

The
**Golden
Sovereign**
Series
of Great Bows

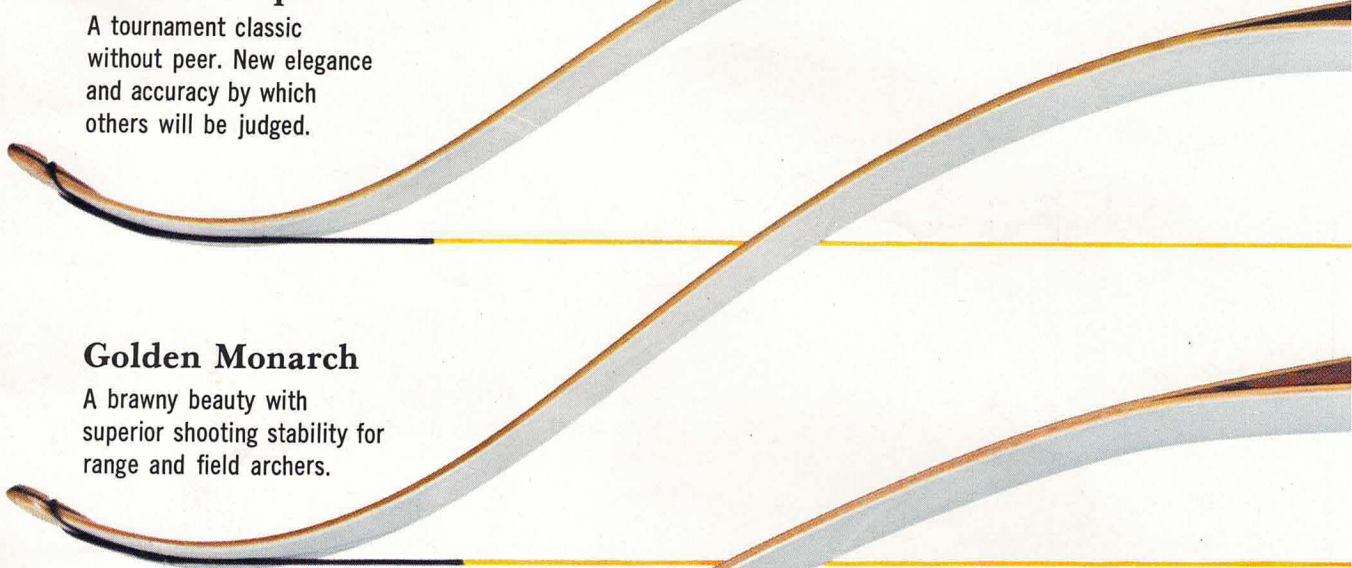

Golden Emperor

A tournament classic without peer. New elegance and accuracy by which others will be judged.

Golden Monarch

A brawny beauty with superior shooting stability for range and field archers.

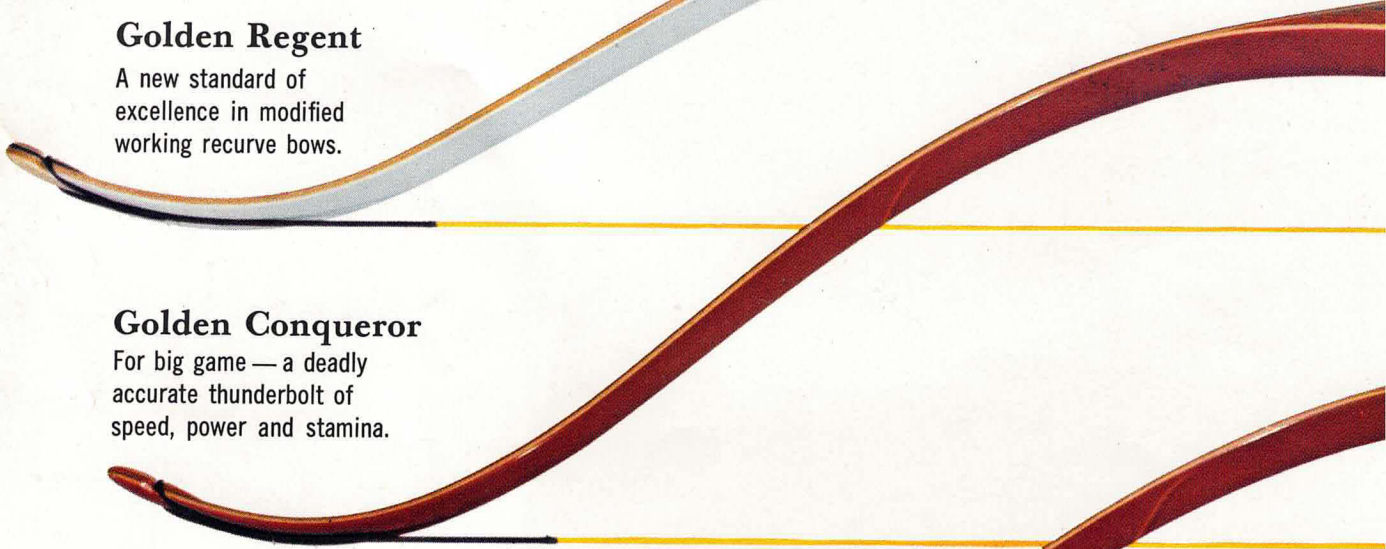

Golden Regent

A new standard of excellence in modified working recurve bows.

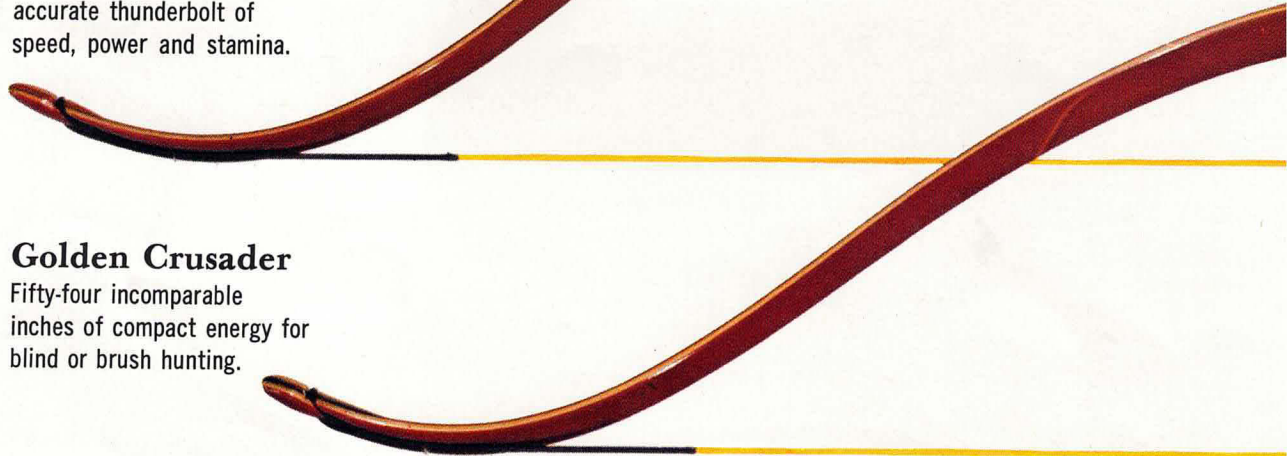

Golden Conqueror

For big game — a deadly accurate thunderbolt of speed, power and stamina.

Golden Crusader

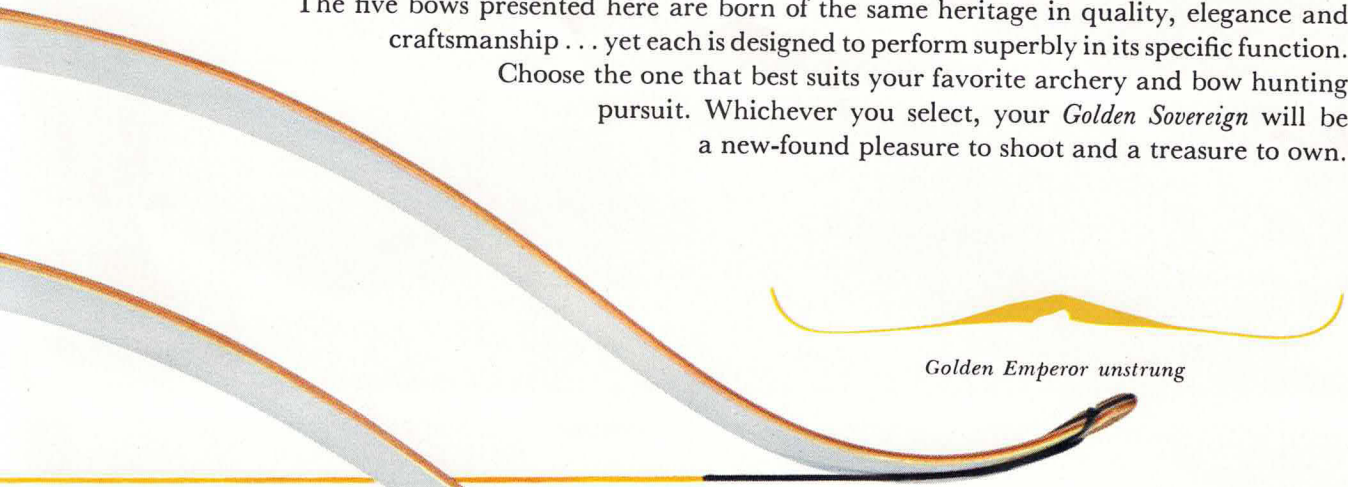

Fifty-four incomparable inches of compact energy for blind or brush hunting.

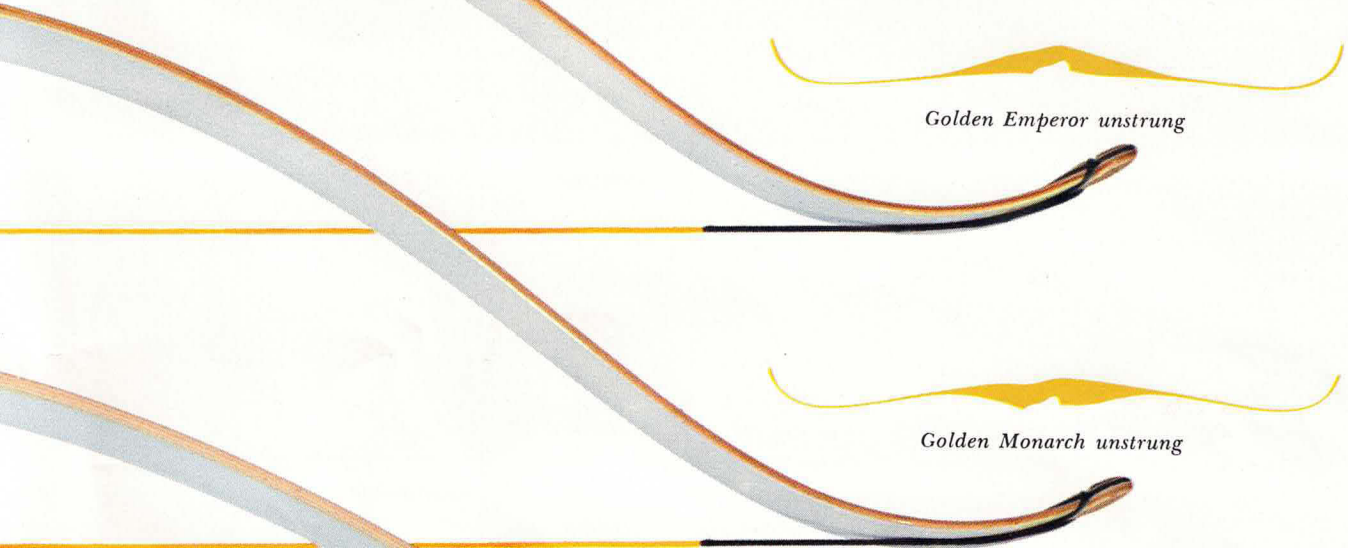

Introduce yourself to a new world of shooting excellence. *Golden Sovereign* is an outstanding triumph of research, development and testing by dedicated technicians and bowyers. The result is a bow concept so superior that it will obsolete many present day ideas of how a fine bow should handle, and feel, and shoot.

The five bows presented here are born of the same heritage in quality, elegance and craftsmanship . . . yet each is designed to perform superbly in its specific function.

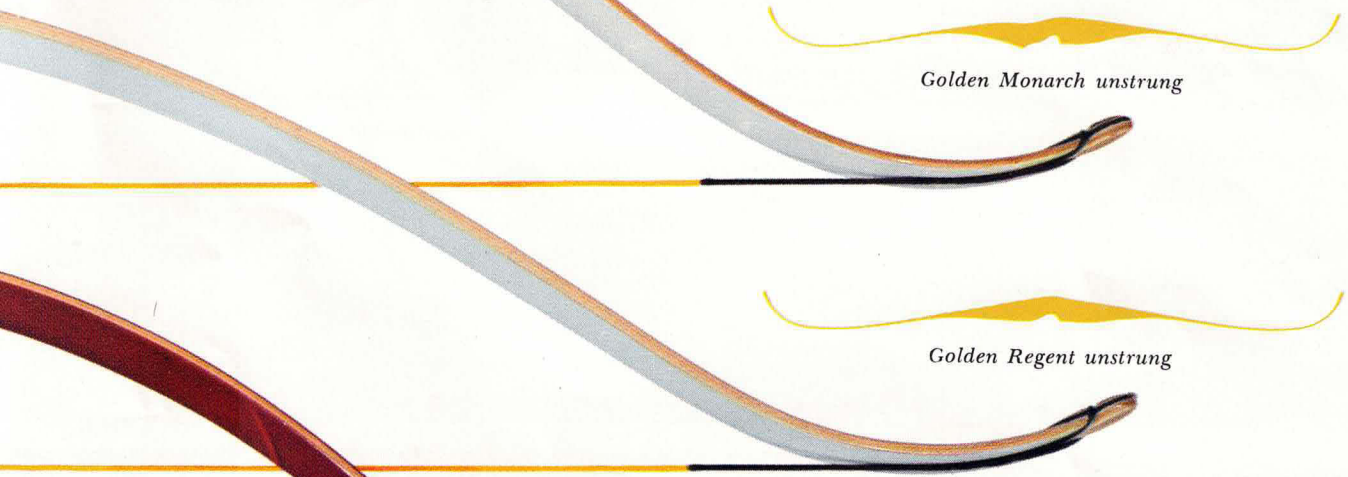

Choose the one that best suits your favorite archery and bow hunting pursuit. Whichever you select, your *Golden Sovereign* will be a new-found pleasure to shoot and a treasure to own.

The **Golden Sovereign** Series of Great Bows

Every one—a pleasure to shoot...a treasure to own

Golden Emperor

The discriminating archer will appreciate immediately the graceful design, elegant hardwoods and fine furniture finish of *Golden Emperor*. But this polished shooting instrument has a beauty that reaches deep beneath the surface; it is designed solely to master the art of accuracy . . . it belongs in the hands of champions. Perfect balance, remarkable cast and keen sensitivity give *Golden Emperor* an almost inbred sense of pre-

cision. This distinctive bow is destined to reign supreme in tournament competition. *Golden Emperor* will always reflect the good taste and high quality standard of its owner.

No. 1000 — Length: 68", Weights: 35 to 65 pounds
No. 1001 — Length: 66", Weights: 30 to 65 pounds

Golden Emperor **\$79.50**

Golden Monarch

The flashing performance of *Golden Monarch* can be attributed to its extreme stability. It has a man-sized pistol grip and extra-broad overdraw. These advantages make it rock-steady at full draw . . . silk-smooth on release.

The fully-recurved *Golden Monarch* is offered in two popular lengths—66" and 62". For women archers, the shorter-limbed 62" model is light in the hand and extremely accurate—a

delicately designed and decisively dependable bow for target shooting. All archers who prefer a well-balanced, full-throated handle section should seriously consider *Golden Monarch*.

No. 1003 — Length: 66", Weights: 30 to 65 pounds
No. 1004 — Length: 62", Weights: 25 to 60 pounds, (weighed at 26")

Golden Monarch **\$69.50**

Golden Regent

If you're partial to a modified working recurve bow, prepare yourself for a surprise. *Golden Regent* has elevated the modified working recurve principle to a new height. This princely *Sovereign* has an inherent smoothness and control far beyond your expectations.

For many, *Golden Regent* will serve as an ideal all 'round companion for range and field . . . even hunting use. And of

course it has all the quality craftsmanship and superior shooting ability of every *Sovereign Bow*.

In fact, after just six arrows we'll bet it will spoil you for any other modified recurve bow—bar none.

No. 1005 — Length: 66", Weights: 30 to 65 pounds

Golden Regent **\$49.50**

Golden Conqueror

From big bruins and bucks to bounding bunnies—this lean-sinewed bow is built to buckle the best of 'em. Power and speed are *Golden Conqueror's* middle names.

Here you'll discover an unusual bow that struts a rare blend of beauty, balance and brawn. Sure, the design and performance have the distinctive *Sovereign* character. But the controlled power of its fully recurved limbs give it game-getting authority. Just feel the way this mighty hunter unleashes a

broadhead with such precision and force—it's half the thrill of the hunt!

So if you're serious about your bow hunting, take along a *Golden Conqueror* and take your share of trophies with the bow that's built to win the *top spot* among hunting weapons.

No. 1006 — Length: 62", Weights: 40 to 75 pounds

Golden Conqueror **\$49.50**

Golden Crusader

A 54" compact—packed with power. There's nothing "cute" about this compact-size bow, except its length—the rest is pure *power*. This tough little woodsman is capable of taking its toll of even the largest game.

Golden Crusader is functionally short for use in heavy brush, tree blinds and confined shooting positions. Great care was taken in its design to virtually eliminate "stacking" at full draw.

For its 54" length, cast and release are amazingly smooth. Whatever your game or hunting terrain, you'll find this carbine of archery weapons is a worthy and reliable challenger.

No. 1007 — Length: 54", Weights: 40 to 75 pounds

Golden Crusader **\$59.50**

The Story of *Excellence* unequalled

If you are easily satisfied with any bow, a *Golden Sovereign* is *not* for you. These shooting instruments have been designed, crafted and perfected by expert bowyers to the uncompromising standards of exacting archers who settle only for the outstanding.

You'll have to shoot one to discover this. Mere words can't do justice to the pure pleasure and precision performance of a *Golden Sovereign* in action. There's the immediate recognition of fine balance. The exultant feel of its incredible cast. The solid assurance of dead-true accuracy.

At the range or on the hunt, those who aspire to success will discover a new high level of shooting confidence with *Golden Sovereign*.

These are bold assertions . . . but the proof is easy. Just take this bow, nock an arrow, draw, release—and wait for that first wonderful moment of astonishment.

A limited number of personally selected franchised dealers is being appointed for *Golden Sovereign*. Ask the top-rated store or shop in your community about the *Golden Sovereign Series*. If they cannot supply you, write Golden Sovereign Division of Ben Pearson, Inc., Pine Bluff, Arkansas.
