

New Product Opportunity – Waste Rice Hulls are a useful filler for making building products.

Rice is the most widely consumed [staple food](#) for a large part of the world's human population, especially in Asia and the [West Indies](#). It is the grain with the second-highest worldwide production, after [maize](#) (corn), according to data for 2010.<sup>[1]</sup>

Since a large portion of maize crops are grown for purposes other than human consumption, rice is the most important grain with regard to human nutrition and caloric intake, providing more than one fifth of the [calories](#) consumed worldwide by the human species.

The annual global rice crop exceeds
