

Warm-Weather Vegetable and Annual Flowers Plant List 2017

Most of these vegetable seedlings are sold in 3.5 / 4 inch square pots for \$4.50 each.

Most pots contain 2 or more seedlings - hardened off and timed perfectly for planting in this area.

Note - Hybrids are not GMOs, and they are not evil. They are the result of carefully planned natural plant breedings which result in offspring that are often stronger or more resistant to certain issues. We choose hybrids (vs. heirlooms) appropriately; often we

offer hybrid alternatives to address specific, local and climate-related gardening issues, so your garden is as productive as possible

name/variety	notes	special category	DESCRIPTION
Alyssum, White	annual		Easy to grow among the vegetable plants, forms clusters of small flowers that effectively attract beneficial insects and pollinators.
Alyssum, Salmon "Aphrodite"	annual		Easy to grow among the vegetable plants, forms clusters of small flowers that effectively attract beneficial insects and pollinators.
Alyssum, yellow/gold	annual		Easy to grow among the vegetable plants, forms clusters of small flowers that effectively attract beneficial insects and pollinators.
Amaranth - Red Leaf or Red Calaloo	annual		A great warm-weather loving alternative to spinach. Great flavor and very attractive. Keep harvesting the top of the plant and it will keep growing bushier.
Artichoke, Imperial Star Hardy	Long Season Vegetable / could be a Short-lived Perennial if protected		A good harvest of artichoke can be tricky in these parts. Our artichoke seedlings have been exposed to cold temperatures this spring and then brought back into warm temperatures, which helps get a jump on growth and artichoke production. The artichokes are actually the buds of giant thistle-like flowers. You may not as many artichokes as someone growing them in California, but you also can harvest your own chokes with their long stems, so you get more meat!
Artichoke, Cardoon	Long Season Vegetable / could be a Short-lived Perennial if protected		Traditional Italian Holiday Food. Cardoons are in the artichoke family and do get small artichokes. But mainly you grow cardoons for the big meaty ribs of their leaves. Lots of people grow cardoons as accent plants - they are gorgeous like giant silvery thistles. Great architectural shape.

Jerusalem Artichoke or Sun choke	perennial, will spread		Deer will munch these, but once they are established, they will form a perennial stand that will keep producing for a long time. Very prolific - can spread too much. Sunchoke hearts are delicious - they have a taste and texture like artichoke hearts once cooked.
Aster - matsumoto mix	annual		Very attractive squatty mumlike flowers - jewel toned deep colors
Beans - most fresh and shelling varieties do best when planted directly in ground			
We offer some rarer types of beans with long season needs as seedlings:			
Asparagus pea tetreagonolobus purpureus	annual	Limited numbers available- the germination on these is very tricky.	This charming little vine produces dark red blooms which are followed by edible winged pods. Best eaten small (under one inch), they are excellent steamed or added to other vegetables. Sauté whole in butter and they taste very much like asparagus. Thrives in poor soil and full sun.
Bean- Hyacinth Bean or LabLab Bean - Murasakirohana	annual		Ornamental - NEVER EAT RAW. Contains cyanide!! (if cooked very thoroughly can be eaten) I have never eaten these, although I grow them every year. They are beautiful and stunning vines.
Bean - Winged or Goa Bean - see Asparagus Pea	annual		
Bean - Red Noodle Yard Long	annual		These are fun - super long - 2-3 feet long!
Bean - Mosaic Yard Long	annual		These are fun - super long - 2-3 feet long!
Bells of Ireland	annual		A cool cut flower - long spikes of green bracts
Bidens - Cupcake Banana Cream	annual / tender perennial	NEW 2017	boasts elegant bicolor flowers in cheery sunshine yellow and cream tones, and was bred for long season of interest in patio pots and containers. Tidy compact rounded habit, 10" x 14" Full sun to partial shade, moderately fertile well-drained soil
Bidens - Blazing Glory	annual / tender perennial	NEW 2017	<ul style="list-style-type: none"> • Abundant mini-zinnia-like flowering with large, single or semi-double flowers in bright orange/red with gold centers. Stunning • Sun and heat lovers, can also handle cold temperatures • Excellent for mixed containers, pots, hanging baskets & flowerbeds
Bitter Melon - Palee - Trichosanthes kirilowii -	annual		This has lots of almost pointy bumps than the Bitter gourd. Grows like a cucumber. Very bitter but considered an essential flavor and tonic in many Asian cultures.
Bitter Gourd - Futo - Momordica charantia - Balsam Pear	annual		This has wider bumps - more spaced out and more curved than pointy than Bitter melon. Grows like a cucumber, but the fruit is bumpy. Very bitter but considered an essential flavor and tonic in many Asian cultures.

Brachyscome 'Brasco Violet' (Swan River Daisy)	tender perennial	NEW 2017	Brachyscome 'Brasco Violet' is a compact perennial with tons of flowers from spring to summer and on to autumn, with violet-purple daisy flowers with a contrasting bright yellow centre. A great plant for containers and for flower gardens, it is an easy care plant that naturally grows into a neat mounded shape. Flowers best in full sun, but also grows in light shade. Some slow release fertiliser in spring ensures good flowering. Trim lightly if needed in autumn. This plant will tolerate full or partial sunlight. Light frost tolerance. Plant is salt tolerant. Attracts: Butterflies, insects. Well-drained soil.
Bupleurum	annual / self seeding		Great cutflower - with a eucalyptus look and tiny flowers settled in dramatic green/pink/yellow bracts
Bunny Tails Grass	annual	Back for 2017!	Adorable little tufts of white - used in dried flower arrangements and dyed various colors.
Calaloo - see Amaranth			
Cardoon - see Artichokes			
Celosias	annual	not available in 2017	We grow plumed as well as cockscomb varieties
Cleome - Cherry Queen	annual	NEW 2017	fun and easy to grow - attracts pollinators and beneficial insects.
Cosmos - various varieties	annual		Cosmos is a great companion flower for the vegetable garden - tall and frilly with fern like foliage and big wispy crepe-paper like pink, white, and magenta flowers. Great for hiding beans, brassicas from insects. Plant in the rows - the cosmos will grow a foot or so taller than the vegetables and yet will allow in plenty of light while distracting insects.
Cotton - Green Egyptian	annual		long season needed - but works in a greenhouse or if we have a warm autumn.
Cucumbers - we offer over 15 varieties!			
Cucumber, Puglian	annual	not available in 2017	A squatty heirloom from Italy.

Cucumber, Jamaican Burr Gherkin	annual		A rare & unique cucumber relative originating in West Africa & brought to Jamaica via the trans-Atlantic slave trade in the 1500s. It has remained a popular vegetable in Jamaica. The Jamaican variety is a member of what are often called West Indian Burr gherkins. Earlier & more productive than the common strain. The 1-2" long, light green fruits are covered with soft spine-like bumps giving it its unique look. Best eaten when small & young, before filling up with seeds. With a mild, slightly tangy flavor & a pleasing crunch, Burr Gherkins are great as pickles, in stews & stir fry, & also raw. Very versatile, they can be used like cucumbers or cooked like squash. Even though the fruits are small they are unbelievably productive, out producing every other cucumber we have grown. More resistant to disease & insects than cucumbers & squash. Grown similarly to cucumbers however the vines can grow up to 8 feet & love to climb up trellises.
Cucumber, Mexican Sour Gherkin	annual	Back for 2017!	I fell for these completely two years ago when I first grew them. They are tiny - bite size - and look like mini-watermelons. Bright, refreshing flavor. And they kept going way beyond when the cucumbers they were trellised with gave in for the season.
Cucumber, Armenian Slicer - pale green and ribbed	annual		A pale ribbed very long and sometimes curly, delicious one.
Cucumber, Armenian Striped	annual		Valued for its flavor and attractive fruits, this cucumber is also known as snake melon. It is a heavy producer of light and dark green striped fruit that have a curved shape. An excellent slicer, the flesh is mild, sweet and crunchy.
Cucumber, Tasty Queen 10	annual	NEW 2017	Beit Alpha (Persian) style or Japanese - An extra early and high yielding hybrid variety from Japan that is very popular for open field or greenhouse growing. The slender fruits are very crisp, delicious and mature at 8" long and 1.5" in diameter. It has a monoecious flowering habit (plant produces both male and female flowers) and produces abundant female flowers and fruit over a long, productive harvest. Fruit are also carried on the lateral branches.
Cucumber, Bianco primaticcio	annual		WHITE. This year, I'm on a mission to grow a white pickling cuc so I can make red wine vinegar pickles like the ones I bought at Eataly this past fall.
Cucumber, Boston Pickling (Kirby-style)	annual		Traditional cucumber for making pickles. Short and squatty pickle style cucumbers with lots of bumps
Cucumber, Diva (Beit Alpha style)	annual		Beit Alpha (Persian) style - Especially flavorful when harvested small. Diva produces distinctly tender, crisp, sweet, bitter-free, and seedless cukes. Adapted to open-field production and protected cropping. Harvest at 5-7". Gynoecious and parthenocarpic. High resistance to scab; and intermediate resistance to cucumber vein yellow virus, downy mildew and powdery mildew.

Cucumber, Marketmore Slicing	annual		This has always been my favorite classic slicing cucumber.
Cucumber - Progress	annual		Beit Alpha (Persian) style or Japanese - this excellent hybrid, Japanese cucumber has smooth, glossy, green skin and tasty, crisp, burpless flesh. The quality fruits mature to 8" long and 1" in diameter. Vigorous, high yielding plants are very heat tolerant and disease resistant to downy mildew, powdery mildew, anthracnose, and CMV. It grows well in the open field and has a monoecious flowering habit (plant produces both male and female flowers) and sets many female flowers. New for 2014.
Cucumber - Tsuyataro	annual		Beit Alpha (Persian) style or Japanese - This outstanding, easy to grow, burpless type is a bestseller in Japan. The skin is glossy deep green and is smooth with few spines. Best when harvested before 9 inches long. The fruit is very uniform and suitable for open field, greenhouse, and home growing. It has a monoecious flowering habit (plant produces both male and female flowers) and moderate resistance to both downy and powdery mildew.
Cucumber - Soarer	annual		Beit Alpha (Persian) style or Japanese - Valued particularly for its flavor, this Japanese burpless cucumber hybrid is easy to grow and a generous producer of 8" long cucumbers, up to 1" in diameter, with fine white spines and smooth deep-green skin. The vigorous plants tolerate heat very well and resist downy mildew, powdery mildew, anthracnose, and CMV. This variety is suitable for open field growing and has a monoecious flowering habit (plant produces both male and female flowers).
Cucumber - Suhyo Cross	annual	New 2017	Beit Alpha (Persian) style or Japanese - This vigorous hybrid sooyow-type Japanese cucumber has its origins in Northern China. It is easy to grow with good disease and mildew resistance. The dark green skin has defined ribbing and fine white spines. Fruits mature at 10-12" long and have excellent flavor and quality. This variety is suitable for open field growing and has a monoecious flowering habit (plant produces both male and female flowers.)
Cucumber, Summer Dance	annual		Beit Alpha (Persian) style or Japanese - Best known for its extremely uniform fruit, this hybrid grows vigorously and delivers a high yield from its many lateral vines. The mild tasting, deep green fruit are near perfect—straight with fine white spines on their glossy skin. They grow to about 9" long and more than 1" in diameter. Highly resistant to downy mildew and powdery mildew, it has an intermediate resistance to corynespora blight and target spot. This variety is suitable for open field growing and has a monoecious flowering habit (plant produces both male and female flowers).
Cucumber, Tasty Jade (Beit Alpha style)	annual		Beit Alpha (Persian) style

Cucumber, Tyria (Greenhouse or British Style)	annual	NEW 2017	These are the long British Cucumbers you can buy shrink wrapped in grocery stores. Need supports to form straight, long cucumbers. Long, European seedless cucumbers. Avg. 14", lightly ribbed, beautiful, dark green fruits. Delicious and bitter-free. Trellis for straight fruits. Gynoecious and parthenocarpic. High resistance to scab; and intermediate resistance to powdery mildew.
Cucumber, Tortarello Abruzzese (Greenhouse or British Style)	annual		A long "greenhouse" or "british" style dark cucumber with ribs.
Cucumber, Suyo Long	annual		Traditional long-fruited variety from China. A sweet-flavored, ribbed fruit growing up to 15" long. Widely adapted, grows well in hot weather, and sets early. Try using this unusual-looking cucumber in salads, for bread-and-butter, or mixed vegetable pickles. Excellent eating quality. Bitter-free. Trellis for straight fruits.
Cucumber, Yamato Japanese	annual		This traditional variety is from Japan's Yamato Province now known as Nara Prefecture. Sanjaku means three feet and this variety produces a generous crop of remarkably long, narrow fruit. It is best when harvested before reaching 2 feet long with a 2" diameter. The fruits have crisp white flesh, a relatively small seed cavity, and a sweet flavor. monoecious flowering habit. New for 2014.
Cucumber, Gherkin 'Adam'	annual		To be harvested small - gherkin size.
Cucumber, Bush pickling style - Little Leaf Pickling	annual		Broad disease resistance and stress tolerance. Blocky, medium-length (3-5") fruits are good for fresh eating. They pickle well and have a distinctive, bright emerald green color. Vines are compact, multibranching, and yield well even under stress. Half normal-sized leaves provide easy visibility and harvesting. White spines. Parthenocarpic. High resistance to anthracnose, angular leaf spot, bacterial wilt, and scab; and intermediate resistance to cucumber mosaic virus, downy mildew, and powdery mildew.
Cushion Buckwheat	annual / self seeding	NEW 2017	Sprawling clumps of white pom poms that attracts beneficial insects - native to western NA
Dahlia - Labella Grande Bicolor Orange	perennial if you dig and store rhizomes each year	NEW 2017	Start your dahlia collection - rhizomes must be dug up and brought into a dry basement each year. But they are easy to dig and multiply quite quickly. They also get nicer as the years go by and they get acclimated to your land. This one is a bright peach color with reddish accents - Showing off big, soft orange flowers, this variety is perfectly sized for container gardens or the middle of the border at only 12 inches tall and wide.

Dahlia - Starsister Red and White	perennial if you dig and store rhizomes each year	NEW 2017	Bright semidouble flowers on dark green foliage. Compact plants great for containers. Flowers are pure deep velvet-red with inner white petals that curl up from the center - really cool dahlia. Start your dahlia collection - rhizomes must be dug up and brought into a dry basement each year. But they are easy to dig and multiply quite quickly. They also get nicer as the years go by and they get acclimated to your land.
Dahlia - Dinnerplate - Fire Pot	perennial if you dig and store rhizomes each year	New 2017	Love the versatility of the compact and bushy smaller dahlias, but can't help myself but grow these dramatic gigantic ones - my grandmother always had these in her yard and I loved them as a kid. Bright reddish orange flowers with glowing yellow from the centers.
Eggplants - we offer over 15 varieties!			
Eggplant, Rosa bianca	annual		Pink and white Italian heirloom. Round, 4-6" long by 5-7" diameter fruit streaked with white and violet. Plump and variably ribbed. Mild, creamy taste. This traditional Italian variety is best adapted to regions with warm nights; in cool areas expect low yields. Green calyx.
Eggplant, Violetta Lunga	annual		Heirloom Italian variety - Long dark purple.
Eggplant, Orient Express	annual		The most dependable eggplant. Attractive, slender, 8-10" long by 1 1/2-2 1/2" diameter, glossy. Ready up to 2 weeks before other early varieties, it features an ability to set fruit in cool weather as well as under heat stress. Tender, delicately flavored, and quick cooking. Purple calyx.
Eggplant, 'gretel' white	annual		A medium sized eggplant - pure white.
Eggplant, Dancer- Light Purple	annual		A medium sized eggplant - bright pink purple. "Deep pink Italian type." Semi-cylindrical fruits are mid-sized (7-8" long by 3-4" diameter), mild, and nonbitter. Plants are strong and high yielding. Popular in Puerto Rico. Green calyx.
Eggplant, Fairytale - striped	annual		A medium sized narrow shaped eggplant - mostly purple with white stripes.
Eggplant, Little Fingers	annual/biennial		My parents gave me some of their plants last year and I loved these mini eggplants. They are small - about 3 inches long at most, but prolific and very tasty. Just chop up with garlic and olive oil and sauté!
Eggplant, Ping Tung Long	annual		This is a prolific Taiwan variety that produces 12-16" long, glossy, purple-red fruit with a green calyx. The erect plants are very sturdy, vigorous, and resistant to bacterial wilt and can bear as many as 20 fruits each.

Eggplant - Thai - Masego	annual	NEW 2017	This excellent producer yields green rather than purple fruit. The firm, oblong eggplants are a glossy cucumber color that gives way to a variegated milky white at the blossom end. Masego is an early eggplant variety, with sturdy plants that show a very good tolerance to pests and diseases. The fruit maintain a good shelf life after harvesting. While distinct in color, the Masego eggplant can be prepared like its more common purple relatives. It's delicious grilled, baked, broiled or stewed in tomato juice. Pair it with tomatoes or onions for a Western flavor or stir fry in peanut oil with bunching onions, peppers and ginger for a more Asian flavor.
Eggplant - Japanese - Choryoku	annual	New 2017	This long Japanese eggplant has a bright, shiny, spring-green skin, and matures to 12" in length. The calyx is also the same uniform color. The plant is a vigorous grower and prolific producer of large, firm, sweet, and tasty fruits.
Eggplant, Prosperosa	annual		Big round squatty eggplants with very dark skin.
Eggplant, Kamo	annual		Kamo is a highly prized traditional kyo yasai or Kyoto vegetable, from the Kamo area of Japan It has been a delicacy in that region for hundred of years. This unique fruit is round with a flat bottom, purple-black skin, purple calyx, and weighs up to 1/2 lb. Served at top restaurants in Japan, its dense flesh has a rich flavor.
Eggplant, Violetta di firenze	annual		Heirloom Italian variety - Big, dark purple.
Eggplant, Machiaw	annual		Similar to Ping Tung Long
Eggplant, Konasu Japanese	annual		This tiny, bite-sized, rounded eggplant has shiny dark purple skin that looks almost onyx in color. The calyx is also a purplish-black, and beneath the tender skin is white flesh. These appealing little eggplants are perfect for pickling when harvested young. Mature fruit can be cooked as you would other eggplant varieties, and they are especially delicious in stir-fries, tempura or as part of a kabob. New for 2014!
Eggplant, Petch Siam Thai	annual		This well-known and productive matti gulla variety is easy to grow. Matti is an Indian village famous for this type of eggplant. The small (2" in diameter), round, green eggplants have a dark green stripe and are very popular in cuisines of India, Thailand, and Vietnam. New for 2014!
Eggplant, Traditional Big Italian Black	annual		The Traditional big shiny dark eggplant. I don't grow many of these as they take a long time to mature and can get attacked by something during all that waiting time. I really prefer the smaller eggplants that produce tons of fruits.

Eggplant, Fengyuan purple	annual	New 2017	This slender Asian eggplant is one of the longest available. Its beautiful purple skin is so thin that peeling is unnecessary and creamy white flesh is reliably mild with no bitterness. Plants produce an abundance of fruit that can grow well over a foot long. Easy to grow and wonderful for grilling or adding to stir fries.
Eggplant, Calliope	annual		A small plump eggplant mostly white with a riot of purple stripes.
Eggplant, Louisiana Green	annual	not available in 2017	Long thin bright green eggplants.
Eggplant, Thai Green	annual	New 2017	Long thin bright green eggplants.
Eggplant, Round Mauve	annual		Squatty red-purple. - Love this one - big but squatty and well, mauve. Nice meaty flesh, not too many seeds.
Four O'Clocks	tender perennial		We have white as well as mixed tropical colors; can be used as a trap plant for Japanese Beetles. Very pretty although poisonous.
Gherkins - see cucumbers			
Gomphrena	annual		dry and colorful pom poms in white, pink and magenta. Great dried flowers. Fun interplanted throughout the garden
Gourd, Swan	annual	not available in 2017	decorative
Gourd, Bitter	annual	not available in 2017	
Gourd, Bird's Nest Large	annual	not available in 2017	decorative
Gourd, Luffa Sponge	annual		this is where luffas come from!
Gourd - Ridged or Angled - also known as Chinese Okra	annual		These are quite delicious especially when cooked up with lots of spices - they really absorb flavors well when sauted. Long and dramatic dark green squash with strong ribbing. They look fabulous growing up and over the garden fencing.
Ground cherry - see Tomatillos			
Jicama	annual		Root vegetable - does need a long season, but the seedlings we have available have gotten a good head start.

Lisianthus - Double Rosanne - Deep Brown	annual	New 2017	We are offering two very unusual and super-striking lissies this year - I interplant these beauties in between my various veggies. For the amount of flowers, they don't take up much space or compete for nutrients. And they are amazing as cut flowers - looking like roses... but in super cool colors. The Lisianthus Rosanne series is characterised by unique, special colours. The full, double flowers with hard petals on strong stems ensuring good transportability without damage. Vase life is excellent and the trendy colours make fantastic bouquets. Versatile – attractive for mono vases, combines well with just about everything in mixed bouquets. This is truly brown, with chartreuse green buds.
Lisianthus - Double Roseanne - Black Pearl	annual	New 2017	We are offering two very unusual and super-striking lissies this year - I interplant these beauties in between my various veggies. For the amount of flowers, they don't take up much space or compete for nutrients. And they are amazing as cut flowers - looking like roses... but in super cool colors. The Lisianthus Rosanne series is characterised by unique, special colours. The full, double flowers with hard petals on strong stems ensuring good transportability without damage. Vase life is excellent and the trendy colours make fantastic bouquets. Versatile – attractive for mono vases, combines well with just about everything in mixed bouquets. This one has blackish purple flowers with bright chartreuse buds.
Malabar Spinach - Red	annual		Malabar spinach has many names Phooi leaf, Red Vine spinach, Creeping spinach, Climbing spinach, Indian spinach, Vietnamese Spinach, and Ceylon spinach. This lush vine grows best in tropical and subtropical climates and can reach up to 14'. It has reddish-purple stems, glossy dark green leaves, and grows more rapidly than the green stem variety. The leaves are used like spinach. In cooler areas, it will not over-winter but will produce a good harvest as an annual. Also grown as an ornamental.
Marigold - 'Mexican' or Nematocidal (tagetes minuta)	annual		These are great companion flowers for the garden, but plan on them being very tall - over 6 feet tall sometimes - I save them for the back row so they won't shade anything. Marigold scent, but tiny little upright flowers in yellow and pale green. High levels of nematocidal toxins in the plant, that can be tilled into the soil.
Marigold - African - Tagetes erecta	annual		Tall plants with big orange or yellow pom-pom like flowers
Marigold - French style - Tagetes patula	annual		These are the short marigolds - darker in color. Great as companion plants under vegetables like squash to thwart squash vine borer. Also great as a mordant-free dye plant.
Melon, Charentais	annual		Available Mid-May. French melon known for its fine, sweet taste and ability to ripen even in cool areas. Smooth striped skin and vivid orange. Fruits about 2 lbs. Wonderful flavor.

Melon, Prescott Fond Blanc	annual		Fruits grow to 4-9 pounds Dense orange flesh and strong, sweet fragrance Good drought tolerance 85-95 days
Melon, Petit Gris de Rennes	annual		Fruits weigh 2-3 pounds Juicy, sweet orange flesh Flavor like brown sugar when ripe 80-85 days
Melon, Eel River	annual	New 2017	Northern California heirloom Crenshaw melon. Luscious, very sweet rich peachy flavor and juicy, melting flesh. Average 4-5 lbs. Slips easily from the vine when ripe.
Melon, Crenshaw	annual		Classic Crenshaw
Melon, Amish Musk	annual		Muskmelons are cantaloupe styled melons. Fruits grow to 9 inches and 4-7 pounds. Juicy, orange flesh Good muskmelon flavor
Melon, Delice de Table	annual		Fruits grow to 1-2 pounds Ribbed rinds Sweet orange flesh 85-90 days
Melon, Noir des Carmes	annual		Fruits have a dark green skin that ripens to orange Sweet, orange flesh is very aromatic Fruit tends to split when ripe 75 days
Melon, Ananas	annual		Available Mid-May. An heirloom Italian melon - pineapple flavored!
Melon, Tendral Valenciano	annual		A strange dark green melon - mild flavor but very refreshing
Watermelon - see Watermelons under W			
Mignonette - Ameliorata (Reseda odorant)	annual		Wonderful scented bunches of small creamy flowers that attract pollinators and beneficial insects like mad
Molokhia - Egyptian Spinach or Jew's Mallow	annual		A wonderful frissee; each of the varieties we offer have different frizzle-levels!
Morning Glory - Heavenly Blue	annual		There may not be a prettier flower than this. Big bright sky-blue flowers with glowing cream-yellow centers. Vining - will get very high - over 30 feet - in the course of a summer of not trained to stay at eye level
Morning Glory - Chocolate	annual		Giant pinish-tan flowers. Stunning.

Nigella "Delft Blue"	annual	NEW 2017	A very pretty flower to have growing interspersed throughout the vegetable garden - great for bringing in pollinators. (Nigella papillosa) Delft Blue is a mix of colors with the very decorative, magenta stamens, but with pure white, streaked blue, streaked purple, streaked grey and pure purple colored flowers. Named for the Dutch Delft Blue pottery and absolutely as stunning from the time they make their fine foliage straight through to the ornamental pods. What's lovely about nigellas is their versatility. They excel as cut flowers being both long lasting in a bouquet (7-10 days) and in your garden. When their blooms are spent, the seed pods are equally as breathtaking. Like the rest of our nigellas they are fantastic at attracting pollinators and can be used as an edible flower (the seeds are also known to be used but are not quite the same in intensity as Nigella sativa). Keep the flowers cut and they will bloom and bloom from early spring straight through fall. Approx. 24" tall.
Okra - Purple	annual		Harvest okra pods when they are small and tender - a day can make a big difference how woody they get.
Okra, Louisiana Long pod	annual		Large, branching plants produce huge yields of truly giant pods, up to 16 inches long! This heirloom comes from Evangeline Parish, where it has been grown for a very long time. Sent to us by Cajun and Creole seed collector Kurt Bridges, who says the plants often get "big like a òr tree" in Louisiana. Pods stay tender for longer than most, but should still be picked young. We loved this variety!
Okra, Alabama Red	Annual		A delicious heirloom from Alabama, this variety has fat, red pods that are great fried or in gumbo! One of our most popular varieties, it is unique and rare.
Okra - Cajun Jewel	annual	New 2017	The short plants produced dozens of tender 5"-6" pods, with outstanding flavor. We don't live in good okra country; but Cajun Jewel didn't seem to care, pumping out lots of tasty pods.
Okra - Star of David	annual	New 2017	Plants grow to 7 feet tall; pods are heavily ribbed - making great star shape when sliced. Plants have purple coloration on leaves Best harvested when pods are 3 inches long 60-75 days This variety does not tolerate cold well - keep warm and bring inside on chilly nights! Do not plant in garden until June 1st. They are in big pots so they will be just fine.
Okra, Windy Wood (Green)	annual		Okra makes a very large scrub-like plant full of hibiscus like flowers that turn into okra pods. Worth growing just to experience it. I grow mine with the tomatillos each year - they seem to do well together.
Nasturtium	annual		

Pansy - Delta Citrus Mix	annual	likes cooler temperatures	This is a mix of bright creams, yellows, peaches, and oranges. Keeping your pansies deadheaded will ensure longer bloom time. I like to grow pansies along with the hot weather annuals as back ups in case the spring is cooler.
Pansy - Matrix Ocean Breeze Mix	annual	likes cooler temperatures	This is a mix of cool seashore blues and grays. Keeping your pansies deadheaded will ensure longer bloom time. I like to grow pansies along with the hot weather annuals as back ups in case the spring is cooler.
Peppers - HOT			
Pepper, HOT, Serrano	annual		Traditional Serrano
Pepper, HOT, Hot Portugal	annual		Looks like a cayenne pepper with long glossy scarlet pods 15-17cm/6-7" but the flavour is sweet and tart with undertones of strawberry and apples and no bitterness. Medium-hot at 5,000 Scoville units. Excellent in soups, chilli, and stews. Heavy yields, about twice as much as cayenne.
Pepper, HOT, Hungarian Hot Wax	annual		Widely adapted and productive, even in cool weather. Yellow hot pepper with 5 1/2" x 1 1/2" smooth, waxy fruits tapering to a point. Easy to stuff and to peel after roasting; thick-fleshed for frying. Its sunset-ripening peppers change from yellow to orange to red, and make the prettiest pickled peppers.
Pepper, HOT, Bird's Eye	annual		Southeast Asian bird peppers are known by many local names but in the U.S. they are often lumped together with the Thai chillis. The small, thin pods, about 4cm/1.5" long, have good heat, about 50,000-100,000 Scoville units. Widely used in cooking and in the spice trade, and they are often made into medicinal creams for external use.
Pepper, HOT, Chocolate Habanero	annual		A beauty - Fiery chile from Trinidad. Wrinkled lantern-shaped pods are used fresh or dried in salsas, chutneys, marinades. Matures into a deep orange-chocolate colour. Thrives in hot sunny spots, a little on the dry side. Heat: 100,000-350,000 Scoville units.
Pepper, HOT, Black Hungarian	annual		Similar to jalapeño pepper in shape and size. Pods start off green, turn jet black, and slowly ripen to red. Mildly hot and absolutely delicious. Chile fans say this variety is better than the traditional jalapeño variety for smoked chipotles. Black fruits and large purple flowers create quite a nice ornamental effect. Heat: 2,500 Scoville units. 65-80 days.
Pepper, HOT, Pepperoncino - Cilegia piccante	annual		Known to some as 'Satan's Kiss'....beware. We used to carry this, and now they are back. This is a tasty, medium-hot, round, cherry chili. It loses about 60% of its heat when cooked making it great stuffed with mozzarella and anchovies and then grilled. Good foliage and a compact plant. Suitable for container gardening.

Pepper, HOT, Pepperoncino - Stromboli	annual		Stromboli Pepper. Named for the famous island volcano. A hot chili pepper variety producing bunches of small, upward pointing green fruit that eventually turn orange. Good container plant.
Pepper, HOT, Bhut Jolokia or Ghost Pepper	annual	New 2017	This is one of the hottest peppers in the world, bearing extremely hot red fruit about 2 ½ inches long. In 2007, Guinness World Book of Records named it the hottest pepper and listed it as 1,002,304 Scoville Units. It has since been surpassed, but it's still plenty hot and should be handled with great care.
Pepper, HOT, Anaheim Chile - Highlander f1	annual		Good for cool summers - where Anaheim types often are shy yielding. Traditional, semi-flattened, mostly two-lobed fruits avg. 7" x 2". Earlier and with longer fruits than Numex Joe E. Parker. Large, tall plants. Early and adaptable Anaheim. Bred by Johnny's to have good productivity even in cooler regions where Anaheim types often are shy yielding.
Pepper, HOT, NUMEX Joe E Parker	annual		
Pepper, HOT, Fish	annual		Beautiful varigated foliage and striped and colorful hot peppers. Long and thin, serrano-style.
Pepper, HOT, Habanero (orange, traditional)	annual		traditional hot-hot habanero
Pepper, HOT, Habanero 'helios'	annual		mild habanero and earlier maturing
Pepper, HOT, Holy Molé	annual		A long, thin pepper that typically lends its spicy, nutty flavor to Mexican mole sauce
Pepper, HOT, jalapeno early	annual		Traditional Jalapeno - starts producing nice and early - week before many of the other hot peppers
Pepper, HOT, peperoncino Etna	annual		Very small but highly prolific Italian hot peppers. Great for drying. Pepperoncino style
Pepper, HOT, Piccante di Cayenne	annual		Traditional long cayenne red peppers
Pepper, HOT, Tabasco	annual		Gorgeous plants sprinkled with tons of little pointy peppers in all colors from green to pale yellow to orange to red. The ripe red ones can be squeezed to make a tabasco-sauce like syrup.
Pepper, HOT, Padron	annual		Famous Spanish heirloom. Named after the town where they originated. Harvest Padron peppers when they are 1-1 1/2" long. About 1 out of 20 fruits will be hot, and the rest mild. All the fruits become hot if allowed to grow 2-3" long. Padrons are served sautéed in olive oil with a little sea salt, and eaten as tapas (appetizer) in Spain.
Pepper, HOT, long thin cayenne	annual		Traditional long cayenne red peppers
Pepper, HOT, Scotch Bonnet	annual		Could be one of the top hottest of all hotties... Looks like a habanero
Pepper, HOT, Tobago Seasoning	annual		From the Island of Tobago, where it is used extensively to season local cuisine. Looks and tastes a lot like a habanero but not as hot.

Pepper, HOT, Joe's long thin cayenne	annual		An elegantly long red cayenne
Pepper, HOT, Thai Red Chili	annual		Tabasco-type fruits grow to ½ inch; Very productive Good for container growing Hot pepper A prolific plant full of small Thai styled chili peppers.
Pepper, HOT, Hot Paper Lanterns	annual		An elongated and red habanero family pepper, a bit earlier and more productive than regular habaneros.
Pepper, HOT, Thai 'Ascent' Pepper	annual		Staggeringly prolific, Thai-style, mini peppers pack a pungent punch of heat! Strong, attractive, well-branched plants burst with slender, upright peppers that start out green, turn purplish and ripen to a flame red color. Pointy fruit measure less than 1/2 inch wide and just under 2 inches long. We've grown Ascent in our trials for several seasons, and it's proven to be the most productive Thai pepper each year.
MILD HOT			
Pepper, MILD HOT, Aji Dulce	annual		I shouldn't even have this under "Mild Hot" - Absolutely no heat - just zingy flavor
Pepper, MILD HOT, Aji Crystal	annual		Bright, citrusy heat Little peppers perfect for pickling pack warm heat
Pepper, MILD HOT, Himo Togarashi	annual		This is becoming one of my favorite peppers - Himo Togarashi is a specialty green pepper that is a Yamato dento yasai, which means it has been selected as a Nara prefecture traditional vegetable. The pepper grows 4-6" long and up to .25" in diameter (less than the diameter of a pencil). The peppers hang down on the plant and look like strings or himo in Japanese. Prolific amounts! Freeze great!
Pepper, MILD HOT, Manganji	annual		Manganji pepper is one of the designated traditional specialty vegetables of Kyoto, Japan. These vegetables are called kyo yasai or dento yasai. Many of these vegetables have existed for hundreds of years. This Japanese pepper has a thicker wall than the fushimi and shishito peppers. Fruits average 6" long, mild flavored and not spicy. The pepper skin is shiny with distinctive wrinkles at the stem end.
Pepper, MILD HOT, Ancho (pablano style)	annual		Traditional Poblano
Pepper, MILD HOT, Ancho 'tiburon' (pablano style)	annual		Another variety of Poblano
Pepper, MILD HOT, Shishito	annual		Japanese mild pepper for tempura and raw snacking. Almost no heat. This medium early, small, sweet, thin-walled glossy green pepper is popular in Japan. The fruits grow up to 3-4" long. Plant has a spreading habit and produces prolifically. Good for garden, greenhouse, and open field growing.

Pepper, MILD HOT, Fushimi	annual		Japanese mild pepper for tempura and raw snacking. Almost no heat. Fushimi sweet pepper, Fushimi togarashi, is one of the Kyo-yasai, traditional vegetables, in Kyoto, Japan. This sweet Japanese pepper is thin-walled and glossy bright green. The fruits are slender, tapered and grow to 6" in length. It is very easy to grow, produces good quality and prolific harvests.
Pepper, NUMEX - Sauve Orange	annual		Habanero with just a bit of heat. Distinctive fruity flavor and aroma of a habanero with only a hint of pungency. Compared to Habanero, the avg. 2¼" fruits are slightly larger, plumper, more wrinkled, and ripen to a bright yellow-orange (contrasting Habanero's orange). The tall, strong, upright plants have a high yield potential. Relatively early for a habanero.
Pepper, MILD HOT, Pasilla Bajio	annual		Dark and Smokey Flavor
Pepper, MILD HOT, Sweet Cayenne	annual		Cayenne styling but sweet and fruity.
Pepper, MILD HOT, Trinidad Perfume	annual		an incredibly aromatic and flavourful habanero-type pepper that carries little to no heat.
Pepper, Mild Hot, Fooled You Jalapeno	annual		I like to mix these in with the regular jalapenos to even out the heat a bit when I make pickled jalapenos
Pepper, Mild Hot, Habanada	annual	New 2017	Look like habaneros, but not at all hot - great zingy flavor.
Pepper, MILD HOT, Aji Dulce	annual		Looks like and has that great fruity habanero zingy flavor but almost no heat at all.
Pepper, MILD HOT, Ancho Gigantia	annual		Another, larger and squattier shaped poblano.
SWEET			
Pepper, Sweet - garden Sunshine	annual		Organic Bell shaped fruits grow to 8 inches Creamy yellow color holds for weeks before turning to orange and then red Most flavorful when yellow or orange Plants grow to 16 inches
Pepper, SWEET, Sweet Chocolate	annual		Rich chocolate-brown bell pepper. Remarkable earliness, tolerance of cool nights, and a heavy set. Smooth, medium-small, tapered, "snub nose" (blunt end) bells with long fruit stems. Very mild flavor, medium thick flesh. The flesh under the skin is brick red. Developed by the late E.M. Meader, Univ. of New Hampshire.
Pepper, Glow	annual		Tapered, thick-walled, 2-3 lobed fruits are 4-5" long, and are deliciously sweet and fruity. Medium-size plants yield well. Early and easy to grow in diverse climates.
Pepper, SWEET, 'Bianca' - Light Bell (green ripening to white)	annual		Ivory-colored bells. Medium-large, 4-lobed, and blocky. Fruits have a mild flavor and ripen to scarlet red. Sturdy plants yield well; good leaf cover protects the fruit from sun scald. High resistance to tobacco mosaic virus.

Pepper, SWEET, Red Bell (green ripening to red)	annual	"Procraft F1" Organic bell with broad disease resistance. Red or green fruits. Widely adapted, Procraft performs well in cool or warm regions. Large, firm fruits are suitable for fresh market but also withstand the rigors of shipping. Flavor is mild, slightly sweet when ripe. High resistance to bacterial leaf spot races 1-3, potato virus Y; intermediate resistance to tobacco etch virus and tomato spotted wilt virus.
Pepper, SWEET, Corno di Toro Rosso (red long style)	annual	Bright Red Long Frying Style Peppers
Pepper, SWEET, Islander Purple Bell	annual	Light lavender skin, pale yellow flesh. 3-lobed, medium-size, thick-fleshed bell peppers with a mild, slightly sweet taste. Fruits ripen through a showy stage of violet, yellow and orange streaks, eventually turning a rich, very dark red. Strong, medium-tall plants yield well. High resistance to tobacco mosaic virus.
Pepper, SWEET, Cubanelle	annual	Light Green Long Frying Style Peppers
Pepper, SWEET, Friggitello	annual	Pepperoncini Style Italian Heirloom, but with dark green coloring.
Pepper, SWEET, Lombardo	annual	Pepperoncini Style Italian Heirloom, but with dark green coloring.
Pepper, SWEET, Antohi Romanian	annual	Eastern European frying pepper. Smooth, 4" long by 2" wide, tapered, pointed fruits are pale yellow and ripen red. The upright plants have good branch strength and yield early and heavily.
Pepper, SWEET, Orange Bell (green ripening to orange)	annual	"Gourmet" Bright orange fruits. Thick, juicy walls and fruity sweet flavor. Medium-large, very blocky bells are easy to grow under a wide variety of conditions. Strong compact plants set plentiful fruits without crowding. High resistance to tobacco mosaic virus.
Pepper, Sweet, Yellow Bell	annual	"Sweet Sunrise" - Blocky, dark-green bell ripens to yellow/orange. Medium-large 3- and 4-lobed fruits are blocky to slightly elongated. The flavor is both fruity and sweet. A few days earlier than Flavorburst, Sweet Sunrise has a sturdier, medium-sized plant with better leaf cover. Yields well and fruits ripen early, even in the North.
Pepper, SWEET, Paprika or Red Cheese Pepper	annual	Squatty (cheese-style) peppers in prolific dark red bunches

Bridge to Paris Pepper	annual	New 2017	This wonderful pepper comes to us from our friends at Hudson Valley Seed Library in upstate New York and is the product of a long chain of farm based seed work. Originally disentangled from the hybrid frying pepper "La Paris" at the biodynamic Kimberton CSA in Kimberton, PA, it then gained a little bit of extra size and a hint of spice in the hands of Phillies Bridge Farm in Gardiner, NY, before being passed on to Hudson Valley Seed Library who have continued to refine and stabilize the best traits to create a marketable cultivar. From "La Paris" to Phillies Bridge, hence "Bridge to Paris. The result? Perhaps the most beautiful fryer we have seen: long, glossy smooth, very sweet, bright red fruits to 8" and with much thicker flesh than most fryers. They have performed very well in trials across the northern US and were a standout at the OSA sweet pepper trial in Chimacum, WA. Plants are tall (24-36"), vigorous, and prolific and benefit from staking. Wonderfully sweet for fresh eating as well as for roasting and freezing.
Pepper, SWEET, Roumanian Rainbow	annual		A rainbow of small bells.
Pepper, SWEET, Topepo Rosso	annual		Like a slightly bigger cherry pepper - and sweet and pungent in flavor. Squatty (cheese-style) peppers in prolific dark red bunches
Pepper, SWEET, Mixed mini Bells "Lunch Box Peppers"	annual		Tiny little sweet bells - Kids love these! Orange and Red Colors.
Pepper, SWEET, Dulce de Bergamo	annual		One of my favorite peppers to grow - plants are prolific and look awesome full of long curly peppers in all stages of coloration. Flavor is great, no heat, although they look like big fat cayennes. I usually pick them and toss them whole into a zip lock and freeze at the end of the season. They store fabulously.
Pepper, Sweet, Golden Greek Heirloom Pepperoncini	annual		These unique, wrinkled fruits are typically harvested immature when about 2 1/2-3" long. They are best pickled as the raw fruits are rather bland. The medium-sized plants should be harvested every few days to encourage fruit production.
Pepper, SWEET, Alma Paprika Pepper	annual		Grow your own paprika seasoning! Alma is one of the best paprika type peppers for drying and grinding, but can also be eaten fresh from the garden. Plants are loaded with round, thick-walled, sweet peppers that have just a hint of warmth. The 1-2 inch fruits start out creamy white, and then turn to orange before finally turning shiny red. Harvest red for drying purposes. Your goulash and paprikash will never taste so good.
Sea Lavender - Limonium Perezii	annual / tender perennial		Spectacular color from large clusters of bicolor blooms: intense purple outside with white interior. Beautiful perennial useful in massed beds. Good cut flowers, retaining color when dried.
Snapdragon, Chantilly 'Bronze'	annual / tender perennial		More of an open styled head to each flower - orangy-brownish color

Snapdragon, Rocket 'Rose'	annual / tender perennial		Traditional snap style head - deep rose color
Snapdragon, Rocket 'White'	annual / tender perennial		Traditional snap style head - classy white color
Snapdragons - Alpenglow mix	annual / tender perennial	New 2017	(Antirrhinum majus) This elegant color mix of butterfly-type snaps represents the early stages of one of our first cut-flower breeding projects. If you are unfamiliar with the butterfly-types, they feature a more flared out open petal shape, rather than the usual little dragon faces of common snaps. The population, created from a single color of the popular hybrid Chantilly series, spans whites, yellows, salmons, oranges, and pinks. The majority of the Alpenglow colors also exhibit perhaps our favorite quality of its parent variety, the color changes as the flowers age thereby creating a gradient of color down each stem, from newly opened flowers at the top to the older ones down the stem. One of the longest blooming flowers we grow, our snaps were a riot of color from June through frost this year. We hope eventually to tease out some of our favorite colors from the mix to be available as single color open pollinated strains. Excellent for cut-flower bouquets and a wonderful sweet fragrance.
Summer Squash (other than Zucchini)			
Squash, Summer, Patty Pan Sunburst	annual		Yellow with dark green spot
Squash, Summer, Patty Pan Flying Saucer	annual		Very varigated yellow and dark green
Squash, Summer, Patty Pan, Pattison Panache "Jaune et Verte"	annual	Back for 2017!	Creamy white, green striped, scalloped fruits Highly productive Good eating qualities when young, rock-hard ornamental when fully mature
Squash, Summer, Patty Pan, Pattison Panache "Verte et Blanc"	annual	Back for 2017!	Sea-foam green fruits mature to white with dark green stripes Excellent when eaten young Highly productive
Squash, Summer, Patty Pan G-Star	annual		Dark shiney green all over
Squash, Summer, Patty Pan Peter Pan or Bennings Green Tint	annual		Light green
Squash, Summer, Patty Pan Y-Star	annual		Yellow with light green markings
Squash, Patty Pan, Pure White	annual		Pure white
Squash, Summer, Trombicino Rampicante	annual		A vine style heirloom squash - prolific - beautiful long curving light green color. Buttery flavor.

Squash, Summer, Yellow Crookneck	annual		A productive and dependable yellow squash - Yellow warty skin - Delicious when eaten young 55-60 days
Squash, Summer, Zephyr (yellow with green tips)	annual		Small and flavorful - dual colored squash! One of my favorites and most dependable.
Squash, Summer, Serpente di Sicilia	annual		A vine style heirloom squash - prolific - beautiful long curving light green color. Nuttier flavor than the Trombiccino Rampicante.
Squash, Summer, Golden Crookneck or Rugosa Friulana	annual		Curved and bumpy yellow squash!
Starflower -	annual	Back for 2017!	Very unusual flower - great in dried arrangements.
Statice, German	annual / tender perennial		Traditional filler in cut flower arrangements
Statice, QIS Dark Blue, Pale Blue, and Apricot	annual / tender perennial		Traditional filler in cut flower arrangements
Statice- Limonium Perezii - see Sea Lavender			
Stock	annual		We sell creamy yellow, mixed colors, apple stocks. Great smelling cutflower and beneficial attractant.
Swan River Daisy - see "Brachyscome"			
Sweet peas	not available 2017		
Tobacco - see herbs list			
Tomatillo, Pineapple	annual	New 2017	This tomatillo has a sweet, fruity taste that reminds you of a pineapple. Short, spreading plants yield plenty of these tasty fruit which is wonderful in salsas, especially those made with fruit as an ingredient.

Tomatillo, Peruvian Ground Cherry	annual		Physalis peruviana (Cape gooseberry; Husk cherry; Goldenberry) Golden super berries! High in protein, iron, and vitamins A, B, and C, this berry from the Andes is deservedly getting a new look as a super food. Small golden fruits about the size of a marble are borne inside papery husks. The taste is mellow and tart, not particularly sweet but delicious and refreshing. They are eaten fresh or in fruit salads, pies, chutneys, and they are excellent for jams and jellies owing to their high pectin content. Sauce made with the berries is pure bliss with seafood. Fresh berries dipped in melted chocolate are something to die for. Needs well-drained soil and full sun. Do not fertilize, otherwise the fruits will fail to mature properly. Fruits are harvested when they fall to the ground and their protective husks are removed before use. Fresh berries keep for months when refrigerated in a sealed container. 70-80 days.
Tomatillo, Cisneros	annual	New 2017	Incredibly large tomatillo will amaze you with its size and productivity. This is easily twice the size of most tomatillos, making preparation into salsa even easier. Apple-green fruit have a papery husk that splits open as tomatillos mature and turn yellow-green. Use in the bright green stage for the tartest flavor, or allow to ripen further for a sweeter taste. Huge size makes this tomatillo really special
Tomatillo, Purple de Milpa	annual	New 2017	These are the tiny wild Mexican tomatillos - great flavor but small - Purple-tinged fruits grow to less than 1 inch Plants grow to 3-4 feet Does not burst through husk when ripe
Tomatillo, Toma Verde (green)	annual		The tomatillo is a member of the tomato family, but not a real tomato. Round green tomatillos have a papery husk that is removed before preparing. Vining plants are easily grown and prolific. Flavor is sweet yet tart and wonderful in green Mexican salsa and other Mexican and Southwestern dishes.
Tomatoes			
Bite-size			
Tomato, bite-size, Black cherry tomato	annual		A dark purplish brownish cherry - quite large and quite prolific. And super sweet! This is the one I grow late in the season as my sole fresh tomato in the greenhouse.
Johnny's Seeds Artisan - Pink Tiger Tomato	annual		Elongated pink cherry tomato with yellow-orange striping.
Johnny's Seeds Artisan - Lucky Tiger Tomato	annual		New! Elongated green striped cherry tomato with a striking red blush.
Johnny's Seeds Artisan - Green Tiger Tomato	annual		New! Elongated green-when-ripe cherry.
Johnny's Seeds Artisan - Blush Tomato	annual		New! Elongated yellow bicolor cherry tomato with stripes
Johnny's Seeds Artisan - Pink Bumblebee Tomato	annual		New! Pink, round cherry tomatoes are striped with yellow and orange.

Johnny's Seeds Artisan - Purple Bumblebee Tomato	annual		New! Purple, round cherry tomato with metallic green striping.
Johnny's Seeds Artisan - Sunrise Bumblebee Tomato	annual		New! Yellow, round cherry tomato with red stripes and pink interior marbling.
Tomato, bite-size, Matt's Wild Cherry	annual		This vine is crazy-prolific and just filled with very small but very sweet red cherry tomatoes. The wild tomato with great flavor. These small, 5 gm., cherry tomatoes are deep red, have a tender, smooth texture, and sweet, full flavor. High sugar content. Though the flavor is superior, it doesn't yield as well as modern varieties, and the fruits are soft. Fantastic in salsa and for fresh eating. Some resistance to early blight and late blight. Indeterminate.
Tomato, bite-size, Red Pear or Red Fig	annual		Small pear shaped red tomatoes. This is an heirloom from Italy which I am hoping has better flavor than the previous red pears I've tried.
Tomato, bite-size, Yellow Pear or Yellow Fig	annual		Very cute in salads and a hit with chefs!
Tomato, bite-size, Sun Gold	annual		High in antioxidants and delicious ziggy flavor.
Tomato, bite-size, Super Sweet 100's	annual		This is the cherry tomato I grew up with. A very nice and dependable red cherry
Tomato, bite-size, Grape Tomato	annual		
Tomato, bite-size, Grape Tomato - orange color!	annual	New 2017	Beautiful orange grape tomato. Borne on long trusses, Nova is a bright orange color with excellent, sweet flavor. Firm, meaty, 15-20 gm. fruits resist cracking. Makes a great mix with red, pink, and yellow grape tomatoes. High resistance to fusarium wilt; and intermediate resistance to nematodes. Indeterminate.
Tomato, bite-size, Jaune Flamme	annual	Back for 2017!	These are tasty bright golden orange cocktail sized (larger than the typical cherry-sized) tomatoes.
Cocktail, Plum, Paste & Medium size			
Tomato, medium, Amish Paste	annual		This is a wonderfully tasty pointy ended red plum. Great for sauce.
Tomato, medium, black krim	annual		One of my favorite tasing tomatoes. We've been growing these for over ten years and wouldn't grow tomatoes without them!
Tomato, medium, Black Pear	annual		
Tomato, medium, Black Plum	annual		Another black plum - I really want to do a taste test this summer and compare flavors.
Tomato, medium, Black Zebra	annual		Mostly red with green and yellow stripes - these are in the same style as the Green Zebra. Absolutely gorgeous.
Tomato, medium, green zebra	annual		A delicious tomato that is ripe when green. These little beauties are mostly light green with darker green stripes.

Tomato, medium, Indigo Rose	annual		The darkest tomato I've ever seen - very small and firm true egg-plant purple with green shoulders. The vines are quite purple too. Prolific plant.
Tomato, medium, Japanese Black trifele	annual		Unusual pear shape and burgundy color. Good yields of 4-6 oz. fruit with excellent, rich flavor. Harvest when shoulders are still green for best taste. Potato-leaf plants. Indeterminate.
Tomato, Mountain Magic F1 (cocktail sized, blight resistant)	annual		"Excellent flavor and late blight resistant. Mountain Magic produces high yields of 2 oz., bright red, round salad tomatoes with very sweet flavor. Intermediate resistance to early blight. Indeterminate."
Tomato, medium, Early Girl (hybrid)	annual	New 2017	Comes in first as an early slicing tomato and our customers' favorite early variety. Dependable large harvests of flavorful, solid 4 to 6 oz. fruit. Disease resistance is good, contributing to its excellent performance in almost any climate. A proven variety for delicious, early tomatoes. Indeterminate. Customer request!
Tomato, medium, New Girl Tomato	annual		A great and dependable hybrid. First early, great taste. Fruits avg. 4-6 oz. and are better tasting and more disease resistant than other 'girl' hybrids. Widely adapted. Indeterminate.
Tomato, Fourth of July	annual		A very dependable very early tomato with great flavor and loads of fruits.
Tomato, Glacier	annual		A relatively cold hardy early tomato - determinate vines. Quite sweet for an ultra-early. Coloring is slightly orange.
Tomato, Oregon Spring	annual		Medium-sized, early, cold tolerant. Avg. 6-7 oz. fruit. First early harvest for cool northern or high-elevation locations. Compact plant. Determinate.
Tomato, medium, Raspberry Lyanna	annual		Simply stunning, raspberry-pink fruits are of medium size. Firm flesh is very sweet and richly flavored. This variety from Russia is perfect looking, one of the prettiest tomatoes we have grown. It is almost free of imperfections, making it perfect for marketing.
Tomato, medium, red ox-heart or Cuor di Bue	annual		Very prolific large ox-heart shaped and sized tomatoes - mostly red but should be harvested with green shoulders.
Tomato, medium, red pear piriform	annual		Very prolific large pear shaped tomatoes - mostly red but should be harvested with green shoulders.
Tomato, medium, Tigerella	annual		A mostly red cocktail sized tomato but with an abundance of yellow streaks.
Tomato, medium, speckled roman	annual		A pointy ended red plum tomato but with yellow streaks. Sounds very pretty and different!
Tomato, PASTE/PLUM, Roma	annual		We've been growing this variety of red plum tomato and making great sauces from them for years and years
Tomato, PASTE/PLUM, Principe Borghese	annual		The perfect tomato for making paste and for sun drying.
Tomato, PASTE/PLUM, Roman Candle	annual		shaped like a san marzano, but yellow

Tomato, PASTE/PLUM, San Marzano	annual		The ultimate Italian Sauce Tomato - pointy ended red plum.
Tomato, Black Icicle	annual		A black plum with a pointy end.
Tomato, Black Mauri	annual		A black plum tomato - sweet with purple skin.
Tomato, medium, Topaz or Huan U	annual	not available in 2017	Named for the beautiful yellow Topaz stone, this Chinese introduction is sure to please you with its beautiful and sparkling, 1-3 ounce fruit. Light yellow with golden speckles. Mild tasting, firm and good for snacking or salads. Like its sister "Violet Jasper" (see purple tomatoes), this variety is incredibly productive.
Tomato, medium, Violet Jasper or Tzi Bi U	annual	not available in 2017	When these little Oriental jewels ripen, your eyes will be stunned with color. They have pretty violet-purple fruit with iridescent green streaks! Fruit weigh 1-3 ounces, are smooth and have good tasting, dark purplish-red flesh. This variety will also amaze you with its yield: it's not only high, but incredibly high, being one of the most productive tomatoes we have grown. A great variety for marketing. Introduced to you from China along with its twin sister "Topaz"
Tomato, Orange Blossom f1	annual		A tasty early orange tomato. The medium-firm, globe-shaped fruits average 6-7 oz., have a nice texture, and are mildly flavored, balanced with a little acidity. Developed by Dr. Brent Loy, Univ. of New Hampshire. Determinate.
Tomato, Golden King of Siberia	annual	not available in 2017	This tomato is one of the real favorites here. Big, lemon-yellow fruit are a delightful heart shape. The flesh is smooth, creamy and has a nicely balanced sweet taste. I always find myself "snacking" on these beauties. Plants are very productive and seem to have some disease resistance.
Tomato, Silvery Fir Tree Tomato	annual		Determinate. Heirloom. Think red ornaments hanging from a fir tree and you'll understand how this 2" Russian tomato got its name. The tomato ornaments put on a show when they all ripen at once. Early ripening works with short growing seasons or impatient canners.
Tomato, Sleeping Lady	annual	New 2017	Heirloom flavor on a patio-size plant Bears heavily until frost. Strong plant only 3 ft tall. Dwarf tomatoes are a traditional but little-known form of tomato vine with crinkly, regular-sized leaves and regular-sized fruits on a very short, stocky, but indeterminate plant. Fruit smooth and round to oblate, has well-balanced flavor, weighs from 3 to 6 ounces, and ripens to a chocolate-mahogany color.

Tomato, Garden Peach	annual		Open-pollinated. For well over a century savvy gardeners have brought Peach's little fruits indoors before frost to keep for several weeks. 2 oz yellow fruits blush pink when ripe and have thin fuzzy skins somewhat like peaches. Relatively early, prolific, soft-skinned, juicy and very sweet. Light fruity taste is not what you'd expect in a tomato. Burpee in 1893 called it "delicate, melting in the mouth like a grape." Amy Goldman places its 1890 origins with plant breeder Elbert S. Carman, owner and editor of The Rural New-Yorker. It was introduced as a novelty in Hallock & Son's (of Queens) 1890 catalog.
Large			
Tomato, large, Orange/Yellow, Persimmon	annual		A persimmon-colored Russian heirloom beefsteak; high in flavor, low in acidity. An heirloom originally from Russia, this beefsteak type has very large, persimmon-colored 1 lb. fruits. Uniform and blemish-free, the tomatoes have high flavor, low acidity, and a small seed cavity. Performs well in short-season areas. Indeterminate.
Tomato, Large, Ananas Noir (black Pineapple)	annual		I think this may be my favorite big tomato - Fabulou sziggy tomato flavor, green flesh with stripes and speckled in reds and yellows. A great salad tomato with bitter greens like arugula and chicory.
Tomato, Large, Pink Berkeley Tie Dye	annual		Unique appearance with heirloom-quality flavor. 8-16 oz. fruits are dark pink with green striping, and the flesh is pink with yellow streaks. The flavor is outstanding - sweet and complex like the finest heirlooms. The compact, indeterminate plants performed much better than average under disease pressure in our Albion trials. Indeterminate.
Tomato, Large, Big Zebra	annual		A tomato that is red and green-striped. Although deep red and green outside, its interior is green with pink extending up into the middle. Fruit is medium to large with a mild, sweet flavor. Indeterminate.
Tomato, Large, Beefsteak or Big Beef	annual		Traditional Jersey-Style Beefsteak Slicer.
Tomato, Large, Black Sea Man	annual		Russian heirloom from Marina Danilenko. Small plants produce brownish-pink fruits with olive green shading. Well marbled flesh is attractive when blanched and peeled. Rich flavor. Potato leaf foliage. Determinate
Tomato, Large, Bloody Butcher	annual	Back for 2017!	Back by popular demand - Very early and very productive plant producing loads of small 2-3 oz. Round red tomatoes with a greenish shoulder. Flavor is not too sweet but not tart. These are great if you have a short growing season. Loaded with seeds. Red 65 days, indet.

Tomato, Large, Box Car Willie	annual	Back for 2017!	We predict this old-timer might become your main crop variety, due to its prolific yields of smooth, reddish-orange fruits averaging a large 10 to 16 oz.! With an old-fashioned flavor you'll remember from childhood, these high-yielding, multi-use tomatoes will last throughout the season and are ideal for canning, freezing, or for home-cooked meals. Crack-free and disease resistant.
Tomato, Large, brandywine, red	annual		Pure bright red but with the very squatty heart-like shape traditional to Brandywine tomatoes. Potato-leaf style.
Tomato, Large, Pineapple	annual		Big mainly yellow but with red streaks.
Tomato, Large, Cherokee Purple	annual		An old Cherokee Indian heirloom, pre-1890 variety; beautiful deep dusky purple-pink color, superb sweet flavor, and very large sized fruit. Try this one for real old-time tomato flavor.
Tomato, Large, Mortgage Lifter	annual		Large, smooth, 1-lb. pink fruit have a delicious, rich, sweet taste. This variety has become very popular in recent years, after being developed by M.C. Byles of Logan, West Virginia. After crossing varieties for 6 years and selecting the best, he introduced this beauty that he named Mortgage Lifter in the 1940's after he sold plants for \$1 each and paid off the \$6,000 mortgage on his house.
Tomato, Large, German Johnson	annual		More vigorous, higher-yielding Brandywine type. Excellent flavor. Deep pink tomatoes are earlier, more uniform, and slightly smaller than Brandywine at 8-16 oz. Fruits have lots of deep, acidic tomato flavor and a rich, creamy texture. There are two strains of this heirloom variety; this is the regular-leaved strain, which is earlier and more productive than the potato-leaved strain. Indeterminate.
Tomato, Large, Striped German	annual		Bicolor red and yellow fruit. The flat, medium to large, variably ribbed-shoulder tomatoes are shaded yellow and red. The marbled interior looks beautiful sliced. Complex, fruity flavor and smooth texture. Medium-tall vines bear 12+ oz. fruit. Indeterminate.
Tomato, Large, Orange/Yellow, Valencia F1	annual		Sunny orange fruits with full tomato flavor. Round, smooth fruits average 8-10 oz. Their meaty interiors have few seeds. This midseason tomato is among the best for flavor and texture. Our own selection of a Maine family heirloom with a Spanish accent.
Tomato, Large, Big Rainbow	annual	Back for 2017!	Heirloom, bicolored beefsteak tomato weighs 2 lbs. and more. Ripe fruit has light yellow shoulders atop a golden-orange tomato with ruby red radiating from the blossom end. Some red streaks appear through the meaty flesh. A beautiful variety that also has good, sweet flavor. Indeterminate.

Tomato, Large, Stump of the World	annual	Back for 2017!	Dark pink beefsteak fruit reach about one pound and grow on potato-leaved vines. The variety was part of the Ben Quisinberry Collection, which also contributed the variety Brandywine. Stump of the World is a bit smaller and more productive than Brandywine, but like Brandywine, offers outstandingly rich, complex flavor. Heirloom variety. Indeterminate
Tomato, Large, Costoluto Fiorentino "Ribbed from Florence"	annual		A big ribbed Italian Heirloom
Tomato, large, Pink Accordion	annual		A super-dramatically ribbed tomato - great for slicing as the slices are like flowers due to the dramatic ribbing... one of my favorite things to see in the summer - a platter of these flower-like tomato slices!
Tomatoe, Yellow Brandywine	annual		The traditional Brandywine Heart Shape but in bright yellow. An orange old-timer with rich flavor. An orange version of Brandywine. The fruits are larger than Valencia. This potato-leaved variety can be finicky to grow, with roughly shaped fruit one year and smooth the next. Indeterminate.
Tomato, Rutgers	annual		A great New Jersey Tomato. The perfect slicer for summer BBQs. Determinate; large red 8-oz. globes. Good yields and flavor on large vines. A fine New Jersey heirloom.
Tomato, Beaverlodge Slicer	annual	not available in 2017	Small cocktail sized red tomato super early. Compact determinate that gets loaded with fruits.
Tomato, Mountain Fresh F1	annual		The most widely grown market tomato in the East and Midwest. Able to tolerate cool and wet conditions, this big red tomato produces attractive, 8-16 oz. slicers with good flavor. Developed by Dr. Randy Gardner at NCSU. Vigorous plants provide plenty of leaf cover. Nematode tolerant and resistant to V1, F1, and F2. Determinate.
Tomato, Mountain Merit F1 (blight resistant, heavy producer)	annual		A Late blight-resistant slicer. Mountain Merit is a medium-large, 8-10 oz., red slicer with an excellent disease package to keep it healthy in the field. Mountain Merit has one of the best disease packages around for a variety of field conditions. Determinate.
Estamino Organic Rootstock Tomato for Grafting	annual	Special - this variety is for rootstock only for GRAFTING!	Organic, generative rootstock. Estamino is a strong, vigorous rootstock that puts a high proportion of energy into fruit. For growers who have had overly vegetative grafted tomato crops, Estamino should be easier to balance. This may be especially useful with any tomato variety in cultivation for six months or less, in unheated hoophouses, or with small-fruited (less than 100 gm) varieties. Broad disease resistance package keeps plants healthy. For use as rootstock only.

Geronimo F1	annual	Greenhouse tomato	Crack resistance with good flavor. Very firm, 8-10 oz. fruit is produced on vigorous plants with good balance. Very high yielding. Perennial yield leader in the Johnny's hoophouse tomato trials. Indeterminate
Watermelons - we're doing a lot of varieties this year - we're experimenting to find which varieties are most dependable and productive.			
Watermelon, Sugar Baby	annual		We're experimenting to find a dependable melon for this area...
Japanese Watermelon - Hime Kansen	annual		This Japanese icebox watermelon is the perfect size to fit in a fridge and has been a specialty for long time in Japan. It has firm dark red flesh and green skin with dark green stripes. It has an extremely thin rind (3/16") and excellent shipping ability. It has a high Brix count of 12.5-13 and weights 5-6 lbs. The fruit has a slightly oblong shape.
Watermelon, Blacktail Mountain	annual	New 2017	Pure black-green skin. Round fruits grow to 6-12 pounds Deep scarlet flesh, dark green-black rind Super sweet, juicy, and crunchy Perfect for short season areas; also does well in hot humid climates 65-75 days - We're experimenting to find a dependable melon for this area...
Watermelon, Little Baby Flower	annual		This has been our best producer so far ... A personal-size watermelon with great flavor and appearance. Small, 5 1/2" round, avg. 2-4 lb. fruit. Bright stripe pattern on shell and dark pink flesh that is sweet and crisp with high sugar count. High-yielding plants. Avg. 3-5 fruits/plant.
Watermelon, Chelsea	annual	New 2017	Round fruits grow to 15-20 pounds Pink flesh with white seeds and pale green non-striped exterior Sweet and keeps well once picked - We're experimenting to find a dependable melon for this area...
Watermelon, Citron	annual	New 2017	Red seeds and striped green rinds Extremely drought tolerant Fruits can be stored for up to 1 year Hard, tasteless white flesh
Watermelon, Chris Cross	annual	New 2017	Round fruits grow to 15-20 pounds Dramatic coloring - Pink flesh and pale green skin with jagged dark green stripes Moderately sweet flavor - We're experimenting to find a dependable melon for this area...

Watermelon, Cream of Saskatchewan	annual		<p>Round fruits grow to 4-10 pounds</p> <p>Sweet white flesh with exceptional flavor</p> <p>Very thin, pale green rind with dark stripes</p> <p>Does well in cool northern climates</p> <p>80-85 days - We're experimenting to find a dependable melon for this area...</p>
Winter Squash			
Winter Squash - Carnival Squash	annual	Cucurbita pepo	<p>Larger, multicolor dumpling type. About 1 1/2 times the size of Sweet Dumpling, with colorful patches and flecks of dark green, light green, orange, and yellow. Popular specialty market variety but not as good eating as Sweet Dumpling. Semibush plants produce fruits averaging 1-1 1/2 lb. Hot weather promotes more green tones and less yellow/orange.</p>
Winter Squash - Acorn Squash	annual	Cucurbita pepo	<p>Delicious, small size. Small to medium-sized acorn fruits are just the right size for single servings when halved. Weighing just 1-1 1/4 lb. (500gm.), Honey Bear has a deliciously starchy and sweet flavor. Promising for direct marketing by name. Compact bush plant. This innovative acorn squash was bred by Dr. Brent Loy at the University of New Hampshire. Intermediate resistance to powdery mildew</p>
Winter Squash - Milk or Cheese Pumpkin "Long Island Cheese"	annual	Cucurbita moschata	<p>Also known as Long Island Cheese ... Sweet, deep orange flesh</p> <p>Flattened, ribbed, buff-colored fruits grow to 6-12 pounds</p> <p>Good keeper -90-100 days</p>
Squash, Winter, Little Gem Red Kuri	annual	Cucurbita maxima	<p>Cute little Red Kuri type fruit are a good size for the kitchen & for market. Plants produce numerous fruit that weigh 3-5 lbs each. Fruits store well & have dense, finely-textured flesh. Good uniformity. This variety does well even in challenging conditions. We think Little Gem is the perfect size for a kuri squash & is a great choice for the farmers market booth.</p>
Squash, Winter, Shishigatani Japanese	annual	Cucurbita moschata	<p>Since the Edo period of the early 1800s, this special Japanese pumpkin is one of the kyo yasai, or traditional vegetables in the Kyoto region. This kabocha squash is used in shojin ryori, a type of vegetarian cooking prepared by Buddhist priests. The fruit skin is distinctly ribbed and warted and ripe when the skin turns light brown. The flesh is a delicate light yellow color.</p>
Squash, Winter, Jumbo Pink Banana	annual	Cucurbita maxima	<p>West Coast favorite since 1893, now gaining admirers nationwide for its moist, creamy texture, sweet, rich flavor, and large yield.</p> <p>Great roasted or in soups; freezes very well after cooking.</p> <p>Stores well just check for dents, bruises, or sunken areas which might spoil, and use those squashes first.</p> <p>If you really want your garden to produce a lot of winter food, this one is a great bet. Usual size is about 18 inches long. Drought-resistant, tough plants can climb up a trellis, fence or even bushes, and it makes an excellent "three sisters" variety</p>

Squash, Winter, Rouge d'Etamps Pumpkin	annual	Cucurbita maxima	95 days Most beautiful flattened and ribbed large fruit are a gorgeous deep red-orange. A very old French Heirloom, this was the most common pumpkin in the Central Market in Paris back in the 1880's. The flesh is tasty in pies or baked. This one can also be picked small, like summer squash, and fried. It is a good yielder too.
Squash, Winter, Queensland Blue	annual	Cucurbita maxima	Reportedly first imported into the U.S. in 1932. Queensland Blue is a striking blue color with a ribbed exterior. The flesh is almost neon orange-yellow, sweet and very meaty with a small seed cavity. Very abundant vining type squash that is a good keeper.
Squash, Winter, Jaune Gros de Paris	annual	Cucurbita maxima	The beautiful giant pumpkin of historic Paris, the big pinkish-yellow fruit can grow to over 100 lbs. They are round, flattened and have light ribbing. They are good keepers and are still popular in France. Good in pies, soups and baked. A winner for farm markets!
Squash, Winter, Boston Marrow	annual	Cucurbita maxima	Bright red-orange skin Fruits grow to 10-20 pounds Thick, flaky and fiber-free flesh Winter squash 90-110 days
Squash, Winter - Butternut	annual	Cucurbita moschata	A nice tasty butternut. Straight necked fruits grow to 3-6 pounds Dry, yellow-orange flesh with nutty flavor High yielding vines One of the most popular types of baking squash Exceptional keeper Winter squash 83-100 days
Squash, Winter, Marina di Chioggia	annual	Cucurbita maxima	A big fabulous bumpy and lumpy dark grey-green squash - Bumpy, turban shaped fruits grow to 10-12 pounds. Sweet, dry flesh Highly productive and good keeper - Flavor improves in storage 95-100 days
Squash, Winter, Buttercup (Burgess Strain)	annual	Cucurbita maxima	A mix in flavor between an acorn squash and a butternut. Great for pies. Turban-shaped fruits with distinctive button on the blossom end. Fruits weigh 3-5 pounds Super sweet brilliant orange flesh; Medium length keeper in storage 85-100 days
Squash, Winter, Sugar Loaf Hessel Delicata Type	annual	Cucurbita pepo	Light golden flesh, mild with a hint of sweetness. This is my favorite squash.
Squash, Winter, Musquee de Provence	annual	Cucurbita moschata	A big very rustic heirloom-looking pumpkin. Fruits grow up to 20 pounds Deep orange flesh is dense and flavorful Does not tolerate cold - 110 days

Squash, Winter, Spaghetti Squash	annual	Cucurbita pepo	Traditional - light yellow when ripe.
Squash, Winter, Oregon Homestead Sweet Meat	annual	Cucurbita maxima	Beautiful blue squash on huge vigorous vines. Three to four fruits per plant weigh ten to twenty pounds each. Selected for vigor, large seeds for vigorous cool soil emergence, a small seed cavity, and premium flavor by Carol Deppe, who originally received it from an old-time seed saver in Oregon. A Classic Oregon heirloom winter staple.
Zinnia, Queen Lime with Blush	annual	New 2017	Sophisticated color combination. Innovative and elegant addition to the Queen series. Mostly double and semidouble 2-3 1/2" blooms with a small percentage of singles. It's not very often that a new color is fashioned in this classic cut flower, so we were excited to observe its excellent performance and stunning color in our trials. Also known as "Queen Lime with Blotch."
Zinnia - Benary's Giant Mix	annual		
Zucchini Squash			
Zucchini, Bolognese (summer squash)	annual	not available 2017	A fat zuchinni - light in color.
Zucchini, Butterstick Yellow	annual		Bright golden yellow - good producer
Zucchini, Costata Romanesca	annual		Dark green heirloom with stripes. Great squash flavor. Sometimes can be hard to see out in the garden!
Zucchini, Raven	annual	New 2017	Very dark-green, high yielding. Darker green skin contains higher levels of lutein, a highly effective antioxidant. Semi-open plants with moderate spines produce glossy, smooth, cylindrical fruit. Concentrated fruit set, so plan for multiple plantings.
Zucchini, Safari	annual	NEW 2017	Green zucchini with attractive white stripes. A prolific yielder of attractive, glossy, cylindrical fruits that are easy to pick due to the nearly spineless plant.
Zucchini, Nero di Milano	annual		Dark dark - shiny - almost black - heirloom
Zucchini, Striato d'Italia	annual		Very similar to the Romanesca - dark green heirloom with stripes.
Zucchini, Genovese (summer squash)	annual		Good flavor - light colored fruits.
Zucchini, Magda light green (summer squash)	annual		Very buttery flavor - good stronghybrid.
Zucchini, Tonda Chiaro di Nizz (Round of Nice)	annual		A light green colored round zucchini!
Zuchino da Fiore	annual		A zucchini plant bred and grown for its prolific flowering - not much fruit!
Zucchini, Tonda di Piacenza	annual		A round zucchini!

Zucchini, Early Prolific Starightneck (yellow)	annual		Light yellow great producer.
