

Nichols Fire Department

100 Shelton Road

Trumbull, CT. 06611

Fairfield Regional Fire School

Testimonial regarding courses and staff

Assistant Chief Tracy and Staff,

As a fire chief of a volunteer department in this day and age, it is sometimes difficult keep up with the latest information and training on a regular basis. Our organization has been using your facility for training since the early 1970's and continue to use it regularly today. Our membership has enjoyed the many course offerings that we have attended at the school. Your school was also very accommodating to us, when we needed courses offered at our facility in Trumbull, for both the State Pump operator, 2Q driving course and our annual HAZMAT refresher. Once again, you and your staff went on the road and put together two great programs that allowed me to get our members certified and remain compliant in those disciplines!

Our members have always been satisfied with the quality of the course content and the knowledge of your instruction staff when they deliver the information. I am also proud to say that a number of our members have gone on to become members and lead instructors of your current instruction staff, which is a testament to your organizations ability to develop quality firefighters and instructors.

Finally, your staff and instructors have always been more than willing to adapt to whatever we have requested, including schedule adjustments, time constraints or any other issues. We will continue to use your staff and facilities for many years to come and we appreciate all that your organization has done for us. Please don't hesitate to ask us for assistance if that need should ever arise! Keep up the great work and we look forward to working with you in the future.

Fraternally yours,

John A. Plofkin, Jr.
Chief of Department
