

### NASW-Florida Supports Social Work Education During COVID-19

NASW-FL is providing a series of online training, case study analysis experiences, and practice conversations to support social work students and educators in Florida who are responding to the transition to online courses and remote or limited field placement opportunities. The following series is available to all students and may be used to supplement field and coursework at no cost. Pre-registration is not required. Once in the Zoom session, all participant will enter their contact information in the chat. Following completion of a session, NASW-FL will provide an electronic certificate to all participants. Hopefully this will ease some of the burden of recent changes while maintaining the professional integrity of our social work programs and the CSWE standards. Some of the sessions expect students to read a professional article or case materials prior to the session. All materials will be posted on the NASW-FL website homepage by 3/26/20. All presenters are members of the NASW-FL Board of Directors, previous board members, social work leaders, or previous NASW-FL presenters. Please direct all questions or suggestions on additional sessions needed to Carol Campbell Edwards at [president.naswfl@socialworkers.org](mailto:president.naswfl@socialworkers.org)
