				ELEMENTARY CHILDREN AT RISK		6318	

Yellow: Considered for closure 2016. Red: Shortlisted for closure 2016.

***H1	Most vulnerable structure; at highest risk of widespread damage or structural failure; not reparable after event. Structural and non-structural seismic upgrades required.
**H2	Vulnerable structure; at high risk of widespread damage or structural failure; likely not reparable after event. Structural and non-structural seismic upgrades required.
*H3	Isolated failure to building elements such as walls are expected; building likely not reparable after event. Structural and non-structural seismic upgrades required.
^Ministry of Education calculates a nominal capacity using the total number of classrooms multiplied by the maximum number of students. Richmond School District calculates an operating capacity which adjusts the nominal capacity to reflect grade composition (early primary has less children per classroom), classroom size, and other real world factors.
