North Area Sec. and Inf.	2016	\$949,000	\$759,200	\$0	\$79,500	\$79,500						Update: Project was bid and submitted for 100% FAA funding on October 31st. FAA funding requires additional design and Environmental Assessment as opposed to State funding. The State already paid 80% of design and bidding. This will result in no local cost under the FAA Supplementary Funding Bill. Construction is expected to start in August 2019. Heavy civil project on the north side of the airport. Scope includes removal of septic systems, construction of regional storm water pond, sanitary collection and forcemain, fencing upgrades and other drainage improvements.
Design: Rehab South Apron	2019	\$270,000	\$21,600	\$243,000	\$5,400							Existing apron is in poor condition and needs to be rehabilitated. PCI is in the very poor category based on 2012 inspection report. In addition, the existing apron is built below the flood plain and must be raised. Milling and resurfacing is planned with overbuild in areas below Flood Plain.
Construction: Rehab South Apron & RW 11-29 Airport Master Plan and ALP Update	2019	\$3,135,364	\$250,829	\$2,821,828	\$12,541	\$50,166						Same as above.

Design and Construction: FBO Terminal Bldg		\$1,876,000	\$1,500,800	\$0				\$0				Phase 1A of a multi-phase/year approach to remove an older hangar which is currently penetrating the part 77 surfaces. This project includes constructing a facility for the public to have an FBO on the east side of the airport. Approximately 4,000 sf. of office space and 8,000 sf of hangar space.
Design and Construction: Maintenance Hangar (FBP)		\$896,000	\$448,000	\$0		\$0						Phase 1B of a multi-phase/year approach to remove an older hangar which is currently penetrating the part 77 surfaces. This project includes constructing a facility for the public to have an FBO on the east side of the airport. Approximately 4,000 sf. of office space and 8,000 sf of hangar space.
Construction: Port-A-Port Hangar Replacement	2018	\$1,440,000	\$1,152,000	\$0	\$144,000							Construction of above project
Design and Construction: Hangar (SCH)		\$1,348,000	\$1,078,400	\$0				\$269,600				Phase 3 of a multi-phase/year approach to remove an older hangar which is currently penetrating the part 77 surfaces. The hangar that Sebastian Communications (SC) currently operates from is in very poor condition, it is beyond the building restriction line and it penetrates the Part 77 surface. The construction of a new hangar in the appropriate location will resolve all of these issues. The Airport has determined in previous analysis by others that the appropriate size of this hangar should be nearly 70' by 70'. The ALP identifies a corporate hangar to be constructed. Approximately 5,000 sf of hangar and office space.
Design and Construction: North Apron		\$1,914,000	\$1,531,200	\$0					\$382,800			Phase 4 of a multi-phase/year approach to remove an older hangar which is currently penetrating the part 77 surfaces. This project would demolish the existing hangar vacated in Phase 3 and provide construction of new apron and rehabilitation of adjoining pavements that are in poor condition. This project will serve the increasing public requirement for additional apron space near the FBO.
Design and Construction: Box Hangars		\$1,546,000	\$1,236,800	\$0						\$309,200		Phase 5 of the multi-phase/year approach is to add Box Hangars. Merritt Island Airport currently has a waiting list for general aviation storage hangars that has 117 people in it as of September 2014. This project will provide a small relief to the list. The top person on the list has been waiting since 2008.
EA: Taxilane Development		\$250,000	\$20,000	\$225,000		\$5,000						EA for Alternative A T-Hangar Development
