

John Culp Biography

John Culp has been leading worship for nearly 20 years. John plays acoustic guitar and will be joined by Robert Parlee, Tyler Williams and other members of the band. John and the other band members all live in Big Bear. They first played at the 2014 SummerFest Retreat. We're excited to have them back... and this time at So Cal Singles Retreat!

John Culp believes that we need to approach God with the utmost of humility, and truly let His indwelling presence control our lives; only then can we "run the race with endurance!"

John takes worship very seriously and considers it to be much more than just music. He shares from the heart, "When I am involved in a worship presentation, I do not like to be received as a band playing music, but rather as someone setting the table for pure undefiled worship of the true and living God. I think worship leaders should be like ushers at a fancy celebrity event: we make everything presentable, roll out the red carpet, open up the limousine door and step aside, out of sight for the main attraction, Jesus Christ!"

John works in construction during the week. On Sundays, he leads worship at his church. He also hosts a once a month worship, prayer and fasting night in Big Bear.
