

Employment Opportunities

PER DIEM MENTAL HEALTH THERAPIST (PART-TIME)

GTR's Trauma Center at HCC provides intensive counseling services to individuals impacted by a traumatic event. The center offers research, education and culturally competent (home and office base) assessment and treatment for underrepresented children, adolescents, and adults affected by trauma in New York City.

The Per Diem Therapist will have the responsibility of providing ongoing mental health services and monitoring for an assigned caseload. The hours would be primarily 3pm to 8pm including Saturdays 9am-5pm. The schedule can be flexible, and the individual will report directly to the clinical supervisor.

Position starting: November, 2015

RESPONSIBILITIES:

- Provide home and office-based therapeutic counseling to children, adolescents, and adults
- Provide culturally competent comprehensive assessments and develop quarterly service plans for individuals and families.
- Responsible for all required OMH documentation and communication with clients.
- Provide minor social services.
- Work as part of a multidisciplinary team including but limited to GTR's international staff, HCC social workers, health educators, etc.
- Develop and facilitate groups designed to meet the needs of clients.
- Monitor client's treatment and comply with all required documentation in a timely manner.
- Ensure continuity of services for clients and collaborate with other social service agencies to provide wraparound services for clients.
- Train community leaders in mental health facilitation
- Present clinical issues and research found at the center to community groups, churches, other non-profits, and conferences.
- Special projects as required.

MINIMUM QUALIFICATIONS:

- Licensed: LMSW, LCSW, or LMHC by the state of New York.
- Masters Degree in Mental Health Counseling or related.
- At least 2 years post Masters experience.
- Multicultural competence and training.
- Specialty and training in psychological trauma and PTSD preferred.
- Willing to go through extensive training in trauma and multicultural competence.
- Excellent writing skills, ability to submit documentation on a set timeline.
- Proficient computer skills (ability to utilize Microsoft Word, Excel and PowerPoint; and electronic submission of treatment plan).
- Thorough understanding of DSM-V mental health diagnoses and treatment approaches for adults and children.
- Familiar with Evidence Based practice model of treatment (MI, CBT, CRAFFT, TF-CBT, EMDR, etc).
- Bilingual Fluency (Spanish or Haitian-Creole)
