“We Care About What You Hear!”

Meet Max, the ‘Super Power’ That’s Clearly Different

Our patients with a severe to profound hearing loss may have thought their hearing aid choices were limited. We’re pleased to introduce a new option: Max™, a Super Power hearing aid designed to give those with severe to profound hearing loss what they need most.

Max is so innovative, it can automatically “shine a spotlight” on speech in noisy situations. There’s much more to Max, including improved telephone listening, protection against sudden sharp sounds and wireless connectivity with your favorite audio devices, such as an iPod, TV or cell phone. In short, Max delivers more than you’d expect from a super-power hearing aid!

Is Max right for you? Call us at 315-676-1041 to schedule a complimentary, no-obligation consultation and product demonstration.
