Orders due September 24 pickup October 10

## **Balsam Fir**

Soft, waxy, aromatic, likes sun and cool moist well drained soils. Used for paper and lumber, a favorite Christmas tree.

**Michigan Native**

## **Black Spruce**

Also called swamp spruce, moist, cool sites, used by wildlife for shelter and small animal food. **Michigan Native**

## **Blue Spruce**

Slow to moderate grower in fertile loams and clays. Used for windbreaks, wildlife and very popular Christmas tree, blue color varies with nurseries.

## **Norway Spruce**

Fast grower, does well on well to poorly drained soils, clay and loam sands, identified by its drooping branches and large cones. Used for windbreaks, timber, pulpwood and wildlife.

## **Red Pine**

Moderate to fast grower, prefers well drained soil, sand, loam, gravel. Used for windbreaks, timber, pulpwood and wildlife. **Michigan Native**

## **White Cedar**

Prefers cold, wet sites with slow drainage, but not stagnant water. Wide variety of wood uses and the most important winter food of Michigan's whitetail deer herd. **Michigan Native**

## **White Pine**    *Our State Tree!*

Slow grower at first but once established grows faster, moist sandy loam, but will grow from swampto sand. Used for timber, windbreaks, pulpwood and wildlife. **Michigan Native**

## **White Spruce**

Slow to moderate grower in fertile loams and clays, faster when established. Used for lumber, pulpwood, Christmas trees, wildlife, deer are not overly fond of these. **Michigan Native**

We always suggest using planting gel to help with plant survival.  
Planting gel helps keep moisture around the roots of the trees.

Thank you for supporting The Arenac Conservation District!
