19 December 2012

To whom it may concern,

The South Lebanon Township Board of Supervisors approved an extensive addition to the police department and renovation of the existing municipal building, to be performed during 2012. The project also included a new maintenance building for use by the township highway department.

Balton Construction, Inc. was selected as the general contractor, with Gregg Palmer being the project manager. Balton Construction and their selected sub-contractors, completed the project on time and we are very impressed with the finished product.

As a project manager, Gregg is detail oriented and was very responsive to all questions and concerns that were presented to him. We found Gregg to be available at all times and he was more than willing to go the extra mile to be sure that we were satisfied with the project.

A handwritten signature in black ink, appearing to read "Michael E. Leshner".
