

## Springs Farm Market Family,

In recent light of what we have been experiencing with the national outbreak of Coronavirus (COVID-19), we have decided to make some big store changes in order to protect our staff and our customers effective IMMEDIATELY.

Our store hours will be from 8:00 am - 7:00 pm starting today, April 16, 2020. We will be limiting the number of people in the store to FIVE at a time to ensure that our customers can practice effective physical distancing while shopping. We are asking that you come to our store alone (without significant others or children, if you can help it) in order to help allow the maximum number of actual shoppers in our store at a time. We will operate a CARD ONLY drive-thru where you can purchase strawberries, ice cream, and slushies.

For the time being, we have decided to keep our Pick-Your-Own Strawberry fields CLOSED until further notice. While we are sad to make this decision, we know that this is the safest option for our community.

We know these limitations will not be ideal, but we are feel as though we must do our part to provide fresh and essential products to you and your family while still flattening the curve. We ask that you approach our management, staff, and doors with understanding and kindness as we to our best to serve our community. Stay home when you can and stay safe, y'all!

Thank You for Understanding
