EFQM Assessor; an ASQ trained Six Sigma Champion, and a Board Member of GOAL/QPC. He co-founded PlanBase Inc. a Strategic Planning & Scorecard Management software and consulting company. In his spare time John enjoys running and triathlons.

John Kulungian has focused on quality and continuous improvement in all aspects of business throughout his career. Currently, John leads Quality at Ogin Energy and has played a central role in systems, processes and development of the company to ensure that quality is integrated in all areas of this technology startup. Prior to joining Ogin in 2010, John progressed through manufacturing, quality, continuous improvement and six sigma roles at several leading industrial companies, including Hamilton Sundstrand, Emhart Glass, Goodrich and most recently Raytheon. He is a Juran trained six sigma black belt. John earned his undergraduate degree in Industrial Technology from Central Connecticut State University and his Master's degree in General Management from Rensselaer Polytechnic Institute.
