To Whom it may concern;

The Yountville Art Walk was thrilled to recently host a Craig Berube-Gray sculpture, *Slice of Heaven*. The fun and brightly colored sculpture was on our Art Walk for two years and brought joy and smiles to everyone that saw it.

The installation was simple but sturdy. The sculpture was created for public display so it maintained its bright colors and looked as beautiful the day it went to its new home as it did the day it arrived.

Craig was a pleasure to work with too, when he came to town to install the sculpture he joined us to host a small reception for children from our elementary school and enthralled them with stories and answered questions about how he creates his pieces.

I can highly recommend working with Craig, all aspects of working together were professional yet uncomplicated, and his sculptures are wonderful additions to any city or town.

Sincerely,
Kimberly Cook
