

eyeXpress™

redefining in-office
Dry Eye Therapy

FDA Class 1 Device

The eyeXpress™ eye hydration system provides therapeutic relief for dry eye and eye strain. It is an affordable, hands free device, developed for in-office therapy to relieve symptoms of dry eye, while assisting eye hydration. Our unique goggle system applies continuous and controlled heat to the upper and lower eyelid at the same time. The eyeXpress™ also treats both eyes simultaneously, saving time for both the patient and technician.

Key Points

- Noninvasive
- Technician Friendly
- Hands Free
- Portable and Compact
- Patient Friendly
- Comfortable
- Treats both eyes Simultaneously
- FDA Cleared
