---

Complete Assessment Including all services enumerated above: \$1450

### **Insurance**

I am an **out-of-network** provider with the following insurance companies as my in-network status applies solely to my work with University Psychological Associates. It will be your responsibility to communicate with your insurance company about your benefits prior to the initial evaluation since some require preauthorization. Many insurance companies do not authorize psychoeducational testing as it is not considered "medically necessary." I will provide the necessary receipts complete with applicable CPT codes in order for you to receive at least partial reimbursement for the covered services rendered.

Aetna

United Behavioral Health

Blue Cross/Blue Shield

United Health Care

CIGNA

Wellpath

CBHA

Horizon

Magellan

Medcost

Tricare

When you inquire about benefits, consider asking the following questions:

Are the following services covered: CPT Code: 90797 Initial Evaluation

CPT Code: 96101 Psychological Testing

CPT Code: 90834 Feedback/Counseling

Is any preauthorization required? Are there any forms I need to complete? Does my provider need to complete any forms prior to service/testing?

**Please note that you are responsible for payment at the date of service; I can accept personal check or cash.**
