The expressed intent of this Ordinance is to remain consistent with the restrictions contained in Minnesota Statutes, Section 394.33, subdivision 1. To the extent the provisions of this Ordinance are less restrictive than the provision of the Stearns County zoning, shoreland, or subdivision regulations, or such other regulations as may apply, the more restrictive provisions shall apply and be controlling. Additionally, any ambiguities in the application of this Ordinance or processing of requests under this Ordinance shall be resolved by referring to how the matter would be decided if it were being processed under the County's zoning ordinance. However, the Town Board shall have the final authority to interpret and resolve any ambiguities regarding this Ordinance.

All plats proposed to be located in the Township must be reviewed by, and receive the approval of, the Town Board in accordance with Minn. Stat. § 505.09, subd. 1a. The developer is required to enter into a developers agreement with the Township to address the issues identified by the Town Board associated with the particular proposed plat including, but not limited to, construction of public improvements, financial security requirements, conditions to be satisfied before the Township will maintain the roads dedicated within the plat, and reimbursement of the Township's costs.

1.7 State Building Code

The Town Board has adopted the State Building Code and has a building official to assist in the administration of the Code within the Township. Refer to Section 4.20 of this Ordinance.

2.2 Severability

If any section, clause, provision or portion of this Ordinance is adjudged unconstitutional or invalid by a court of competent jurisdiction, the remainder of this Ordinance shall not be affected thereby.

2.3 Interpretation

- A. In their interpretation and application, the provisions of this Ordinance shall be held to be minimum requirements and shall be liberally construed in favor of the Township and shall not be deemed a limitation or repeal of any other powers granted by State Statute.

- B. Words and phrases used in this Ordinance shall be interpreted and understood in accordance with common and accepted usage, but any technical words or phrases or such others as have acquired a specific or peculiar meaning shall be interpreted and understood in accordance with such meaning.
- C. It is the intent of the Town Board that the rules and cannons of construction, presumptions and miscellaneous provisions related to statutory construction contained in Minnesota Statutes, Chapter 645 apply to this Ordinance and that all questions of meaning, construction and interpretation of this Ordinance be resolved by application of the rules contained in Chapter 645.

- B. To hear and order the issuance or denial of variance requests.

- C. The Board of Adjustment shall have such other powers and duties as are assigned to it by law or the Town Board.

The Zoning Administrator shall fix a reasonable time for the hearing on the application and give notice to owners of record within 500 feet of the affected property.
- 4.5.4 Findings of Fact.** Separate written findings of fact shall be made by the Board of Adjustment for each variance granted or denied and for each appellate decision made.
- 4.5.6 Review by Planning Commission.** The Board of Adjustment shall take no final action on an appeal or petition brought to it until it has afforded the Planning Commission a reasonable opportunity to review and report to the Board of Adjustment on the matter.

4.6 Fees

- 4.6.1 Permit Fee.** Any person submitting an application, requesting any inspection, or seeking any other permit, permission, approval, or action under this Ordinance shall pay the applicable fee as established by the Town Board. Those seeking a permit or permission after having commenced the use or work for which the permit or permission is being sought will be subject to enforcement action and shall be required to pay a separate fee as established by the Town Board.
- 4.6.2 Administrative Fee.** Any person submitting an application for a site permit, conditional use permit, interim use permit, zoning amendment, variance or an appeal must also submit an administrative fee deposit established by the Town Board and an agreement, on the form provided by the Township, to reimburse the Township for its costs to process the application including, but not limited to, all engineering, planning, legal, administrative and inspection expenses. Notwithstanding any fee deposit schedule established by the Township, the Zoning Administrator is authorized to require a larger deposit in an amount not to exceed fifty percent (50%) of the scheduled amount if the Zoning Administrator determines the scheduled amount will not be sufficient to process the particular request to which the application relates. Payment of the administrative fee deposit and execution of the fee agreement shall be required prior to the application being considered filed, complete, and subject to processing. All deposits shall be a credit against the obligation of the applicant as set forth in the agreement. As the Township processes the application, the Zoning Administrator shall from time to time review the adequacy of the deposit with the Town Clerk and shall require the applicant to submit such supplemental deposit as the Zoning Administrator deems necessary to reimburse the Township for all expenses. If the applicant does not submit the supplemental deposit required by this section within a reasonable period of time after notification by the Zoning Administrator, the Township may suspend processing the application until the deficiency is corrected or deny the application. Upon termination of the application, by approval, denial, withdrawal, or any other means, all expenses incurred by the Township shall be immediately

payable by the applicant. Any deposit in excess of the Township's expenses shall be refunded to the applicant. No permits shall be issued, no construction or development shall commence, and no use of the property shall be made until all expenses and fees are paid in full. In the event that payment of expenses and fees are not made within a reasonable time after demand, the Township may take action to collect the unpaid expenses and fees. The administrative fee imposed under this section shall constitute a service charge for a governmental service provided by the Township and is collectable by certifying the unpaid amount to the county auditor before October 15 to be collected together with property taxes on the subject property or other property owned by the applicant as provided for Minnesota Statutes, section 366.012. Alternatively, the Town Board may file a lien on the subject property or other property of the applicant pursuant to Minnesota Statutes, section 514.67, or take such other action as it deems appropriate to collect the unpaid expenses.

4.7 Site Permit Required

- 4.7.1 Scope.** No person shall erect, alter, move or place any building or structure without first obtaining a site permit from the Township and no excavation for the placement of footings, foundations, slabs, posts, basements, walls or other parts for such a building or structure shall occur until a site permit has been obtained.
- 4.7.2 Application.** Requests for a site permit shall be filed with the Zoning Administrator on an application form approved by the Township. Each application for a permit shall be accompanied by a site and floor plan drawn to scale showing the dimensions of the lot to be built upon, the size and location of all principal and accessory buildings and parking areas and such additional information deemed necessary for the proper review and enforcement of this Ordinance and any other applicable building codes.
- 4.7.3 Issuance of Permit.** The Zoning Administrator shall issue the site permit only when the plans comply with this Ordinance, the provisions of the State Building Code as adopted by the Town, and other applicable laws, regulations and ordinances. The Zoning Administrator may deny a permit for the construction of any building upon grounds which, according to the information furnished, is too low for proper drainage, or otherwise deemed unsuitable for building pursuant to this Ordinance.
- 4.7.4 Normal Maintenance.** No site permit shall be required for normal maintenance activities.
- 4.7.5 Completion of Work.** A site permit shall expire and will be considered null and void in one (1) year of its date of issuance if construction has not begun unless an application for an extension has been submitted and approved by the Zoning Administrator. If construction begins within one (1) year it must be completed within one additional year or it shall expire and will be considered null and void unless an application for an extension has been submitted and approved by the Zoning Administrator. For the purposes of this paragraph, site preparation, land clearing or the installation of utilities shall not constitute construction.

4.8 Variances

The Town Board recognizes there are times when a variation of the provisions of this Ordinance may be necessary if it is determined their strict enforcement would cause undue hardship because of circumstances unique to the individual property under consideration.

4.8.1 Criteria for Granting Variances. The following criteria shall be used when considering a variance application:

- A. The variance shall not allow a use that is prohibited in the zoning district in which the subject property is located.
- B. The variance must be in harmony with the general purpose and intent of this Ordinance.
- C. The terms of the variance must be consistent with the comprehensive plan.
- D. The landowner must show that the variance is necessary to alleviate practical difficulties or particular hardship resulting from strict application of the ordinance.
- E. "Hardship" as used in connection with the granting of a variance means:
 1. The property in question cannot be put to a reasonable use if used under the conditions allowed by this Ordinance;
 2. The plight of the landowner is due to circumstances unique to the property, not created by the landowner or a previous landowner;
 3. The variance, if granted, will not alter the essential character of the locality.

If the variance request meets all of the conditions cited above, the variance may be granted. Economic considerations alone shall not constitute a hardship if a reasonable use for the property exists under the terms of this Ordinance. Access to direct sunlight light in the case of solar energy systems shall constitute grounds for granting a variance.

4.8.2 Procedure.

- A. The person applying for a variance shall complete and submit to the Zoning Administrator a variance application which shall include a statement of the difficulties or particular hardships claimed, along with the filing fee.
- B. The Zoning Administrator shall refer the application along with all related information to the Board of Adjustment.
- C. The Board of Adjustment shall hold a public hearing on the request for variance. Notice of the time, place and purpose of the public hearing shall be according to Minnesota Statutes, section 462.357, subdivision 3.
- D. The applicant(s) or their representative shall appear before the Board of Adjustment at the public hearing in order to present evidence concerning the proposed variance.
- E. The Board of Adjustment may deny the request, approve the request, or approve the request with conditions. The Board of Adjustment shall set out the findings and its decision in writing which shall be made part of

- the record of the proceeding.
- F. The Zoning Administrator or Town Clerk shall give the applicant written notice of the Town Board's action. The written notice shall include the findings of fact.
 - G. If a variance request is denied, a similar variance application shall not be allowed for one (1) year without new evidence related to the variance.
 - H. A variance shall become null and void one (1) year from the date of issuance if no construction has begun unless an extension has been granted. One or more extensions of not more than one (1) additional year may be granted by the Board of Adjustment for good cause. For the purposes of this paragraph, construction shall include the installation of footings, slab foundation, posts, walls or other portions of the building or some other visible improvement to the property.
 - I. An application for variance will not be accepted from anyone who is not an owner of land for which the application is made.
 - J. A certified copy of all variances that are granted by the Town Board shall be filed at the office of the Stearns County Recorder.

4.9 Conditional Use Permits

The Town Board recognizes that certain uses, while generally not suitable in a particular zoning district, may under some circumstances be allowed if conditions are attached. When such circumstances exist, a conditional use permit may be granted and appropriate conditions attached.

4.9.1 Conditional Use Permits Required. A conditional use permit shall be required for:

- A. A proposed use which is designated by this Ordinance as a conditional use within the particular district in which it is to be located; and
- B. The proposed enlargement, structural alteration, modification or addition, or intensification of any use that existed as of the effective date of this Ordinance, has been allowed to continue to exist, and is now designated as a conditional use within the district in which it is located.

4.9.2 Criteria for Granting Conditional Use Permits. In considering a conditional use permit application, the Planning Commission and Town Board shall consider the effect of the proposed use upon the health, safety, morals, and general welfare of occupants of surrounding lands and water bodies. Among other things, the Planning Commission and Town Board shall consider the following where applicable:

- A. The use will not create an excessive burden on existing parks, schools, streets and other public facilities and utilities which serve or are proposed to serve the area.
- B. The use will be sufficiently compatible or separated by distance or screening from adjacent agriculturally or residentially zoned or used land so that existing property will not be depreciated in value and there will be no deterrence to development of vacant land.
- C. The structure and site shall have an appearance that will not have an adverse effect upon adjacent properties.
- D. The use is reasonably related to the existing land use.

- E. The use is consistent with the purpose of the Zoning Ordinance and the purposes of the zoning district in which the applicant intends to locate the proposed use.
- F. The use is not in conflict with the Land Use Plan of the Township and County.
- G. The use will not cause traffic hazards or congestion.

4.9.3 Conditions of Approval. In permitting a new conditional use or the amendment of an existing conditional use, the Town may impose, in addition to these standards and requirements specified by this Ordinance, additional conditions which the Town considers necessary to protect the best interest of the surrounding area or the community as a whole. These conditions may include, but are not limited to, the following:

- A. Increasing the required lot size or yard dimension;
- B. Limiting the height, size or location of buildings;
- C. Controlling the location and number of vehicle access points;
- D. Increasing the street width;
- E. Increasing the number of required off-street parking spaces;
- F. Limiting the number, size, location or lighting of signs;
- G. Requiring diking, fencing, screening landscaping or other facilities to protect adjacent or nearby property;
- H. Designation of open space; and
- I. Annual review if deemed appropriate by the Town Board.

Any change involving structural alterations, enlargement, intensification of use, or similar change not specifically permitted by the conditional use permit issued, shall require an amended conditional use permit and all procedures shall apply as if a new conditional use permit was being considered. The Zoning Administrator shall maintain a record of all conditional use permits issued including information on the use, location, and conditions imposed by the Planning Commission and Town Board, time limits, review dates, and such other information as may be appropriate.

4.9.4 Procedure.

- A. An application for a conditional use permit will not be accepted from anyone who is not an owner of land for which the application is made.
- B. The person applying for a conditional use permit shall fill out and submit to the Zoning Administrator a conditional use permit application form and filing fee.
- C. The Zoning Administrator shall refer the application to the Planning Commission for review.
- D. The Planning Commission shall hold a public hearing on the application. Notice of the public hearing shall be as provided by Minnesota Statute, section 462.357, subdivision 3. The Planning Commission shall forward its recommendation to either deny or approve the Conditional Use Permit to the Town Board. The Town Board will take final action on the request.
- E. The applicant(s) or their representative shall appear before the Planning Commission in order to present evidence concerning the proposed conditional use.
- F. If the Planning Commission recommends granting the conditional use

permit, it may recommend conditions it considers necessary to protect the public health, safety and welfare.

- G. A conditional use permit application to amend an existing conditional use permit shall be administered in the same manner to that required for a new conditional use permit.
- H. No application for a similar conditional use permit shall be resubmitted for a period of one (1) year from the date of any order of denial.
- I. All conditional use permits that are granted by the Town Board shall be recorded at the office of the Stearns County Recorder.

4.9.5 Expiration.

A conditional use permit shall expire and be considered null and void one (1) year from the date of issuance if no construction has begun or if the use has not be established. For the purposes of this paragraph, construction shall include the installation of footings, slab foundation, posts, walls or other portions of the building. Site preparation, land clearing or the installation of utilities shall not constitute construction. The Town Board may grant one or more extensions for not more than one (1) year upon a showing of good cause.

4.9.6 Revocation.

A violation of any condition set forth in a conditional use permit shall be a violation of both the permit and this Ordinance. Failure to correct a violation within thirty(30) days of written notice from the Zoning Administrator shall be grounds to revoke a conditional use permit through the following procedure:

- A. The Zoning Administrator shall give written notice to the permit holder, advising that the conditional use permit may be revoked upon the conclusion of a public hearing. The written notice shall also contain the nature of the violation and the facts that support the conclusions that a violation exists.
- B. The Town Board shall hold a public hearing in the same manner to that required for a new conditional use permit.
- C. Within 30 days of the closing of the public hearing the Town Board shall revoke the conditional use permit, make a finding that a violation does not exist, or modify the conditions of the conditional use permit so that a violation no longer exists.
- D. The Zoning Administrator shall give written notice of the Town Board's decision to the permit holder.

4.10 Interim Use Permits

The purpose of an interim use permit is to conditionally allow a use for a limited period that is neither a permitted or conditional use. An interim use permit shall be required for a proposed use which is designated by this Ordinance as an interim use within the particular district in which it is to be located and as may otherwise be required by this Ordinance.

4.10.1 Criteria For Considering Interim Use Permits.

In granting an interim use permit, the Planning Commission and Town Board shall consider the effect of the proposed use upon the health, safety, morals, and general welfare of occupants of surrounding lands and water bodies. The Planning Commission and Town Board shall consider, in addition to the criteria related to conditional use permits, the following:

- A. The proposed use meets the applicable standards set forth for conditional use permits;
- B. The proposed use will terminate upon a date or event that can be identified with certainty;
- C. The proposed use will not impose additional costs on the public if it is necessary for the public to take the property in the future;
- D. The proposed use will be subjected to, by agreement with the owner, any conditions that the Town Board deems appropriate for permission of the proposed use, including a condition that the owner will provide an appropriate financial surety to cover the cost of removing the interim use and any interim structures upon the expiration of the interim use permit; and
- E. The interim use will be a subject to review by the Township upon change of ownership.

4.10.2 Termination. An interim use permit shall terminate upon the occurrence of any of the following events, whichever comes first:

- A. The termination date or event stated in the permit;
- B. The interim use permit is revoked using the same procedure set out in the Ordinance for revoking a conditional use permit; or
- C. The use has been discontinued for at least one (1) year.

4.10.3 Conditions of Approval. In permitting a new interim use or the amendment of an existing use, the Planning Commission or Town Board may impose, in addition to these standards and requirements expressly specified by this Ordinance, additional conditions which the Planning Commission or Town Board consider necessary to protect the best interest of the surrounding area or the community as a whole. These conditions may include, but are not limited to, the following:

- A. Increasing the required lot size or yard dimension;
- B. Limiting the height, size or location of buildings;
- C. Controlling the location and number of vehicle access points;
- D. Increasing the street width;
- E. Increasing the number of required off-street parking spaces;
- F. Limiting the number, size, location or lighting of signs;
- G. Requiring diking, fencing, screening, landscaping or other facilities to protect adjacent or nearby property;
- H. Designation of open space, and
- I. Annual review if deemed appropriate by the Town Board.

Any change involving structural alterations, enlargement, intensification of use, or similar change not specifically permitted by the interim use permit issued, shall require an amended interim use permit and all procedures shall apply as if a new interim use permit was being issued. The Zoning Administrator shall maintain a record of all interim use permits issued including information on the use, location, and conditions imposed by the Planning Commission or Town Board, time limits, review dates, and such other information as may be appropriate.

4.10.4 Procedure.

The application procedure for an interim use permit shall be the same as the application procedure established in this Ordinance for a conditional use permit.

4.11 Provisional Use Permits

The purpose of a provisional use permit is to provide a means for the Township and County to develop a record of certain uses through registration.

4.11.1 Procedure

Requests for a provisional use permit shall be filed with the Zoning Administrator on an application form approved by the Township. Upon verification by the Zoning Administrator that the application is complete and the use to which it relates is classified as requiring a provisional use permit under this Ordinance, the permit shall be deemed issued. The Zoning Administrator shall register the use with the Township and provide the County a copy of the application so the use may be registered in its system.

4.12 Amendments

4.12.1 Comprehensive Plan and Zoning Map Amendments

An amendment to the Township Comprehensive Plan or Zoning Map may be initiated by the Planning Commission, by resolution of the Town Board, or by application of an affected property owner.

- A. An amendment proposed by the Planning Commission shall be forwarded to the Town Board with a recommendation for adoption. If the Town Board determines to pursue the amendment, it shall forward it with any changes it determines is appropriate to the Stearns County Planning Commission with its recommendation for further consideration as provided for in paragraph D of this Section.
- B. An amendment proposed by the Town Board shall be by resolution submitted to the Planning Commission. The Planning Commission shall review the proposed amendment and provide the Town Board with its recommendation within 60 days of the date of the resolution. The Town Board may then forward the recommendation to the Stearns County Planning Commission with its recommendation for further consideration as provided for in paragraph D of this Section.
- C. An application by an affected property owner requesting an amendment shall be submitted to the Zoning Administrator together with the applicable administrative fee. The Zoning Administrator shall forward complete applications to the Planning Commission. The Planning Commission shall review the application and forward it to the Town Board with its recommendation. If the Town Board does not deny the application, it shall forward it to the Stearns County Planning Commission with its recommendation for further consideration as provided for in paragraph D of this Section.
- D. The Town Board delegates to the Stearns County Planning Commission the authority to conduct a hearing on the proposed amendment recommended to it by the Town Board as provided in this Section. Notice of the hearing shall be published at least once in the Township's official newspaper. That Section 6.30 is amended by adding the following:

- D. **Running at Large Prohibited.**
No dog or cat shall be permitted to run at large, off the owner's or custodian's premises, within the limits of the Township. This restriction does not prohibit the appearance of any dog or cat upon roads or public property when the dog or cat is on a leash and is kept under control of the person charged with its care.
- E. **Dog or Cat Nuisances.**
The owner or custodian of any dog or cat shall prevent the dog or cat from committing in the Township any act which constitutes a nuisance. It is a nuisance for any dog or cat to habitually or frequently bark or cry at night, to frequent school grounds, parks, or public beaches, to chase vehicles, to molest or annoy any person away from the property of its owner or custodian, or to damage, defile, or destroy public or private property. Habitual or frequent barking or crying shall be defined as barking or crying for repeated intervals of at least five minutes with less than one minute interruption. Failure of the owner or custodian of a dog or cat to prevent the dog or cat from committing such a nuisance is a violation of this Ordinance and the Town pound master may impound the animal as provided in this Ordinance.

F. **Confinement of Certain Dogs and Cats.**

Every female dog or cat in heat shall be confined in a building or other secure enclosure in such a manner that it cannot come into contact with another dog or cat except for planned breeding. Upon capture and failure to reclaim the animal, the Township may cause the dog or cat to be spayed prior to being transferred to a new owner.

G. **Impoundment.**

1. Pound. The Town Board shall designate an animal pound for dogs and cats captured by the Town pound master pursuant to this ordinance. Dogs and cats impounded by the pound master shall be transported and sheltered in accordance with Minn. Stat. § 346.39 to the extent practicable under the circumstances.
2. Impounding Animals. The Town pound master may impound any dog or cat which is found running at large within the Township, which constitutes a nuisance under this Ordinance, or which must be confined as provided in Section 6.30 F. of this Ordinance for having bitten a person. The Town pound master shall give notice of the impoundment to the owner of such dog or cat, if known. In case the owner is unknown, the Town pound master shall post notice at the Town Hall with a picture or description of the animal and indicating that if the dog or cat is not claimed within the applicable reclaiming period it will be sold or otherwise disposed of.
3. Biting animals. Any dog or cat which bites a person and either punctures the skin or requires the services of a doctor shall be confined for a period of at least ten days. During confinement the animal must be securely confined and kept from contact with any other animals. The confinement must be at the Township's pound unless the pound master permits the confinement to be on the premises of the owner or custodian. All confinement and related costs shall be the responsibility of the owner or custodian.
4. Reclaiming. All dogs and cats conveyed to the Township pound shall be kept, with humane treatment and sufficient food and water for their comfort, at least five regular business days. If the animal is designated a dangerous dog or cat, it shall be kept for seven regular business days. If the animal has been considered maltreated, it shall be kept for ten regular business days. The owner may reclaim the animal during this reclaiming period by complying with the following requirements:

 - (b) Pay all maintenance and impoundment costs.
5. Unclaimed animals. At the expiration of the reclaiming period, if a dog or cat has not been reclaimed in accordance with the provisions of this ordinance, the Township may let any person claim the animal, or the Township may sell the animal, or cause the animal to be destroyed in a proper and humane manner and shall properly dispose of the remains. Any money collected for the sale of unclaimed animals shall be payable to the Township.

H. **Forfeiture of Ownership.**

The ownership rights of a person owning a dog or cat which has been impounded more than twice in a 12-month period for being a public nuisance, or that has been identified as a dangerous or maltreated animal, may be forfeited to the Township

pursuant to the procedures provided in this section.

1. Notice. The Township shall notify the owner or apparent owner of the dog or cat sought to be forfeited and the Township intends to forfeit the owner's ownership rights. The notice must be in writing and state the reasons for the forfeiture, including a summary of applicable incidents. The notice constitutes an admission of the facts alleged in the notice, and the animal must be forfeited to the Township.
2. Hearing. The owner may request a public hearing before the Town Board within ten days of receiving the notice. The hearing must be held within three weeks after the demand. No formal rules of evidence will apply, but the owner must have the right to present evidence in response to the allegations. The Town Board must determine whether the allegations are true and whether the animal must be forfeited to the Township. At the conclusion of the hearing, the Town Board shall issue an order as to the ownership and disposition of the animal.

I. **Dangerous Dogs and Cats.**

It is unlawful for any person's dog or cat to inflict or attempt to inflict bodily injury to any person or other animal whether or not the owner is present. This section shall not apply to an attack by a dog under the control of an on-duty law enforcement officer or to an attack upon an uninvited intruder who has entered the owner's home with criminal intent.

1. Dangerous Animal. The Township may designate a dog or cat as dangerous if the animal has done any of the following: without provocation, inflicted substantial bodily harm on a human being on public or private property; kill a domestic animal without provocation while off the owner's property; or been found to be potentially dangerous, and after the owner has notice that the animal is potentially dangerous, the animal aggressively bites, attacks, or endangers the safety of humans or domestic animals.

3. Procedure. Before making a designation, the Town Board shall provide written notice to the owner, or apparent owner, of its intent to consider making the designation and indicating the owner has a right to request a hearing before the Town Board decides the designation. The Township may order the destruction of any dog or cat designated as dangerous or potentially dangerous. If the Town Board determines not to order the destruction of a dangerous or potentially dangerous dog, the owner must register the dog in accordance with Minn. Stats. §§ 347.50 to 347.56.
