

Professional Qualification Workshop: Water & Rope (Pro-Qual: WR)

These workshops provide independent verification of a student's qualification as a water and rope technician as required under NFPA Standard 1006. This workshop is not an instructional course, but rather is a place for fully trained rescuers to prove their competency.

Attendees must complete a Taskbook prior to attending the workshop. These can be ordered from the corporate office after the completion of an **SRTA** and **TRR: TL** course.

Standard:	NFPA 1006 Technician (Water & Rope)
Prerequisites:	SRTA & TRR:TL (or other NFPA rope course)
Equipment:	Water & rope equipment
Tuition:	\$340
