DESCRIPTION: The 66 Bear Polar target bow was priced 9% above both the Kodiak and the Kodiak Magnum. This Polar is a great looking and performing target recurve. It features decorative overlays and a sight plate with brush rest. (The sight plate/rest alone sells for around \$100 on Ebay). Zebrawood and Bubinga riser. Bow has no delamination; no cracks; limbs are straight. Overlays and tips are in great condition. No drilled holes; No chips or cracks. A few minor scratches, dings and nicks here and there. The limbs had a number of superficial stress marks (no cracks), scratches and considerable "yellowing". I refinished the limbs but saved the original decals, which are only in fair condition and show the previously "yellowing" of the old varnish. There is also a 3" superficial stress line in the lower part of the decorative overlay, just above the limb (see pic p. 3)

Comes with a new string.
