

Boil Water Notice

Public Notice to Boil Water

August 29, 2017

Due to water pressure loss in the Lake Forest Utility District water distribution system caused by flooding from Tropical Storm Harvey, the Texas Commission on Environmental Quality (TCEQ) has required our system (Lake Forest UD /TX1010494) to notify customers of the need to boil their water prior to consumption.

To ensure destruction of all harmful bacteria and other microbes, water for drinking, cooking, and making ice should be boiled and cooled prior to use. The water should be brought to a vigorous, rolling boil and then boiled for two minutes. In lieu of boiling, you may purchase bottled water or obtain water from some other suitable source.

When it is no longer necessary to boil the water, the water system officials will notify you that the water is safe for consumption. Instructions to discontinue boiling will be issued in the same manner as this notice and posted in the system.

If you have questions concerning this matter, you may contact the District's Operator, Environmental Development Partners at [832-467-1599](tel:832-467-1599) or toll free at [1-866-467-1599](tel:1-866-467-1599).
