

ORION DRAGON TEMPLE OF NIVENEH

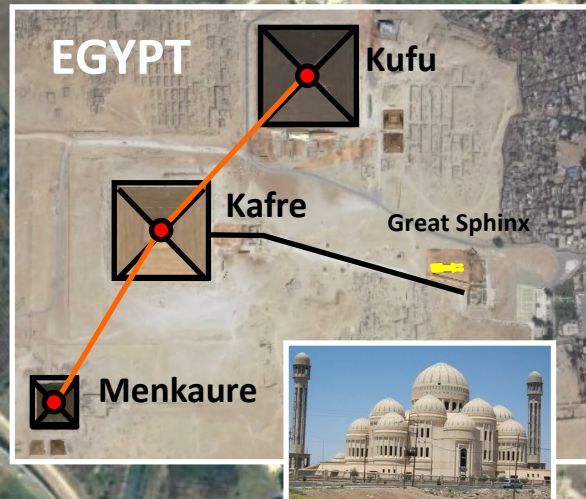

The purpose of this illustration is to consider the astronomical correlations of the entire ancient city of Nineveh. This study presents the assertion that the entire ancient city perimeter and its 7 gates was fashioned after the pattern of *Orion*. This ancient city is what is now called Mosul in modern-day Iraq. It is situated on the *Tigris River* to the north of Bagdad and has a rich history of one of the fiercest empires the world has ever known, the *Assyrians*. In ancient times, this capital was founded by those that are considered the 'Cradle of Civilization' after the *Flood of Noah*. The original capitol of Niveveh was founded in approximately 3000 BC. The kings were considered to have been part of the bloodline of the *Anunnaki*. The *Anunnaki* were those that supposedly came from such star constellations of *Orion* and the *Pleiades*. These were the 'gods' that came down from 'heaven' and seeded such bloodlines as they interbred with the human race. This is corroborated in the account of Genesis 6.
