VOLLMER ANGUS
RANCH**

Welcome

I would like to take this opportunity to personally invite you to our Annual Bull Sale, Tuesday April 6th at the ranch. The sale will begin at 1:00 pm with lunch and refreshments being served throughout the day. The sale offering will be displayed at the sale site in large pens to allow excellent viewing and appraisal. Bulls will be on display at the sale pens starting Saturday April 3.

The offering this year is one that provides great excitement, featuring large sire groups from some of the breeds most promising up and coming herd bulls. These herd bulls were selected for their multi trait excellence, they are genetic, genomic, and phenotypic breed stalwarts.

In our continual search for improvement, not just with the cow herd but also the bottom line, has led us to adding carcass excellence to traits of relevance. Now this does not mean sacrificing any of the other traits we have diligently strived for for decades. Bulls that are efficient, deep bodied, thick, wide based, structurally correct with excellent feet and legs, excellent dispositions and come from sound, efficient, good uddered, non-pampered mother cows, and now with excellent carcass traits, can be found in volume at Vollmer Angus Ranch. The goal is to provide seedstock that require very minimal resources, yet produce a very desirable product that is in high demand at marketing time!

This year we have also decided to include some very top end replacement females to the offering, both registered and commercial. All these heifers are home raised, have been on the same health and nutrition program as our own replacements and have all the potential to make top end mother cows.

We will again be offering the trucking discount the day of the sale. Since since the sale is earlier this year, if you pick your bulls up at the ranch before May 1, you will still receive a \$50 trucking discount per bull.

Feel free to give me a call, the bulls and females are available for viewing anytime.

Thanks for your interest in our program and for all your past support!

Troy Vollmer

Hope to see you on Sale Day!

VIDEO AUCTION!

This will be a video sale with no animals entering the ring. All the sale cattle will be available for live viewing prior to the sale. Videos will also be available online at vollmerangus.com or dvauction.com

A complimentary lunch will be served.

TRUCKING - Load up your bulls via our drive thru load-out on sale day, or within one week of the sale and receive \$100 for each bull purchased. If you pick up your bulls at the ranch before May 1st we will offer a \$50 discount per bull. Or, leave your trailer at home and we'll deliver up to 500 miles at no cost to you. We just ask that for bulls purchased outside of ND that you would please be willing to travel to central drop points to make delivery feasible and avoid cattle being in transit for too long a time period.

BREEDING GUARANTEE: All bulls guaranteed against injury throughout the first breeding season. If a suitable replacement bull is not available when needed, credit will be issued for next year's sale.

SIGHT UNSEEN PURCHASE GUARANTEE: We guarantee the bulls will be as described and to your liking, or you don't own them.

Vollmer Angus is reserving a 1/3 revenue sharing semen interest in all bulls.

VOLUME DISCOUNTS: Volume Discounts will be offered starting at 3 Bulls - 3% and increasing 1% for each additional bull up to 10 bulls - 10% maximum discount.

This is the first calf crop by Done Deal and they have surpassed my lofty expectations. This is a very impressive sire group. They are loaded with muscle, body depth, big footed, lots of performance, carcass merit, exceptional dispositions, and a second to none maternal heritage. Done Deal really does cover all the phases of beef production. His dam and granddam are easily two of the most productive donors of the breed and Done Deal has multiple flush sisters that have already entered the donor pen at Baldridge's. The potential positive impact of Done Deal to our program is limitless. It is rare to find a bull deliver this much quality, both on hoof and on paper, in so many different traits. Done Deal has been, and will continue to be, used very heavily in our program. He consistently delivers the type of progeny we are looking to produce in volume.

A performance powerhouse with amazing weaning and yearling EPD's. But he offers so much more than just that. He comes from an excellent maternal heritage with his dam, granddam, and great granddam all being pathfinder cows. He is a herd bull who could add as many positive traits in one generation as any bull selling this spring.

Franchise has proven himself to be an elite breeding bull in his very first calf crop. His progeny are standouts with exceptional phenotype. I had been searching for several years for a new calving ease bull that had a true calving ease look, not just a bull that read calving ease on paper. I was excited when I found Franchise as he was exactly what I had been searching for. A true calving ease type head, lots of extension through his front end, an exceptionally smooth shoulder with ideal depth of body, long sided with a big muscular top and a big foot. His maternal side is also outstanding. His mother has an excellent production record and is a maternal sister to the famous donor Isabel Y69. Outcross genetics with as much quality, form, and function as you can put in one. We are very excited about the potential of this line of genetics for our operation and will continue to use him and his son's heavily in our program.

SIRE: BALDRIDGE TITAN A139

The first Franchise to sell and one that I believe could be better than his sire. He does so many things well. Calving ease deluxe, exceptional marbling, and all the performance you could ask for. He descends from a productive cow family. His granddam has two top daughters in the herd as well as being the mother of the powerhouse Lot 29 in this sale. He is a hard to find type of herd bull.

Ashland has done an excellent job for us again this year. He has been used very successfully the last two years on our first calf heifers and in our embryo program. They come easy with excellent vigor yet have outstanding performance, excellent carcass traits, and the daughters are making top end brood cows. They are easy fleshing deep bodied females with excellent fertility, foot quality and abundant milk. Ashland produced our top selling bulls last year and they are just as good, if not better this year.

I could write about this herd bull for many paragraphs. Double digit calving ease direct, loaded with performance, over a 1 on marbling and a phenotypic powerhouse. But his maternal background really sets him apart. His dam is easily one of the best young cows on the ranch and has the look of a donor cow. Big bodied, long sided, big hiped, excellent feet and a picture perfect udder. Granddam is also one of the best cows on the ranch and has a beautiful udder with great feet and can raise the good ones, she is the dam of the Lot 23 bull in this sale.

Bulls with good dispositions • Bulls developed slowly

Bulls fully guaranteed

Another great Ashland from the great donor 274. She has produced the top selling bull in three past sales, including a flush brother to Lot 10 who sold to Ridl Angus last year. And this bull could easily top the sale this year, he has herd bull written all over him. We calved two flush sisters this spring with great results, one for sure is a future donor and the other could very well be headed that way as well.

The former top selling bull from the Krebs Ranch that has developed into a powerful and impressive mature bull with an excellent disposition. He is an impressive breeding bull out in the pasture. Outfit produced some of the top bull's in last years sale and has done the same again this year. They are very sound and structurally correct with excellent eye appeal and muscle mass. Outfit progeny will produce that added eye appeal to catch the buyer's eye and produce those market topping progeny. His dam is also a top donor at Krebs Ranch who has continued to be a valuable contributor to their program.

Blueprint is a featured member of the Select Sires lineup and has been used heavily throughout the country with excellent results. The Confidence Plus progeny have been highly sought after and Blueprint has proven to be one of the top bulls discovered from that sire line. Blueprint covers all the bases needed to be a top contributor to our program. There are several excellent bulls featured throughout this sale but where he really shines is in the replacement heifer pen. We have retained several daughters and they are showing all the signs of being the "right kind".

A low birthweight high performing Blueprint with excellent EPD's all across the board. His Bullseye dam is one of my personal favorites. She never misses. Has a near perfect udder, excellent feet, is very easy fleshing.

An exciting herd bull candidate. His dam posts a 108 weaning ratio, is one of our best cows and was flushed last spring with great results. The great great grandmother also served as a donor cow for us. Cow power in the blood for generations in this bull who has a great disposition and excels in multiple traits of relevance.

One of the most unique individuals in this sale. He has tremendous shape, depth, length, performance all while posting a negative birth EPD and double digit CED figures. Couple that with his well balanced carcass traits and you have a truly rare combination. Dam is solid consistent contributor with a nursing ratio of 104 while maintaining a 363 day calving interval.

Our first daughters have calved this spring by Eager and he has earned the title of "Proven Cow Maker". His daughters are simply awesome!! They have abundant milk with top of the line udder quality and are raising some very impressive baby calves. Eager daughters are consistently moderate, deep bodied, easy fleshing, fertile, have excellent feet and are top mother cows with people friendly dispositions. All the characteristics that we require yet few sires deliver on a consistent basis. Eager's dam has amassed an impeccable production record of quality and revenue generated. Several progeny have sold for over 6 figures recently and include flush siblings to Eager such as the immensely popular Alternative and the top selling bulls this past January at Baldridge's. Eager has produced an outstanding sire group for this sale and is a bull that we will continue to use in our program based on his females and the ability for his progeny to excel in all traits of relevance to successful beef production.

Another incredibly unique breeding piece by Eager. He is full of body mass and performance yet has a double digit CED with a big milk EPD. His dam is a paternal sister to our great 274 donor and she is a powerful productive cow in her own right. She posts a 106 weaning ratio on all her calves and has 2 daughters retained in the herd, including a full sister to this bull.

An ET son of the great 274 donor. This bull also has a great data set with calving ease, performance, and maternal. The quality of the Eager daughters coupled with this great cow and he should be a cow maker. We have retained two flush brothers for our own use this summer.

Another Eager from the great 9152 donor. This combination has given us great results. There were several flush brothers in last year's sale, including one of the high seller's to Weigel Angus. This could be the best one yet. We used two full brothers last year and will again this year. The females should be great cows.

There is a lot of things to really like about this herd bull candidate. Added performance and excellent EPD's highlighted by over a 1 on his marbling. Marbling and efficiency come together here. His dam has a stalwart production record. She boasts a weaning ratio of 107 while maintaining a 369 day calving interval with a near perfect udder and feet. She has one daughter in the herd and one of the sale highlights last year was her Outfit son.

Eager has produced an excellent set of bulls for this sale and Lot 20 exemplifies what he is all about as a breeding bull. Lots of performance, moderate birth, easy fleshing, more than adequate carcass with great feet. They truly are the kind that can be used in a multitude of different environments and management strategies.

Bull videos available at
vollmerangus.com or DVauction.com.

These next four paternal brothers by Franchise represent a great buying opportunity. Their dams are four of the absolute best, highly proven mature cows on the ranch. They are as good of cows as we have owned. 3 of them have are the natural calves of our featured donors and the 4th is AJ's and she should be a donor. They are all the type of cows to build a cowherd around. These four bulls are of the highest quality and they possess the genetic merit required to top the sale. They are sale highlights.

Lots 32-33

Lots 32 and 33 are a pair of flush brothers that are remarkably similar in their type and kind while possessing that herd bull quality. Their donor dam consistently puts that added power into her offspring. Phoenix will add overall dimension and injects reliable carcass quality without sacrificing maternal. Cover all the bases genetics.

Lots 34-35

Another pair of Phoenix flush brothers from a foundation pedigree type donor who has an impeccable record. The 9152 cow is a very maternal brood cow who is still in top shape and sound as can be at 12 years of age. An old time pedigree with a modern EPD package is hard to achieve. These herd bull brothers offer a lot of breeding options for any program.

A calving ease Eager from a highly productive young dam. She boasts a 114 progeny weaning ratio with a 379 day calving interval. Granddam is the mother to Lot 29 and a maternal sister is the mother to Lot 5. Add Eager to the cow family genetics and you have a true maternal sire.

This young Franchise bull is loaded with eye appeal, muscle dimension, and is as complete and sound structured as you can make one. His mother is a herd favorite. She is year round fat with a great udder. I think this bull has a great future and is a definite herd sire prospect. AJ's bull.

Phoenix is a past top selling bull from the Gardiner Ranch in Kansas that is leased to Select Sires. He was used strictly in our embryo program and he delivered. Phoenix is a full brother in blood to our resident herd sire Sure Cold who has worked so well for our program, making it a logical decision to incorporate him in our embryo division. This is an impressive sire group with outstanding multi trait data, and all are from three of our best cows. If you want to add some performance, carcass, and scale to a set of feeder cattle – look these guys up!

**Lots 45-47**

A trio of flush brothers by the great 274 donor. These guys are impressive in their design and will sire the type of calves that buyers and feedlot managers will love to have. And then you will be able to keep all the heifer calves and have a set of females that you will love to have. Get it done genetics for all segments.

One of the resident herd sires for our operation, Sure Cold has exceeded all expectations. A bull that was purchased due to his multi trait excellence and has delivered that, and more, to his progeny. They are long, deep sided bulls with excellent muscle expression and structural correctness. Also, they are some of the quietest, gentle natured cattle that we have worked with. His first daughters have calved this spring and they did not disappoint. Lots of milk with proper udder design, excellent mothering ability and have very exciting baby calves walking along side of them.

Lots 48-49

A pair of very closely related Sure Cold's that have multi trait superiority. They both are out of outstanding young Compass daughters, who are both out of Cash x Rocky bred cows. That has been a money making cross for us for years. Lot 48 and 49 are offer light birth, top performance, outstanding maternal and are over a 1 for marbling EPD. Top of the line \$C genetics.

Five outstanding flush brothers from the great 2105 donor. 2105 has produced several outstanding progeny for us over the years. She is also a direct daughter of the 9152 donor. We have been flushing these two cows to propagate the Black C Lass cow family. They do so many things right you just can't have enough of them. All five of these brothers are big outlined bulls who are full of performance, carcass and maternal genetics.

Thank you to Tanner Wolff. He makes it possible for us to work hard and play a little harder. He is the first one to jump in the tractor, partly because he's faster than the rest of us and also because he likes it there. We appreciate all your time and effort.

Lots 55-56

Another pair of Phoenix brothers from the great 9152 donor. The dam to 9152 was one of the best Sitz Alliance daughters there ever was. She was a dynamic cow with unbelievable milk production. These Phoenix son's out of our top cows offer a lot of genetic progress. Fill a pasture of these like bred bulls and reap the benefits from all they have to offer. Again, this pair is full of performance, carcass, and maternal genetics.

One of the most unique bulls in the entire offering. A moderate powerhouse with as much volume and mass as you can put in one. He also has outstanding carcass data and is backed by one of our best cow families for generations. Dam, grand dam and great grand dam have all achieved pathfinder status.

Another top Done Deal from one of our top cows and top cow families. The dam posts production records of a 105 progeny weaning ratio while maintaining a 372 day calving interval. She is also a product of our embryo program as her dam was a top donor cow for us for many years, being the top daughter of Equator 395M that we produced. And the 395M's were some outstanding cows.

Lots 93-96

Four Phoenix son's from the mother daughter donor cows, 2105 and 9152. Another opportunity to buy some bulls that are bred similar and are similar in their type and kind. They will produce look a like progeny that are easy to market. Multi trait excellence from two of our best and most productive cows.

A calving ease specialist by Franchise from a super uddered Residual daughter who is one of the best from that sire line. A typical Franchise, very complete in his design and structural makeup with calving ease data and phenotype.

Callie and Doc moving pairs to new grass.

Brooklyn and Bev sorting and recording while Dr. JJ Hovde ultrasounds cows.

Lots 98-100

A trio of Ashland calving ease specialists with tremendous marbling genetics. All three are out of top young cows who descend from top cow families. Our Ashland daughters that have calved show lots of promise to be productive young cows who will contribute to the herd in a big way.

Clayton still is raising and showing Herefords.

HEIFER GROUP 2 Lots 135-139

Another outstanding group of registered heifers from VAR sired herd bulls. These girls are deep bodied and feminine fronted with excellent structure and performance. They will raise the type of progeny that are always in high demand. The winning bidder can pick and choose one or more from this group.

HEIFER GROUP 3 **Lots 140-184**

The following 45 heifer lots are all out VAR sires from multi sire pastures, they are not registered but all come from registered sires and registered dams. The sires are sons of President, Raindance, Residual, Road Trip, and Traction. This is the younger end of our replacements. They have been sorted numerous times for quality, with the bottom end being sent to the feedlot. They are a fancy group that are built right. I have complete confidence that they will develop into excellent brood cows.

They will be sorted according to quality with what I feel to be the best one starting at 140.

They will sell in lot order with the winning bidder having the option of taking 5 or more.

Notes

Sara, Auctioneer Roger Jacobs and Troy running the block on sale day.

Allen and longtime friend and customer Loren Anderson.

Callie enjoys roping and barrel racing and also serves as the 2020 Junior Miss Rodeo Prairie Rose.

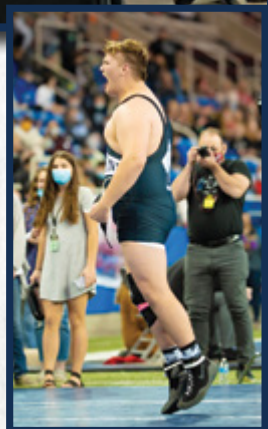

Clayton plays basketball, wrestles, and is going to try golf but loves football the most.

Brooklyn was awarded the Outstanding Senior Award for the NDSU Saddle and Sirloin Club at this year's Little I where she served as the Swine Superintendent.

AJ won the ND State Class B Heavyweight Championship. He celebrated on the mat and then a few seconds later with his Dad in the stands.

Haley won the 2020 ND High School Rodeo Breakaway Title and after graduating in May is pursuing her marketing degree and competing on the rodeo team at Kansas State. #emaw Vollmer Angus Ranch is proud to be the home of the 2017 and 2020 NDHSRA Breakaway Champions.
