

TRU TUF CB

TRU STEEL METALS TruTuf CB Cast Product

TRU TUF CB delivers tough reliable, low cost wear protection. Products can be used *singly or combined to form a pattern* wear resistance to address high wear in heavy-duty applications.

TRU TUF CB meets the following conditions:

- Hardness in range of 700Bhn
- Metallurgically bonded chrome white iron
- Weldable structural steel back plate
- Shear strength of 20 tons per sq. in.
- Button's circular shape provides maximum impact resistance
- Chokblocks can conform to mildly convex or concave applications
- Skidblocks can address high abrasion in heavy-duty applications
