Attach: ORDINANCE NO WAKE.doc
Subject: Ordinance for Wooster Lake

Hi Cindy and Howard,

Nice to see you both last night. Looking forward to next Tuesday.

I know you have much on your mind so I thought I'd e-mail you both this morning and repeat what I told you last night. The Village of RL passed the ordinance last night as presented. For that village to pass an ordinance they require two readings but last night they waived the first and passed it as presented.

Would the Village of Fox Lake be able to do the same next Tuesday? What worked great last night was, it was on the agenda for approved action, I made a presentation, discussion among the members and then a motion to approve. Is this possible for your village also? That way, I can have the county start working on the IGA with VRL for enforcement and then with Tanneron Bay for reimbursement.

I have attached a copy of the ordinance for your consideration. I will also bring with me a letter from the president of the Tanneron Bay HOA stating their support for the lake protection and their financial commitment for the reimbursement.

Please advise so I know the process you will be taking.

Thanks much and I truly appreciate your support on this important issue.

Bonnie
