Please take a look at the important information here and on our Home page regarding individuals targeted with neuro/other energy weapons. This is an unconstitutional horror affecting vast numbers of people around the globe. In an ultimate act of barbarity and treason here in the United States, the military (DOD) & CIA continue to target our own.... ANYONE can be (mind) captured... MKULTRA & COINTELPRO never ended... <http://www.abovetopsecret.com/forum/thread59987/pg1#pid626088>.

To immediately sign-up to help however you can, or otherwise contact us, use the contact webform at our site, ourconstitution.info, or email Judy at info@ourconstitution.info. This is a world-wide tragedy and we need help from everyone-wherever you are! YOU may be (mind) captured, and not even know – all they need is DNA (saliva) – or ...be subjected to extremes of touch, sound, radiation > ALL RAPE > HELL ON EARTH Feel free to print/forward copies of this page and website to let others know.

DAVID VOIGTS - NAVAL OFFICER - NEUROTORTURE WHISTLEBLOWER

Please learn more about this US targeting from Navy whistleblower and systems engineer David Voigts, who deliberately got hired to administer neuro-torture, so that he would understand the operation, and then shut it down. He has since become a Targeted Individual (TI). We thank David immensely for his courage and conviction, and for standing up for Americans, humanity, and Our Constitution.

Dr. R Duncan 00:20 "...I merely came forward because my research...led me to a group of people that they call Targeted Individuals...ultimate technology...interface w the human brain... 1:00 very dark topic...torture...no-touch torture... 2:20 most sophisticated weapons system humanity has ever created...involves every aspect of science...tactics that are unimaginable...destroys lives...used on innocent people... 3:00 they don't want this exposed...that is why I am speaking forward...sophistication is enormous...

...4:26 brain hacking, mind hacking...I'm gonna blame [CIA] the most...military also does it...Dr. Delgado... 6:44 bathed in Earth's magnetic field...ESRI...don't want people to know... 7:24 can't get away from it... 8:18 multi-modal, all integrated...land, sea, air...HAARP... 8:40 I probably interviewed a thousand targets...every time the military gets a bigger budget, especially after 9/11, more targets came online...probably redundant systems...

...9:22 no single source of the energy... 11:25 mind reading...not black and white...under the exact right circumstances...yes... 12:53 it would appear that initially the, the person's brain-print, their particular energy signature...like a thumbprint...needs to be collected - before the long process of retraining the brain to listen to, ah, another human being's brain or a computer... 13:30 localized censor system...distance becomes irrelevant almost, anywhere on planet Earth...

...14:53 It grows with you, it learns with you...why these experiments are lifelong generally, not always...trying to grasp all sorts of data... 15:37 this is called offensive information warfare technology...trying to crash that computer...crash that human being...map out all of the motivations we have...primitive...cultural...try to manipulate...altering emotions... 16:43 imagine what future police will look like...

...[to end] 47:44 technology's neutral... 48:10 Gotta take this out of the hands of the military...put it in the hands of civilians and we'll find the good uses for this technology...awareness...we gotta keep speaking about it and make people care..."

2:03:59 "...I can't believe the CIA is that down & dirty...it truly is unfathomable how psychopaths actually represent a major part of our society... 2:07:13 Is it ever going to stop & how?..."
