Dear Ms. Danner:

Thank you for your recent email to Representative Randy Vulakovich regarding your concerns with circumcision of infant boys. He has read your email and would like you to know that he does not have much information on this issue relative to your point of view. However, he will listen to all arguments if or when legislation addressing this issue is introduced and brought forth for his review. He appreciates your comments and will keep them in mind. We look forward to hearing from you in the future.

Sincerely,
Melissa
