

# YOU CAN HELP US FIGHT THE TANK!

## How?

We can fight the effort to place a sewage tank in our wonderful Fiesta Gardens neighborhood by **humanizing the problem**. Let all of our city leaders and officials **see the faces and hear the voices** of those whom they're impacting.

## What can you do?

**1) Write a brief personal testimonial (1-2 paragraphs) on behalf of you / your family explaining the effects a sewage tank installation would have on you.**

**2) Find pictures of you / your family / your kids. Even better if they're at a community event or playing in the park / at the pool.**

Send both of the above to [john.f.quaresma@gmail.com](mailto:john.f.quaresma@gmail.com) with the subject line "NO TANKS in FG!"

## Where will this go?

We will create a scrapbook of these testimonials and photos, photocopy them, and send them, along with our official community statement in opposition to the Fiesta Gardens tank proposal to:

- San Mateo City Council
- Public Works Director Brad Underwood
- Mayor Joe Goethals
- Deputy Mayor David Lim
- State Senator Jerry Hill
- Congresswoman Jackie Spier

Hopefully, putting a human face on this problem will drive home the fact that putting this tank in Fiesta Gardens would be a **catastrophic mistake**. **Our city leadership should be putting its citizens first!**
