MANUFACTURER OF

2017 NATIONAL PRODUCT CATALOG

SERVING THE FOLLOWING INDUSTRIES: AGRICULTURE, COMMERCIAL, HARDWARE, LAWN & GARDEN, RENTAL

ADVANTAGES OF WORKING WITH GNE

GNE

Established over 30 years ago, GNE is a diverse company that manufactures and distributes top quality equipment. We realize you need to find economical solutions and be innovative to find profitable avenues for all. Our national distribution area covers all 50 states. We provide quality products and trusted brands to the hardware, lawn and garden, rental, agriculture and power equipment industries.

BECOME A DEALER

- Represent additional product lines
- Increase your market share/profits

**Qualifying initial stocking order must be placed according to dealer program*

FREIGHT PROGRAMS

- We'll assist in customizing your order to fit the most units on a pallet to conserve freight
- Flat fee shipping rates now available
- Same day shipping on in-stock parts when you place your order by 2 p.m.

GREAT NORTHERN
EQUIPMENT

GNE is formed, originally selling Honda engines and then expanding to include commercial quality power equipment.

1978

GNE is established as a business corporation and continues serving the Midwest states of MN, ND, SD, IA and WI.

1987

GROWTH AT GNE

EXPANDED OFFERINGS

In February, GNE purchases the assets of Dosko, a tree care equipment line. Production is moved from California to Minnesota. **In March**, GNE also acquired K&M Manufacturing, an agricultural aftermarket parts supplier.

2010

In February, GNE purchases CEI and Perma-Wrap™. These lines bring the first e-commerce websites to GNE.

2012

In June, GNE purchases the assets of Brave and Iron & Oak log splitter equipment lines. Production is moved from Illinois to Minnesota. The Brave product offering grows.

2013

In June, GNE purchases JRCO, a line of heavy-duty attachments for commercial mowers. Production is moved to GNE's nearby Rogers, Minn. facility.

2015

In February, GNE purchases the assets of Maxim Manufacturing Corporation, a line of lawn and garden equipment. Production is gradually moved from Mississippi to Minnesota.

2016

NEW DESIGN PROVIDES COMMERCIAL FEATURES AT AN AFFORDABLE PRICE

These log splitters are packed with features including a redesigned high performance wedge, 4-stage hydraulic filtration system, log cradle, log dislodger and Honda engine. Built to withstand heavy use and keep on running for years to come.

Nylon Hose Sleeve

A nylon hydraulic hose sleeve comes standard and provides protection from abrasive wear, sunlight and accidental spray from pinhole leaks

Lift Handle

Convenient lift handle provides added control for easier and safer transitions between the horizontal and vertical operating positions

Log Dislodger

Heavy-duty log dislodger ejects logs that stick to the splitting wedge protecting the control valve and other hydraulic components from damage

Log Cradle

Cradle catches split logs and serves as a work table for large logs

4-Stage Hydraulic Filtration System

Filtration system prevents damage to the hydraulic system by removing metal particles and other micro particles that can contaminate and damage the machine (components includes suction strainer, return line filter, breather cap air filter and magnetic drain plug)

I-Beam

Full, industrial I-beam construction for incredible strength

TACKLE THE TOUGHEST OF WOODS WITH EASE

The industrial I-beam provides added strength to prevent twisting. Change between the horizontal and vertical operating positions in seconds. For heavy logs, utilize the vertical operating position and split without lifting a log. A two-stage pump delivers the same amount of pressure as a single-stage pump, but with less horsepower and a Honda engine means it starts quickly time and time again for lasting reliability.

BRAVEPRO

Log Splitter Features:

- Unique high performance wedge design makes splitting easier and more efficient
- Easily change from horizontal to vertical operating positions in seconds
- Industrial cylinder with Halite seals keeps constant and consistent pressure while splitting
- O-ring fittings on control valve make assembly easier and reduce leaks
- Two-stage pump to handle even the toughest jobs
- Manual tube keeps owner's manual handy
- Sherwin-Williams powder coat paint to withstand heavy use and weather elements
- Tow-ready with 2" ball hitch and chains
- Highway-rated tires
- Optional fenders and engine guard

DUAL ACTION LOG SPLITTER 20 TON SPLITTING FORCE

- Horizontal operation
- Splits on both the forward and reverse stroke to split twice as fast as traditional splitters
- Horizontal operation
- Full size log table prevents logs from rolling off once split
- 8" carbon steel wedge has two tapered edges to allow easier splitting in both directions
- Clevis cylinder (4" X 24") with 1.75" rod
- 11 GPM, horizontal, two-stage pump
- 3.0 gallon hydraulic tank
- Adjustable jack stand with 2" ball hitch and safety chains
- Powder coat finish for added durability
- 2-year (consumer) / 1-year (commercial) limited warranty

DUAL ACTION, 3-POINT TRACTOR MOUNT SPLITTER UP TO 20 TON SPLITTING FORCE

- Horizontal operation
- Splits on both the forward and reverse stroke to split twice as fast as traditional splitters
- Full size log table prevents logs from rolling off once split
- 6" (TMH1315) or 8" (TMH2015) carbon steel wedge has two tapered edges to allow easier splitting in both directions
- Clevis cylinder with 1.75" rod
- Attaches to Category 1 tractor, 3-point hitch
- 1.5 gallon (TMH1315) or 2.0 gallon (TMH2015) hydraulic capacity (cylinders & hoses)
- Uses tractor's hydraulics to operate the cylinder (**hydraulic hoses connecting log splitter valve to tractor not included**)
- Powder coat finish for added durability
- 43" x 34" x 20" (TMH1315)
46" x 34" x 22" (TMH2015)
- 2-year (consumer) / 1-year (commercial) limited warranty

WATER PUMPS SEMI-TRASH AND TRASH

- Aluminum housing
- Durable cast iron impeller and diffuser for long life
- Trash pump can handle solid particles in suspension up to 1-1/8" diameter
- All models come with a basket strainer and hose adapters
- EPDM mechanical seal and inlet valve for longevity and reliability in dewatering applications
- Available in 2" and 3" models to fit common hose sizes (NPT inlet/outlet)
- **Suitable for flood water removal, lawn and garden watering and pond filling**

BRAVE

GET READY TO TACKLE DIRT AND GRIME WITH EASE – PRESSURE WASHERS BUILT FOR THE HOMEOWNER

*With Brave's large line-up of cold water pressure washers, you'll find a model to fit your needs.
All units are electric or Honda-powered for performance and reliability.
Hot water/steam models also available – see page 14.*

BRAVE

Pressure Washer Features:

- Gas or electric powered
- Color-coded, quick-connect nozzles make nozzle changes easy
- Powder coated steel carts
- Clean houses/buildings, driveways, sidewalks, vehicles, decks, boats, tractors, equipment and more

BRAVEPRO

Pressure Washer Upgrades:

- Honda GX commercial engines
- Additional nozzle sizes

HOT WATER PRESSURE WASHERS ELECTRIC OR GAS

- Clean houses/buildings, driveways, sidewalks, vehicles, decks, boats, tractors, equipment and more
- Steam capabilities allow for the removal of tough grease and grime
- Burner with thermostat control for temperatures up to 250° and reliable performance
- Maximum inlet water temperature of 140°F / maximum outlet water temperature of 250° F
- Chemical injection system allows for the use of cleaners and other chemicals designed for pressure washers through siphoning tube
- Color-coded, quick-connect nozzles make nozzle changes easy (comes standard with 0°, 15°, 25°, 40°, soap and steam)
- Industrial rear-entry spray gun has 3' lance for better control and reach
- 3/8" x 50' non-marking hose
- Adjustable pressure
- Large, pneumatic tires make for smoother transport
- Standard with parking brakes (**BRP4030HCA only**)
- Powder coated, 10-gauge steel frame
- 2-year (consumer) / 1-year (commercial) limited warranty

AIR COMPRESSORS

AIR HUB

LIGHT-DUTY AIR COMPRESSOR

- Durable cast iron cylinder
- No belts or pulleys to replace
- Heavy-duty induction motor; powerful, long lasting and low maintenance
- Equipped with single hand operation, brass (no spark/rust) quick connect
- Includes quick set regulator, tool and tank pressure gauges

CP1580325

LIGHT-DUTY AIR COMPRESSOR

- Fully enclosed panel protects pump and motor handle
- Integrated control panel with quick set regulator, tool and tank pressure gauge, 2 brass push-to-connect couplers (no spark/rust)
- Heavy-duty induction motor; powerful, long lasting and low maintenance
- 1/2" unregulated port; high pressure port, supports remote air technology

WHEELBARROW AIR COMPRESSORS HEAVY DUTY

- Twin "wheelbarrow" tank design: two, 4.5 gallon tanks
- Super hi-flo 3- cylinder, single stage, cast iron pump
- H4X remote air hub included with easy on/off docking station
- Equipped with 1/2" unregulated high pressure port compatible with H4X Remote Air Hub system
- Air throttle cylinder
- Automotive style air cleaner
- Oil level sight glass
- Easily accessible oil fill and drain
- Transfers vibration to the ground
- Integrated control panel for added control and convenience includes: two quick connect air outlets, pressure regulator with large oversize knob, liquid filled tank and tool pressure gauges and pressure relief valve
- Shipped with synthetic oil for optimum performance and long life
- Two center mounted, turf tread, semi-pneumatic tires for greatest mobility
- Meets EPA and CARB emission requirements

CHOPPER AIR COMPRESSOR HEAVY DUTY

- Single "chopper" tank design: one 10 gallon tank
- Aluminum pump body with cast iron cylinders
- Pump and motor positioned so weight rests on tire and not handles
- H4X remote air hub included with easy on/off docking station
- Runs cooler, dissipates heat faster, lasts longer
- Extra large center tire for unparalleled maneuverability
- Oil filled tank pressure gauge for accuracy
- Air throttle cylinder
- Compact to fit through standard 30" door frame and low profile to fit under tonneau truck cover
- Includes one 1/2" unregulated quick connect, two 1/4" high flow regulated quick connects and H4X Remote Air Hub

H4X REMOTE HUB INCREASE PRODUCTION

- Installing the regulator at the end of your air hose allows the air flow to move unrestricted to your work point
- Tap directly into the tank with a 1/2" air hose and get the higher unregulated air pressure into your hands faster
- Allows you to run more nailers simultaneously
- **Provides 4 times faster recovery time of pneumatic nailers**

Additional Power
1/2" port available for connecting another H4X unit - doubling capacity and efficiency

Increased Port Capacity
Two expansion ports included for additional regulators and added tool capacity

Easy Remote Mounting
Dual hole mounting design for convenient and secure mounting to any surface

Remote Regulation
Includes two contractor grade high flow regulators with pressure gauges and 1/4" quick connects, allow for independent regulation of pneumatic nailers

Easy Connection
Easily connected to 1/2" air hose to bring unrestricted air to the H4X™

- Designed for high volume firewood processing
- 12" H x 20" W wedge
- 4-way wedge saves time and adjusts up or down hydraulically so you can adjust to different types of logs for an even split
- Ergonomic design for maximum efficiency while operating
- Factory tested major components and hydraulic tank
- Powder coat finish for optimum weather protection
- Comes standard with hydraulic fluid
- Highway rated 4.80 x 12 tires
- **Optional log catcher kit (see accessories below)**

TINE RAKE DETHATCHER THE ULTIMATE SPRING CLEAN-UP TOOL

- Use the tine rake dethatcher throughout the growing season as a tool to control thatch accumulation and reduce the chance of turf disease
- Seasonal uses:
 - Spring** – Use for first mowing to remove thatch, embedded leaves and debris
 - Summer** – Use to surface aerate the soil promoting root development and thicker turfgrass
- Use to rake in seed and accelerate germination
- Available with (473 Series) or without (471 Series) JRCO mount bar package

**FLEXIBLE TINES ALLOW ZERO-TURN CAPABILITY
WITHOUT DAMAGING TURFGRASS**

*Please provide mower brand, model & deck size when ordering.

**Front-mount attachments use the same JRCO mount bar.

BROADCAST SPREADER ELECTRIC

- Ideal for spreading all types of granular and pelletized fertilizer, seed and ice-melting pellets
- Polyethylene hopper
- Electronic speed control accurately maintains spread pattern widths from 5-24 feet
- Made of corrosion-resistant materials, stainless steel and engineered plastics
- Heavy-duty, sealed, direct drive, 12-Volt electric motor
- Sealed, quick-disconnect electrical cables are included for hook-up
- Models 503/504 attach to JRCO mount bar with four clevis pins; JRCO mount bar package sold separately (see page 33)
- Optional side deflector available (Item # 7053)
- Optional stainless steel screen available (Item # 8436)
- Optional receiver hitch mounts (1-1/4" and 2") adaptor available for 504U

**ALSO FITS CLASSEN & RYAN'S
STAND-ON AERATORS**

HOOKER™ AERATOR FRONT MOUNT

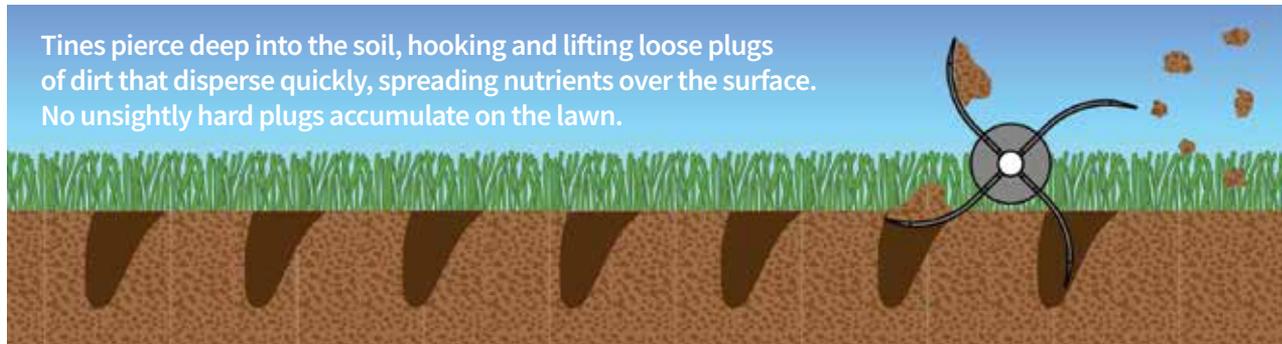

- Six tine rotors
- Punctures up to six holes per sq ft
- Holes approximately 1/2" wide x 1-1/4" long and up to 3" deep
- Casters swivel allowing turning while aerating
- Six floating rotor heads independently lift over tree roots and rocks while the other heads continue to aerate
- Quickly attaches to JRCO mount bar with two clevis pins
- Electric actuator lifts the heads for transport
- **JRCO mount bar package sold separately (see page 33)**

ITEM #	DESCRIPTION	RETAIL
15W	Deckless Aerator Mount for Walker Mower	\$367

HOOKER™ AERATOR TOW-BEHIND

- Six floating rotor heads independently lift over tree roots and rocks while the other heads continue to aerate
- Punctures up to six holes per sq ft
- Holes approximately 1/2" wide x 1-1/4" long and up to 3" deep
- Comes complete with a two-point hitch, rigid frame and swiveling caster wheels that allow the aerator to track directly behind the tow vehicle
- Quickly attaches to JRCO hitch with two clevis pins
- Electric actuator lifts the heads for transport
- Model 753 has 6 tine rotors and is ideal for compact zero turn mowers
- Model 755 has 10 tine rotors and is ideal for utility vehicles, compact tractors and mowers

SERIES	DESCRIPTION	AERATION WIDTH	WEIGHT	RETAIL
753	38" Width, Tow-Behind (includes Hitch)	66,000 sq ft/hour (at 5 mph)	210 lbs	\$2,325
755	60" Width, Tow-Behind (includes Hitch)	105,000 sq ft/hour (at 5 mph)	270 lbs	\$3,835

LEAF BLADE PLOW

QUICKLY MOVES PILES OF LEAVES

- 55" wide plow for moving large piles of leaves
- Uses the mower's power to quickly move piles of leaves
- One-piece galvanized steel blade has supports at the top, center and bottom for durability
- Leaf blade rides on two adjustable caster wheels
- Flat 4-1/2" long stainless spring steel tines allow the plow to push leaves on uneven surfaces without damaging turfgrass
- Leaf blade may be folded up over the deck of many mowers to reduce space on the trailer
- **Quickly attaches to JRCO mount bar with two clevis pins; JRCO mount bar package sold separately (see page 33)**

**SAVE TIME & LABOR
ON FALL CLEAN-UP**

Galvanized Steel Blade

The 55" steel blade incorporates hemmed edge stiffeners and a folded top support

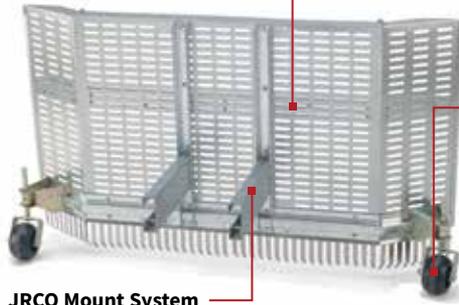

Stainless Steel Tines

Steel tines allow the plow to push leaves on uneven surfaces

Supports

Top and center supports strengthen the Leaf Blade Plow

JRCO Mount System

The Leaf Blade Plow attaches to the JRCO mount system with just two clevis pins and can be folded up over the deck of many mowers to reduce space on a trailer

Caster Wheels

Swiveling caster guide wheels support the Leaf Blade Plow

SERIES	DESCRIPTION	WEIGHT	RETAIL
480	Leaf Blade Plow	70 lbs	\$464

BLOWER BUGGY CARRIER

FOR WALK-BEHIND BLOWERS

- Designed to hold walk-behind blowers on the front of zero-turn and riding mowers
- Moves yard debris with speed and ease while riding on the buggy's heavy-duty tubular steel frame
- Buggy adjusts to fit most walk-behind blowers
- Blower secures to buggy with three straps
- One person can quickly load or unload
- Two front caster wheels provide easy maneuverability and are low profile for optimum operation
- **Quickly attaches to JRCO mount bar with two clevis pins; JRCO mount bar package sold separately (see page 33)**

**BLOW DEBRIS WITH
SPEED & EASE**

SERIES	DESCRIPTION	WEIGHT	RETAIL
601	Blower Buggy Carrier	75 lbs	\$520

TRANSPORTER

USE YOUR MOWER AS A POWERED WHEELBARROW

- Uses the mower's power to transport landscape materials, grass or leaf clippings, lawn debris or landscape equipment
- Tray can be positioned for maximum visibility and easy dumping
- Great for storing a grasscatcher when trailering the mower
- 20" W x 30" L x 3" H tray
- **JRCO mount bar package (see below) and tub (see right) sold separately**

**EASY TO USE & VERSATILE TO USE
STORE GRASS CLIPPINGS OR
USE AS WHEELBARROW**

ZERO-TURN SPRAYER

30 GALLON CAPACITY

- 30 gallon poly tank
- Uses a high capacity UDOR® diaphragm pump driven by a Briggs & Stratton® 127cc commercial 550 Series engine to provide power for all day spraying
- Ultra low drift Turbo Teejet® spray tips minimize spray drift
- Check valve nozzle bodies prevent drips when not spraying
- Hydraulic agitator keeps chemicals mixed and fresh in the tank
- Spray gun with 10' hose allows for spot or shrub spraying
- Compact, rigid frame with pneumatic swivel wheels and rigid two-point hitch prevents jackknifing when backing up
- Three section break-away boom folds to 5, 8 and 11 foot widths with individual control valves
- Rear hitch bracket included
- Quickly disconnect - only 4 clevis pins remove the sprayer and controls

How Does it Work?

Place a piece of firewood inside the iron safety ring and strike with a blunt instrument such as a hammer, mallet or even another piece of wood. This drive the wood down onto the splitting wedge for a quick, easy split.

PERFECT KINDLING FOR

**Fireplaces, campfires, pizza ovens, wood stoves,
saunas, barbecues, smokers and more!**

OIL CHANGING AID ELIMINATES MESSY OIL CHANGES

- Allows you to change the oil in your small, gas-powered engine without tipping, dismounting or modifying your engine in any way
- Fits engines with 1/4", 3/8", 10 mm, 12 mm, 14 mm, 16 mm or 20 mm oil ports
- High-quality brass fittings convert metric to SAE wrench sizes
- Custom-made SAE/metric fittings seal kit to engine with o-ring
- 300 PSI pressure tolerance
- Rubber retainer loop holds hose in place when not in use
- Sold in retail packaging (excludes Item # HON1414)
- **Perfect for small engines, generators, pressure washers, air compressors and more**

CHIPPER KNIVES
STUMP GRINDER BOLTS
STUMP GRINDER POCKETS
STUMP GRINDER TEETH

CEI 500 SERIES STUMP GRINDER TEETH & POCKETS

- Feature a tungsten carbide tip
- Available in left, right or straight
- 1/2" x 1/2" shank allows them to fit in standard 1/2" x 1/2" pockets
- Pocket does not need to be removed to change teeth – simply loosen the bolts, remove existing teeth, replace with new teeth and retorque the bolts to 220-225 ft lbs
- **Use CEI bolts (see page 58)**

ITEM #	DESCRIPTION	RETAIL
5003.CEI	Tooth: Left	\$4.50
5001.CEI	Tooth: Straight	\$4.50
5002.CEI	Tooth: Right	\$4.50
5004.CEI	Pocket: Countersunk	\$8.27
5005.CEI	Pocket: Fine Threaded	\$8.27

CEI 800 SERIES STUMP GRINDER TEETH & POCKETS

- Feature a patented (PAT. 4759394) cutting angle similar to a saw blade that produces a slicing action compared to the impacting/tearing action of competitors' teeth
- Tungsten carbide tip is silver soldered in place and protected by the stone collar
- Pocket does not need to be removed to change teeth – simply loosen the bolts, remove existing teeth, replace with new teeth and retorque the bolts to 220-225 ft lbs
- **Use CEI bolts (see page 58)**

CEI DUAL 800 SERIES STUMP GRINDER TEETH & POCKETS

- Feature a patented (PAT. 4759394) cutting angle similar to a saw blade that produces a slicing action compared to the impacting/tearing action of competitors' teeth
- Tungsten carbide tip is silver soldered in place and protected by the stone collar
- Two teeth in one, simply rotate the tooth 180° for a fresh cutting edge
- Torque the bolts to 220-225 ft lbs
- **Use CEI bolts (see page 58)**

ITEM #	DESCRIPTION	RETAIL
8206.CEI	Tooth: Left	\$12.95
8207.CEI	Tooth: Straight Left	\$12.95

8009.CEI	Pocket: Fine Threaded	\$8.27

GLADIATOR SERIES STUMP GRINDER TEETH & POCKETS

- Cutting angle increases cutting speed, eliminates pocket/bolt wear and produces the smoothest cut ever
- Aggressive nature of the Gladiator teeth mean it is not necessary to run as many cutter teeth – often only half the number of normal teeth are needed
- Dual shoulder helps lock the Gladiator tooth securely in the pocket
- Ideal for customers wanting to purchase less frequently
- Torque the bolts to 220-225 ft lbs
- **Use CEI bolts (see page 58)**

ITEM #	DESCRIPTION	RETAIL
90061.CEI	Tooth: Straight Left	\$15.24
9006A.CEI	Tooth: Bent	\$15.24
8008.CEI	Pocket: Countersunk	\$8.27
8009.CEI	Pocket: Fine Threaded	\$8.27

S-PRO SERIES STUMP GRINDER TEETH & POCKETS

- Heavy-duty shank with an oval indent for a perfect fit into the S-Pro pocket and any other 3/4" pockets
- S-Pro Series is also a fit for Vermeer's Pro Series pockets
- Placement is easy as the notch allows a quick and secure fit of the indented shank into the pocket
- Pocket fits both sides of the wheel for a universal one-pocket inventory
- Torque the bolts to 220-225 ft lbs
- **Use CEI bolts (see page 58)**

ITEM #	DESCRIPTION	RETAIL

8014.CEI	Pocket: S-Pro	\$8.27

CEI UNI-PRO POCKET FOR CEI STUMP GRINDER TEETH

- A reversible, universal pocket that can go on either side of the wheel
- Pocket fits all CEI teeth series, except the CEI 500 Series
- Pocket fits both sides of the wheel for a universal one-pocket inventory
- Use CEI bolts (see page 58)

ITEM #	DESCRIPTION	RETAIL
8015.CEI	Pocket: Uni-Pro	\$8.27

CEI ACCESSORIES

ITEM #	DESCRIPTION	RETAIL
70075	Green Wheel: Sharpen the carbide tips of your stump grinder teeth.*	\$42.84
900024-T	Hex Socket: Quickly install and/or remove bolts.	\$8.00
800999	Tungsten Carbide Tips: Silver solder these carbide tips onto your existing teeth for a fresh cutting surface.	\$8.00

**CAUTION: Follow all safety guidelines as printed on the green wheel. Some of the steel behind the carbide may have to be removed. DO NOT sharpen the flat face of the carbide. Sharpening carbide can be hazardous to your health. Use an approved breathing apparatus and eye protection when sharpening.*

GREEN WHEEL

HEX SOCKET

TUNGSTEN CARBIDE TIPS

GREENTEETH® 500 SERIES STUMP GRINDER TEETH & POCKETS

- For stump grinders under 18 HP
- Available in green or red
- Green teeth feature a shallower dish on the concave carbide tip providing more resistance, but a slower cut when compared to the red teeth
- Red teeth feature a deeper dish on the concave carbide tip making them more aggressive with a faster cut than green teeth, but less impact resistance to the red teeth
- Three-position indexable – just loosen, turn and tighten for a fresh sharp edge.
- Torque the bolts to 180-200 ft lbs
- Use LoPro™ bolts (see page 58)

ITEM #	DESCRIPTION	RETAIL
783557	Tooth: Green	\$6.95
783557-1	Tooth: Red	\$6.95
783554	LoPro™ Pocket: Angled	\$8.25
784165	LoPro™ Pocket: Straight	\$8.25

GREENTEETH® 700 SERIES STUMP GRINDER TEETH & POCKETS

- For stump grinders 18-35 HP
- Three-position indexable – just loosen, turn and tighten for a fresh sharp edge
- Wearsharp™ design allows the tooth to retain a sharp cutting surface, unlike traditional teeth that tend to round over for a consistent cut through the lift of the tooth
- LoPro™ pockets feature a slim design that allows 3/4" clearance between the side of the pocket and the stump to prevent rubbing and wear
- Torque the bolts to 180-200 ft lbs
- **Use LoPro™ bolts (see page 58)**

ITEM #	DESCRIPTION	RETAIL

REVERSE-S™ KIT ^{NEW} FROM GREENTEETH®

- What sets the Reverse-S™ Cutting System apart from other wheels is the unique placement of the pockets in a reverse, spiral, step-out design that creates different cutting planes
- Cutting planes create a specific cutting pattern that:
 1. Provides a larger overall cutting arc
 2. Ensures the teeth are taking the proper amount of material for each pass
 3. Allows you to maintain a faster sweep speed
- Uses 900 Series LoPro™ pockets along with 2-sided Wearsharp™ teeth
- **Kit includes:** one Reverse-S™ wheel, thirty 900 Series Wearsharp™ teeth, twenty-four 900 Series LoPro™ angled pockets, four 900 Series LoPro™ straight pockets, two 900 Series LoPro™ right pockets, twelve LoPro™ 2-1/2" bolts, six LoPro™ 2-3/4" bolts, twelve LoPro™ 3" bolts, one Allen wrench/socket and mounting hardware specific to the stump grinder make and model application
- **Call for part numbers**
- **Dropship item direct to you with FREE shipping**

GREENWHEEL® KIT NEW FROM GREENTEETH®

- Using the same technology as the Quadwheel®, the Greenwheel® provides a performance upgrade with less of an investment
- Unique design of the wheel provides approximately a 30" gap between each set of teeth which offers several benefits:
 1. It allows you to start your cut farther into the stump
 2. Only one set of teeth are engaged at once and the break before the next set of teeth pass through the stump gives the motor a chance to regain RPM before starting another cut
 3. The arrangement of the teeth on each holder ensures the teeth will take the proper amount of material for each pass
- Uses only 2 holders, 6 Wearsharp™ teeth and 4 bolts, decreasing your maintenance costs
- Replaceable tooth holder is Grade 8 heat treated
- The placement of the holder is off-center which places the tooth nuts on the center line of the wheel thus protecting them from wear
- The holder places the teeth off the face of the wheel, significantly reducing wheel wear
- Replaceable mounting blocks use 3" LoPro™ bolts to secure the holders in place
- **Kit includes:** one Greenwheel®, six 900 Series Wearsharp™ teeth, two mounting blocks, two tooth holders, four 3" LoPro™ bolts, one Allen wrench/socket and mounting hardware specific to the stump grinder make and model application
- **Call for part numbers**
- **Dropship item direct to you with FREE shipping**

ITEM #	DESCRIPTION	RETAIL

QUADWHEEL® KIT NEW FROM GREENTEETH®

- Using the same technology as the Greenwheel®, but has two additional holders that will cut through your stump even faster
- Unique design of the wheel provides approximately a 15" gap between each set of teeth which offers several benefits:
 1. It allows you to start your cut farther into the stump
 2. Only one set of teeth are engaged at once and the break before the next set of teeth pass through the stump gives the motor a chance to regain RPM before starting another cut
 3. The arrangement of the teeth on each holder ensures the teeth will take the proper amount of material for each pass
- Uses only 4 holders, 12 Wearsharp™ teeth and 8 bolts, decreasing your maintenance costs
- Replaceable tooth holder is Grade 8 heat treated
- The placement of the holder is off-center which places the tooth nuts on the center line of the wheel thus protecting them from wear
- The holder places the teeth off the face of the wheel, significantly reducing wheel wear
- Replaceable mounting blocks use 3" LoPro™ bolts to secure the holders in place
- **Kit includes:** one Quadwheel®, twelve 900 Series Wearsharp™ teeth, four mounting blocks, four tooth holders, eight 3" LoPro™ bolts, one Allen wrench/socket and mounting hardware specific to the stump grinder make and model application

TERMS & POLICIES

OF GNE

PAYMENT TERMS

- Customers that qualify for credit are given terms of 1% 10 NET 30 unless otherwise stated in seasonal programs. Customers that do not qualify for open credit will be set up as credit card only.
- Credit card payments are excluded from early payment discounts.
- Past due outstanding invoices may be charged 1.5% interest monthly.
- Great Northern Equipment (GNE) accepts cash, check, Visa, MasterCard, Discover Card, American Express, Paypal, money orders, bank wire transfer and ACH electronic transfer payments. Credit card charges over \$25,000 must be approved on a case by case basis.
- International shipments required prepayment via wire transfer.
- A \$30.00 bank fee will be applied to all NSF checks.
- Past due accounts will be placed on credit hold until account is paid to current. Past due accounts over 60 days may lose credit terms or have their credit limit restricted with GNE. Prepayment or credit card payment may be required on future orders.
- Invoices for all orders will be distributed electronically via e-mail the following business day.
- GNE reserves the right to change/correct payment terms without prior notice.
- For more information, call to request the GNE Accounts Receivable policy.

PRICING

- Prices are subject to change without notice.
- GNE reserves the right to correct pricing errors on any/all print/electronic media.
- The prices printed in this catalog are the manufacturers' suggested retail prices. Your price will vary, depending upon purchase volume and freight.
- Contact GNE to determine your discount from retail price. Possession of a GNE catalog does not constitute a right to buy.

SHIPPING

- Unless a preference is indicated on the purchase order, orders will be shipped best way.
- If GNE is unable to fill an entire order, partial shipment will be made unless "Ship Complete" is indicated on the purchase order.
- Customer will calls are invited with a minimum 4 hour notice provided. Hours are 8 a.m. to 4:30 p.m. If possible, please notify sales of pick-up date at time of order placement.
- If will call product is not picked up within 3 business days, the order will be canceled.

FREIGHT

- The customer is responsible for filing a freight claim with the freight carrier for any freight damaged product. Notify the carrier once open if damaged. We recommend noting on the freight bill any noticeable damage to carton or product. Save all packing and cartons for the carrier to inspect. This ensures proper freight claim handling.
- GNE must be notified of any product shortages within 24 hours of receipt
- Freight is FOB Rogers, MN
- Additional charges may apply for manufacturer direct shipments.

RETURNS

- All returns must have a Sales Return Order number (SRO#) from Great Northern Equipment clearly marked on the exterior of the package or it will be refused. SRO#'s can be obtained by contacting a member of the Power Team.
- Parts returns are subject to a 20% restocking fee. Parts must be in original packaging.
- Returns of power equipment must be approved in advance, returned in new condition and will be subject to a restock fee.
- All special orders are non-cancelable, non-returnable and may be subject to a payment deposit.
- Special orders are non-cancelable and non-returnable.

INTERNET SALES

- Dealer shall not, directly or indirectly, sell any products by mail order or over the internet to geographies in which the dealer has no sales, installation and/or service personnel. Dealer shall sell the products only to customers located within the United States and that are located within the geographic area where the Dealer's sales force makes regular face-to-face visits with customers. The dealer's service staff shall set-up and instruct the user on the equipment (face-to-face), and provide after sale service and repairs. The customer must be located within a reasonable distance of the selling dealer's showroom. Please refer to product line specific rules and regulations prior to selling via the internet in your local dealer market.

CUSTOMER COMMUNICATION

- Customers are required to complete a customer set up form. GNE requires contact information for Accounts Payable and Purchasing before completion of customer setup.
