Dear Sherry,

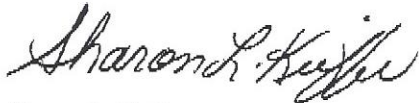

Sherry, I have always had total confidence in your ability to help us take this all they to **VICTORY!** I Realize another door has just been opened and we are a long way from this being over. You have given us hope from the beginning and encouragement when we were ready to give up.

I read the article in your news letter about the stanchions. Can I get a hard copy? It would be great if we can get a bill passed that stops the use of those horrid things. You have my support all the way on that one. I know money talks and when I have time to focus on another project, doing some fund raisers for you might be what I will do.

I have been talking with Tulare City about building a new kennel. It would be a state of the art facility, a three section project; Animal Control, Sheltering and our own Vet Clinic on site. I'll keep you up dated if you want.

I don't know what we would have done if Diane had not found you. Please let us know what the next step is. I have written thank you to Lockyer, Coony, Graves and Aquillana.

Sincerely,

Sharon L. Kieffer
