

Schlink Haus

200 years of tradition..

Why Drink Schlink?

Schlink Haus Riesling, "THE ORIGINAL BLUE BOTTLE!" The Schlink Family has been keeping the wine making tradition alive for over 200 years. Schlink Haus was the very first blue bottle to come to the United States over 30 years ago and is still today delivering the same exceptional value to our consumers. The Schlink philosophy is that wine is something that is made to be consumed, shared and celebrated with. So our most recent marketing campaign delivers that exact message, that wine does not have to be so complicated and whether you have had a stressful or successful day a glass of Schlink Haus wine is here for you.
