

PRIMA 3IN1 Test meter Kit.

PRIMA 3 IN 1 Self-Testing Kit is a new High Quality, High Precision, multifunction diagnostic device, developed to execute measurements for cholesterol, triglycerides and glucose in the comfort of your home. PRIMA 3in1 is a new unique multifunction test meter which uses two different technologies: 1) AMPEROMETRIC technology for glucose testing and REFLECTOMETRIC technology for cholesterol and triglycerides testing. The meter gives results in about 30 seconds. Very simple to use. The meter switches on automatically when the test strip is inserted. The meter uses a large display for easy reading. The system remains clean and hygienic because it uses the strip ejector which removes the old test strip. The meter has a memory capacity of 500 measurements with date and time display. Measuring range: Cholesterol 3.3-10.2 mmol/L (130-400 mg/dL) - Triglycerides 0.56 - 5.6 mmol/L (50-500 mg/dL) - Glucose 0.6 - 33.3 mmol/L (10 - 600 mg/dL). Power source 3.2V Lithium button cell, type CR2032, approx. life time 1000 measurements. Optionally it is possible to connect the reader to a PC, downloading and managing the results. Dimensions: 97 mm x 49 mm x 20.5 mm. Weight 65 g (incl. battery). KIT CONTENTS 1 Prima Test Meter, 5 pcs. Cholesterol test strips + Data-chip, 5 pcs. Triglycerides test strips + Data-chip, 10 pcs. Glucose test strips + Data-chip, 1 Lancet device, 25 pcs. sterile Lancets, Instruction Manual. (English) 1 case.
