Performance By...

G03C84 performs best in medium to coarse textured soils. A semi-flex ear allows for planting population flexibility but best performance is at 31,000-34,000 plants/a. G03C84 excels on rotated acres.

Published June 14, 2016. For use until July 01, 2017.

Seed products with the LibertyLink® (LL) trait are resistant to the herbicide glufosinate ammonium, an alternative to glyphosate in corn, and combine high-yielding genetics with the powerful, non-selective, postemergent weed control of Liberty® herbicide for optimum yield and excellent weed control.
