

Colorized Surprises at Summer Sunday School

Summer Sunday School at the United Methodist Church of Plano presents some unique surprises in the “HERO Central” curriculum. The latest one is “Colorized Surprises” which related to the story by combining the same 4 ingredients in different measurements and having a different result in each. It related to the Bible lesson by showing us that we may be able to figure something out but then GOD will change it with different results. Also a person can have the same 4 qualities but they use them in different ways.

The “Colorized Surprises” started off innocently enough by mixing food coloring into different combinations of ingredients of baking soda, dish soap, and vinegar. Four combinations were used and the results were all very different – one took on a pink frosting texture, green mixture overflowed, yellow mixture turned into a liquid, and the blue mixture overflowed like a volcano.

Amazing! Summer Sunday School will continue until August 13 from 10:30 to 11:30 am.

Pictured is teacher Gerri Henze with children – Gavin, Derek, Logan, Lynze, Caleb, Lanna, and Kayle making their color combinations.
